## Construction Noise Regulations Amendment

The City Council will hold a public hearing on April 4 to consider changing the hours when noise from construction activity is allowed. Existing Snohomish Municipal Code (SMC) allows construction activity noise 7:00 a.m. to 10:00 p.m. on weekdays and 9:00 a.m. to 10:00 p.m. on weekends. The same rule applies to sounds coming from home repair and maintenance projects. If the sounds are made during the off hours, they are a public disturbance noise, which is a civil infraction and could include a \$100 fine.

The Council discussed this issue at their November 15, 2016 meeting, but did not arrive at a clear consensus as to how, or even if, the rules should be changed. However, changing the 10:00 p.m. noise ending time to 9:00 p.m. received the most support.

At the April 4 public hearing, Council will consider an ordinance to amend SMC 8.16.010, which defines what a public disturbance noise is. The ordinance, if adopted, would change the prohibited hours to 9:00 p.m. to 7:00 a.m. weekdays and 9:00 p.m. to 9:00 a.m. on weekends.

The ordinance also includes an exemption from these rules for public works projects such as street paving.

To receive a copy of the draft ordinance or to get more information please contact Planning Director Glen Pickus at [pickus@snohomishwa.gov](mailto:pickus@snohomishwa.gov) or at 360-282-3173.
