Welcome to Our Interactive 2025-2026 Digital Budget Book

We are pleased to present the City of Snohomish's Operating and Capital Budgets for fiscal years 2025 and 2026 in interactive digital format.

Key features of this format include:

A **navigation** bar, found just below the photo banner, enables you to locate any section of the book you wish to view.

The **Print** feature allows you to generate a printable PDF version of one or more sections of the book. Please see the blue "Print" icon to the right-hand side of the navigation bar.

Dynamic **charts** and **graphics** throughout show financial details in an easy-to-understand visual format.

Cost Allocation Plan Summary (unmatched) ... 596

Key Changes to 2025-2026 Adopted Budget

1. There is an additional $847k allocated in 2025 for new equipment purchases. These were in the adopted budget, but cash basis accounting requires funds not used in 2024 to be transferred back if unspent. This amendment re-allocates that funding.
2. Adds a total of $1.6M in grant funds through the Washington State Department of Commerce for the Public Safety and Civic Services Campus. One grant for $679k was anticipated in 2024, but the revenues were received in 2025. The City also received an additional $970k in 2025.
3. All funds approved for the Campus in the FY25-26 budget were originally combined in the Streets Capital Fund. This amended budget officially separates the funding according to the two packages: infrastructure and design of the buildings. This requires a $2.87M reallocation from the Streets Capital Fund to the Municipal Capital Fund for the design of the Public Safety and Civic Services Campus.
4. The City had a $3M grant anticipated from HUD for the infrastructure portion of the Campus work. As a full federal budget was not appropriated for 2025, that grant was eliminated. This amended budget removes that $3M from revenue.
5. There is a $3M reduction in expenditures in the Wastewater fund as a result of planned filtration upgrades for the wastewater treatment plant being delayed until 2027 due to back-order of materials.
6. There was an error in duplicated revenues within the Stormwater fund, so this amended budget includes a $1.4M reduction in Stormwater billings to align with current revenue trends.
7. A $700k reduction to Park Impact Fees revenue has been made, with those projected revenues delayed until 2027 due to project development delays.
8. Various updates throughout all funds to reflect updated cost / rate data available.
9. A $941k reduction to the 2025 beginning fund balances to align with 2024 year-end financials.

Net Change: A projected $1.4M increase to total ending fund balance in 2026, going from $26.9M in the adopted budget to $28.3M in this amended budget.

Mayor's Message

Mayor Linda Redmon

Honoring Our Past by Investing in Our Future

Welcome to the 2025-2026 Budget. Thank you for making the effort to be an informed member of our community by reviewing this document. What you will see in this budget is an effort to start making the hard choices that have been put off in recent years; doing what's right for our community now and in the future, not just what's popular. The goal of this budget is to honor and care for what past generations built so that future generations may enjoy the well-being and quality of life we have in Snohomish.

The work we do for the City is a reflection of the needs and aspirations of our community. The City Council, as your elected policymakers, are an extension of you. Their priorities dictate the focus of the work of the City. Your input to the Council and to City Hall helps us work together to serve you better. It has been an honor to serve this community as your Mayor and to try to meet the needs that you have shared with us during my tenure so far.

For the past year, the City sought and collected community input and incorporated it into this budget, as well as the Comprehensive Plan update that will guide the City for the next 20 years. As part of the Comprehensive Plan update process, cities must conduct an assessment of current conditions and make plans to address current deficiencies and anticipated needs. The assessment conducted as part of Snohomish's Comprehensive Plan process identified significant gaps but also many opportunities. It is our responsibility not only to address current issues but also to seize those opportunities that will keep our community safe, save taxpayers money in the long run, make more efficient use of resources, and future-proof City facilities and services.

The assessment of our current facilities and services revealed that we have a tremendous amount of aged infrastructure and facilities that have been put in place over many years, going back to when Snohomish became the first incorporated city in the County. Many parts of the water and sewer systems have not been updated since they were originally installed nearly one hundred years ago. The assessment revealed how some of this infrastructure is failing at increasing rates, continually increasing our costs to keep the systems functioning and keep our residents safe. Balancing costs and benefits has led to the realization that we have reached the point where we need to begin replacing parts of the water and sewer systems that are far past their lifespans.

The assessment also provided data on how much it would cost to try to bring existing City facilities up to current standards of occupational safety and health, emergency preparedness and resiliency, technological capability, and energy efficiency. Currently, our facilities cannot accommodate modern technology that allows us to meet service expectations and the aged facilities are expensive to operate due to inefficient energy usage and needed repairs. We cannot electrify our fleet as needed due to the inability to build charging infrastructure where our public works equipment is now located, and City revenues would continue to be lost to annual repair and operational costs that do nothing to add service capacity as the city grows in the future. The analysis showed that we would have to spend more than half as much to make needed repairs and improvements to existing facilities just to bring them up to current needs as it would to build efficient, flexible, and future-proof facilities that will accommodate Snohomish's needs for generations to come.

The investments you will see in this budget reflect our plans to begin work on identified infrastructure needs. Addressing these needs has been a focus of my administration and concerns about aged infrastructure were mentioned in responses to our budget and policy survey. We cannot wait for a catastrophic failure of any of our essential systems; that will only cost rate payers more. You might think of our situation as this: you have an older car that starts making a knocking sound. You can decide not to take it in right away because you think you can limp along and don't want to spend the money. But one day you're going to find your car broken down in the driveway, and now you can't get to work. In the case of a city, deferred maintenance could be disastrous. We can't let this happen, so we are doing the responsible thing and taking care of identified issues now.

In addition to addressing aged infrastructure, you will also see that we are investing in the future by working to modernize and increase access to the services we provide, with the benefit to residents and businesses of reliability, responsiveness, and convenience. For example:

- This budget is being presented to you in a new online tool that will allow you to delve into details in the ways that are most meaningful to you. As this tool is built out, you will be able to find information on specific capital projects and track what stage the project is in, what has been spent so far, and what expenses are still to come.
- This budget allocates funds to begin instituting an online public records portal that will lead to faster and easier access to the records of the City. When records requests come in, their results will be tagged and made accessible online with keyword searching for future requesters. As the database grows, more and more records will be available for quick access. This will also cut down on the amount of resources that the City must spend each year to fulfill these requests, saving taxpayer dollars.
- This budget also includes funding for work on the Americans with Disabilities Act transition plan to make City facilities and amenities more accessible, and funds to increase accessibility of the City website for those with disabilities, both of which are mandatory and necessary.

The Public Safety and City Services Campus is one of the biggest projects the City has ever undertaken, and will result in improved service efficiency, energy savings, and emergency response coordination. Working together with Fire District 4, and creating spaces that can be used jointly by the City, the Police Department and Sheriff's Office, and the Fire District, makes smarter use of taxpayer funds. The improvements to the infrastructure around the campus are expected to promote economic growth that will benefit the community financially in the long run. For this project, we will not raise taxes but rather plan to pursue a bond rating for the City and issue general obligation bonds for the majority of the funding. This makes more productive use of funds and ensures that future beneficiaries of the improved facilities and services also bear some of the cost, not just those who will benefit now.

Another large project is the North Sewer Trunkline and associated sewer improvements. The City has a legal responsibility to build out this sewer capacity, and doing so adds the needed infrastructure to accommodate future anticipated development. The need for such progressive planning was also mentioned in the budget and policy survey and has been brought up in public comments many times over the years. These types of projects are always very costly, adding over $5 million to this budget, but this investment in our future will pay off over time.

With an increase in capacity comes growth and concerns about the impact of additional people and cars. We have built into this budget traffic-calming and pedestrian infrastructure work. It can't all be done at once, but we are starting and

phasing work based on the priorities we heard from the community in all the outreach done over the past year.

As you've experienced in your own life, the City's costs for goods and services have gone up across the board. We, too, are looking for ways to make the most out of the resources we have, but this budget does reflect that most things cost more for the City to do. We are fortunate that Snohomish is not faced with deficits and that we have the resources to take care of what we must because of thoughtful decisions. In fact, most of the ending fund balances for this budget are higher than the ending fund balances in the amended 2024 budget. The overall 2026 ending fund balance is a 23% increase (or $4.99 million) over the budgeted overall 2024 ending fund balance. I want to note that we had lower than anticipated expenditures during the last budget cycle due to a number of delays in starting and completing projects, many of which were the result of supply chain issues. Those monies have been carried forward into the 2025-2026 expenditures to complete those projects already underway.The projected ending fund balance for 2024 was around $22.8 million higher than budgeted because of these delays.

In addition to fulfilling our responsibility to care for our infrastructure and other facilities, the capital expenditures you see in this budget are meant to make life in our city better in many ways. In brief, this budget reflects the City beginning work on approximately $3-5 million in parks improvements and approximately $60-65 million in streets and transportation infrastructure projects that are currently included in the Capital Improvement Plan for the next five years. We will start work on another approximately $25-29 million in sewer, water, and stormwater infrastructure projects planned for that timeframe. These projects are made possible by grants from the state and federal governments, utilities funds that are restricted for capital purposes, development impact fees, the Transportation Benefit District sales tax, and real estate excise taxes. You can easily see the breakdown of the funding sources for the 2025-2026 portion of these projects in the Revenues by Source section under Funding Sources - Budget and Financial Structure and in the Departments & Fund Overviews sections.

Along with the traditional parks, streets, sewer, water, stormwater, and facilities projects, in this budget you will see a new program we hope to build out in the coming years that will address the numerous sidewalks requests and concerns we regularly hear about. Even though sidewalks are the responsibility of the adjoining property owner, the public has always asked the City to step in to take care of issues. This led to many layers of problems when property owners did not want to address the condition of their sidewalks. We plan to take a more active role in collaborating with property owners to ensure sidewalk issues are addressed as soon as possible. We will be piloting a funding plan and partnership program as chosen by the public in the budget and policy survey. This innovation is designed to make meaningful progress toward addressing the condition of pedestrian pathways throughout Snohomish to improve life here for everyone.

This budget is a more accurate reflection of the true costs of the City’s operations. The previous budget was largely based on baseline data passed down from previous budgets. Finance Director Alisha Hendren and City Administrator Heather Thomas-Murphy have spent the last year working with the leadership team to true up our accounting with our budgeting and have been able to present a more accurate picture than ever before of our financials. I cannot thank them enough for their many hours of hard work.

Going forward, we will continue to work to correct past inaccuracies in accounting, improve financial policies that we inherited, and present accurate and up-to-date accounting of the City’s financial picture on an ongoing basis. We want to make sure that you can see how the funds you contribute are utilized to provide you with quality services, and the value you get back for what you put in. Our goal is for you to be able to see how every dollar you put in helps make Snohomish thrive.

Respectfully yours,

Mayor Linda Redmon

Reader's Guide

Reviewing a city's budget can be overwhelming, both in terms of its length and with the technical and financial information included. Staff have tried to limit the use of jargon and complicated terms throughout the budget. There was also a conscious effort to balance transparency without loading the budget down with more charts, tables and explanations than is reasonably needed. This reader's guide provides a general roadmap for what can be found within this budget document. It lists each major section of the budget, in the order that it appears, with a brief description of each section.

Introduction and Overview

Includes the budget message from the Mayor, as well as an overview of the City of Snohomish's demographics and organizational structure. It also includes definitions of commonly used terms and acronyms included throughout the budget document.

Budget Overview

Provides an executive summary of the budget, along with details on the budget process, principles, and personnel. This is where financial information for the City as a whole is summarized, complete with tables and charts showing overviews of revenues by source and expenditures by function. This section also includes information on the City Council's adopted goals for 2025-2026.

Fund Summaries

This section provides a breakdown of the budget's revenues and expenditures across its 22 funds compared to previous biennial budgets.

Funding Sources

Revenues come into the City from a number of sources. This section provides more detail about those revenue sources.

Departments and Fund Overviews

This section presents budgets by department and fund. Each department includes a fund overview, key accomplishments and challenges from the previous budget, and highlights of what is anticipated in 2025-2026. Each department or fund also includes information on key budget changes from the last biennial budget submitted for Council consideration.

Capital Improvement Program

Provides details about the capital programs included in this biennial budget, as well as the full five-year capital improvement plan (CIP).

Supplemental Information

This section goes live following adoption of the final budget, with inclusion of the adopted budget ordinance and a summary of the cost allocation plan.

Land acknowledgment

We acknowledge the original inhabitants of this area, the Snohomish people, and their successors, the Tulalip Tribes. Since time immemorial, they have hunted, fished, gathered, and taken care of these lands. We respect their sovereignty, their right to self-determination, and honor their sacred spiritual connection with the land and water. We will strive to be honest about our past mistakes and bring about a future that includes their people, stories, and voices to form a more just and equitable society.

First Peoples

The City of Snohomish is located at the confluence of the Pilchuck River and the Snohomish River. The first settlers of the area were the Sdohobsh, Native American fishermen, hunters, and gatherers who were a subdivision of the Snohomish Lushootseed-speaking Native American tribe. In 1855, members of the Snohomish tribe were on hand in Mukilteo to sign the Point Elliott Treaty that established four reservations. By the time white settlers began arriving in the late 1850s, most Native Americans had relocated to the Tulalip Reservation near Marysville.

Photo courtesy the Snohomish Historical Society.

Cadyville and the Early Years

The first white settlers in what is now the City of Snohomish included Heil Barnes and Edson Cady. Their goal was to establish a settlement at the mouth of the Pilchuck River where it empties into the Snohomish River. Cady staked his claim for land and applied for a post office permit for “Cadyville.” Meanwhile, Barnes was staking a claim for Emory C. Ferguson right next to Cady’s claim. In 1859, he had a cottage shipped by boat from Steilacoom to the claimed land and re-assembled it for Ferguson’s use. Ferguson arrived a year later in the spring of 1860.

Snohomish County was established January 14, 1861, with the first county seat in Mukilteo. In July 1861, the seat was moved to Cadyville after a vote of the people. At the time 49 people, all men, called Cadyville home. Woodbury Sinclair purchased Cady’s stake in 1864 with the intention of establishing a store supporting the area’s booming logging industry. In 1871, Ferguson platted his claim giving streets running eastwest a number and the north-south avenues a letter. A year later, Mary and Woodbury Sinclair platted the claim they had purchased from Cady and named the avenues after trees.

Cadyville became known as Snohomish in 1871 when the plat of Snohomish City Western Part joined Ferguson’s eastern claim with Sinclair’s western claim at Union Avenue. Ferguson is often called the “father of Snohomish,” while Mary Low Sinclair is remembered as the “mother of Snohomish schools.”

Originally, Snohomish was established to support the surrounding agricultural community but soon became a logging town as well because of the area’s dense forests of Douglas Firs. Brothers Alanson, Elhanan, and Hyrcanus Blackman migrated to Snohomish from Maine and established their first logging camp in 1875 on what was then called Stillaguamish Lake, now known as Blackmans Lake. Hyrcanus went on to become the city’s first mayor after a special

election in June 1890 to incorporate the new town. Five months later, during the general election in November, Ferguson was elected to be Snohomish's first full-term mayor.

Snohomish's Heritage

The first sawmill in Snohomish began its operations on the Pilchuck River in 1876. In 1878, the Blackmans opened their own sawmill which was located on the Snohomish River. By 1884, 700 people called Snohomish home. There was a courthouse, school building, six saloons, and one church in town. The Snohomish train station was built in 1888. The first train to arrive in town was a Seattle, Lake Shore & Eastern Railway train. Electric lighting followed the arrival of the first train in 1889. By 1893 the Great Northern Railway from St. Paul to Seattle was completed, including a stop in Snohomish.

When Snohomish was incorporated in 1890, it became the first incorporated city in the county. It had a population of 1,995 people which grew to 3,000 by 1895. In 1897, the county seat movedfrom Snohomish to Everett after a disputed election.

A Carnegie Library was built in 1910 on the site of what was a one-room school house on Cedar Avenue. In 1911, many of the buildings on First Street were destroyed in a fire that extended up Avenues B and C. They were largely replaced by brick and masonry buildings. Although the Carnegie Building is no longer a library, it was recently renovated and is the oldest public building in the city.

Snohomish values and celebrates its history through various groups dedicated to the preservation of its heritage and unique character. In the 1960s, there was a push to preserve the historical character of Snohomish and to encourage the commercial vitality of the Historic Business District. The Snohomish Historical Society was founded in 1969 and is headquartered at the Blackman House Museum, the old home of Hyrcanus Blackman. Local lumber, the first milled by the Blackmans, was used to construct the house in 1878.

In 1973, Snohomish was the first city in the county to pass an ordinance establishing a Historic District, which is listed on the National Register of Historic Places. The Historic District is a 26-block area along the Snohomish River, containing a mix of commercial and residential uses. The City of Snohomish's Design Review Board, an advisory body, was created in 1979 to ensure development in the Historic District is consistent with established historic standards.

Historic Downtown Snohomish Association (HDSA), established in 2004, is a non-profit organization of volunteers and businesses working to promote, preserve, and improve the City's historic downtown business district. It is also an affiliate of the Main Street America program.

Photos courtesy the Snohomish Historical Society.

Elected Officials and City Leadership

Voters adopted a “strong mayor” form of government, which elects a mayor to a four-year term to serve as the chief executive for the City of Snohomish. The Mayor appoints a City Administrator to oversee all departments and employees.

The City of Snohomish’s council members are part-time elected officials. The council members are the City’s legislative body and make policy decisions and enact laws for the city. The positions are non-partisan and are elected to four-year terms.

There are also a number of advisory boards and commissions with members selected by the Mayor with confirmation by the City Council. These boards and commissions discuss issues and make recommendations to the City staff and/or the Council for potential action.

Elected Officials

Back Row (from left to right): Councilmember Tom Merrill, Councilmember Lea Anne Burke, Councilmember Maygen Hetherington, and Councilmember Felix Neals

Front Row: Councilmember Karen Guzak, Mayor Linda Redmon, Councilmember Judith Kuleta, Councilmember David Flynn

City Leadership and Other Representatives

City Leadership

City Administrator - Heather Thomas-Murphy

Chief of Police — Chief Nathan Alanis

City Clerk - Melissa Collins

Community Engagement & Strategic Initiatives Director - Shari Ireton

Finance Director - Alisha Hendren

Human Resources & Risk Management Director - Rebekah Park

Information Services - Dock Leong

Planning & Development Services Director - Brooke Eidem

Public Works Director - Nova Heaton

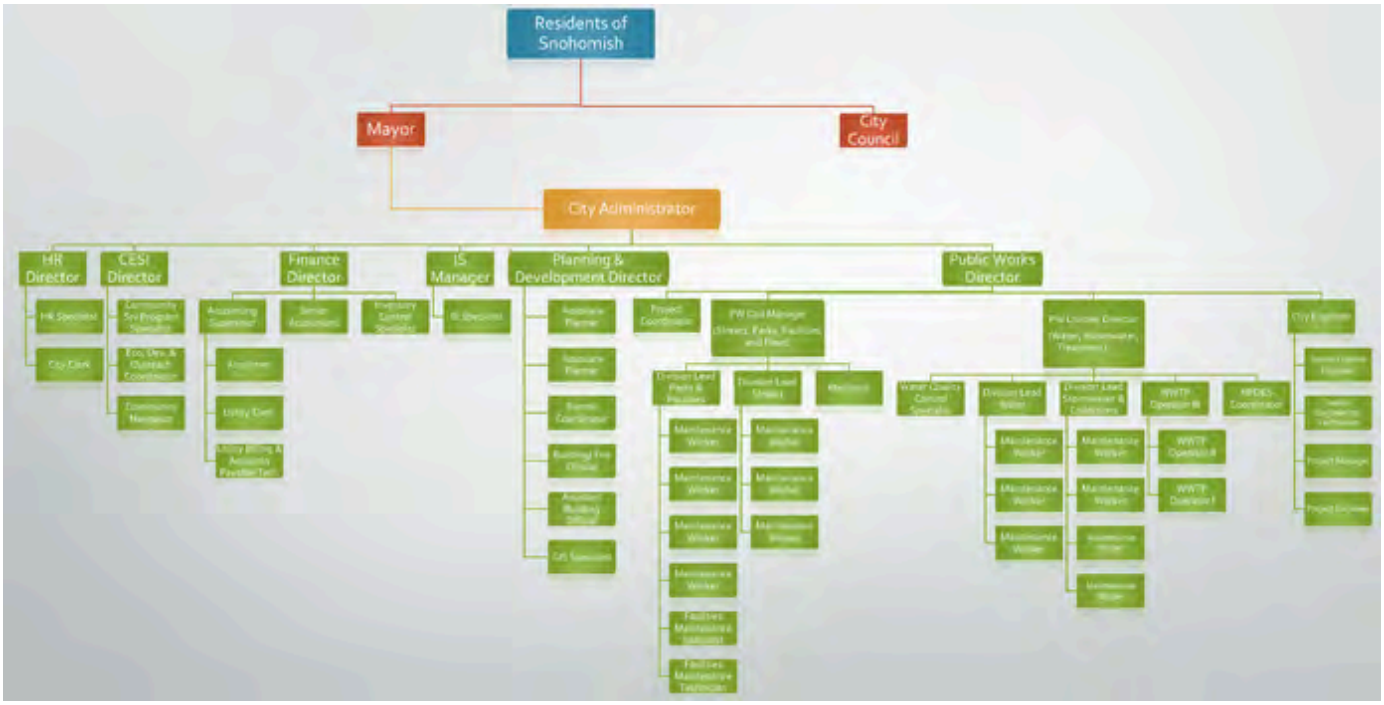

Other Representatives

City Attorney - Thompson, Guildner & Associates

City Prosecutor - Snohomish County Prosecutor's Office

Hearing Examiner - Bennu Law

Organizational Chart

Budget & Financial Policies

This budget was developed in alignment with the City's financial management policies and industry best practices. Some of the key elements are highlighted in the table below.

Element	Met in Budget	Comments
2.2 Reserve Level Target – General Fund: The unassigned fund balance of the general fund should never fall below 15% of operating expenditures.		The fund balance at the end of 2026 is projected to be 20.7% of annual operating expenses.
2.4.3 Operating reserves - 90 days of operating expenses reserved for water, wastewater and stormwater.		The City has 90 days of operating expenses for the utility funds.
2.4.6 Emergency capital repairs - Amounts required to pay for cost overruns and unanticipated capital costs.	In Process	While the City has ample ending fund balances, there is a desire to create a policy for emergency reserves.
2.5.2 REET Funds - Fund reserves will be maintained at a level sufficient to ensure viability of future CIP funded projects with a minimum reserve balance of 15% of the fund annual operating revenues.	In Process	The City is planning for future reserves in the Municipal Capital Projects and Streets Capital Project Funds and will be updating the City policies to reflect the change in how capital funds are reserving for future capital needs.
2.6 Reserve Level Target – Internal Service Funds. "The equipment reserve funds will be maintained at a level sufficient to meet scheduled equipment replacement so as to sustain an acceptable level of municipal services and prevent a physical deterioration of city assets.		The City meets these this need for all Internal Service Funds and is increasing the Equipment Replacement fund by $500,000 for the 2025-2026 biennium for future budget cycle replacements.
3.5 Grants - The City is committed to pursuing grant funding as an appropriate funding source.		The City has been successful at receiving grant dollars, and this budget invests in a position to seek additional grant funding.
5.4 Balanced Budget - Beginning fund balance sources may be used to fund capital improvement projects or other one-time, non-recurring expenditures as long as the fund reserve targets are met.		While expenses do exceed revenues in 2025-2026, the use of beginning fund balance is largely because of delayed or deferred projects that resulted in un-spent budgets in prior budget periods.
7.2 Debt Practices - No more than 10% of the annual operating budget may be spent on debt service annual obligations."		Less than 1% of the operating budget is spent on debt service. The City will be updating the City's debt policy in 2025 as the City explores bonds to fund capital projects.
8.3.3 Investment Return - Short-term investment returns should attain a return rate of at least equal to the Washington Local Government Investment Pool (LGIP)."		Investments in 2025-2026 exceeded the rate of return of the LGIP.
8.10 Investment Diversification - No more than 20% of the total investments should extend beyond 5 years.		The City's investments are all within 5-year periods.
8.10 Investment Diversification. Unless prior City Council approval is received, no investment with a maturity exceeding 10 years will be purchased.		The City's investments are all within 5-year periods.
8.10 Investment Diversification. No more than 50% of the entire investment portfolio shall be held with one broker.		All investments are held in safekeeping; none are with brokers.

Executive Summary

The adopted 2025-2026 Biennial Budget had revenues of $99,136,061 and expenditures of $116,947,775. The City projected to start the biennium with a beginning fund balance of $44,751,954 for all funds, which was $22,800,329 higher than planned for 2023-2024, largely due to project delays leaving these funds unspent during the expected 2023-2024 budget timeframe. Those 2023-2024 budgeted funds were carry-forward amounts included in 2025-2026 beginning fund balances and covered the $17.8M difference between overall revenues and expenditures. The City projected to end 2026 with a total adopted fund balance of $26,940,240, which was $4,988,616 higher than budgeted for the 2023-2024 biennium.

In the Amended 2025-2026 Biennial Budget, the updated revenues are projected to be $93,675,922 and expenditures are now projected at $109,173,654, with an actual beginning fund balance for 2025 of $43,810,914.

There are a couple outstanding items and decision points that are not incorporated into this budget. They include:

- **Sidewalk and Street Tree Fund**. On August 27, 2024, the Council supported moving forward with a new fund in order for the City to take over from adjoining property owners the responsibility of maintaining sidewalks and street trees in the public right-of-way. Council directed that the scope of work and budget for the consultant completing the stormwater rate study in 2025 be expanded to encompass a rate structure that includes a sidewalk charge for addressing the known sidewalk and street tree needs within the city. This work has continued but no changes are anticipated until 2026-2027.

- **Annexation of the North Lake Urban Growth Area**. As a part of the 2024-2044 Comprehensive Plan Update, a subareas study and community outreach was done for the City's three urban growth areas (UGA). The North Lake UGA was identified in community feedback as the first priority for the annexation areas, so work on that process began in 2025. The City and Snohomish County are in the final stages of the annexation process, but revenues will not be realized until 2027. -

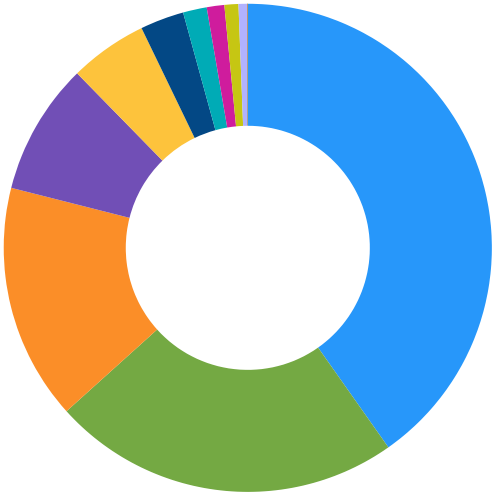

Revenues Overview

The total adopted revenues for 2025-2026 were $99,136,061 across all funds, which was 56% higher compared to the 2023-2024 biennium. However, a large portion of the increased revenue was due to projected ending fund balances in 2024 being $22.8M higher than budgeted as a result of project delays. Those revenues were carried forward into the 2025-2026 budget to cover associated expenditures for those projects. However, a large portion of the increased revenue was due to projected ending fund balances in 2024 being $22.8M higher than budgeted as a result of project delays. Those revenues were carried forward into the 2025-2026 budget to cover associated expenditures for those projects.

In the amended 2025-2026 biennium budget, total revenues are $93,675,922 across all funds, which is 5.5% lower compared to the 2025-2026 adopted biennial budget and 36.1% higher compared to the 2023-2024 biennium.

More details about the revenue sources can be found under the Department and Fund Overviews and the Funding Sources sections of the budget.

Revenues - Where The Money Comes From ($)

- Charges for Goods and Services **$37,692,926** (40.24%)
- Other Increases in Fund Resources **$21,620,707** (23.08%)
- Retail Sales & Use Tax **$14,648,780** (15.64%)
- Intergovernmental Revenues **$8,175,128** (8.73%)
- Utility & Excise Taxes **$4,820,000** (5.15%)
- General Property Tax **$2,718,154** (2.90%)
- Licenses and Permits **$1,480,118** (1.58%)
- Miscellaneous Revenues **$1,083,024** (1.16%)
- State Shared Revenue **$859,400** (0.92%)
- Other Financing Sources **$530,874** (0.57%)
- Fines and Penalties **$46,810** (0.05%)
- Debt Proceeds **$0** (0.00%)

Expenditures Summary

The total expenditures for the adopted 2025-2026 budget were $116,947,775 across all funds. While this was 35% higher than the amended 2023-2024 budget, it also included just over $22.8M of budgeted expenditures that were delayed and being carried over into the new biennium.

The amended 2025-2026 budget for total expenditures across all funds is $109,173,654, which is 6.6% lower than the adopted 2025-2026 budget.

As a primarily service and labor-driven organization, wage and benefit changes have significant impact on the City's Operating Budget. Overall, the conditions affecting personnel costs for 2025-2026 include:

- Financial terms currently being negotiated in the open collective bargaining agreements, including COLAs and longevity pay for eligible employees.
- Medical plan premiums are anticipated to increase an average of 7.75% in 2025 and 10% for 2026, though dental, life and vision premiums will remain flat. The City covers 100% of premiums for staff, and 90% for eligible family members.
- The employer contribution rates for state retirement plans (PERS) was 9.11% for the first half of 2025, with a decrease to 5.38% in July 2025. It is expected for this rate to increase in 2026.
- Labor & Industries (L&I) released their proposed rates for 2025, with an increase of 7% and 0% increase for 2026 for City public works employees.

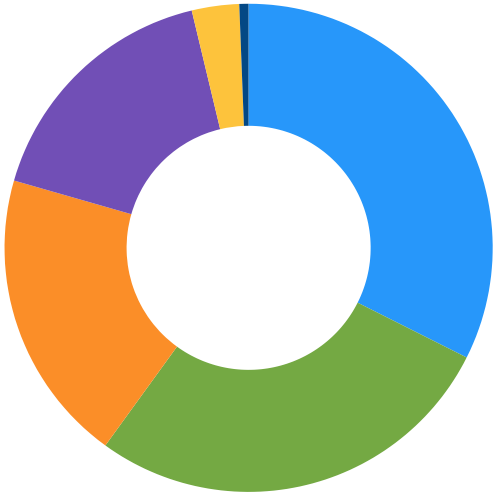

In addition to personnel costs, the City is a member of the Washington City Insurance Authority (WCIA) insurance pool. Their assessments continue to increase, just as residents are seeing with auto and home insurance policies. This biennium will see a $498k increase in our costs to maintain this coverage.

The City is also required to either employ or contract for law enforcement, animal control, jail bookings and corrections, district court, prosecuting attorney, public defender, and 911 dispatch. Each of these contracts have seen a significant increase for 2025, which results in an increase of approximately $1.6M across the biennium for just these services. The Public Safety & Services program represents 1/3 of the total General Fund budget.

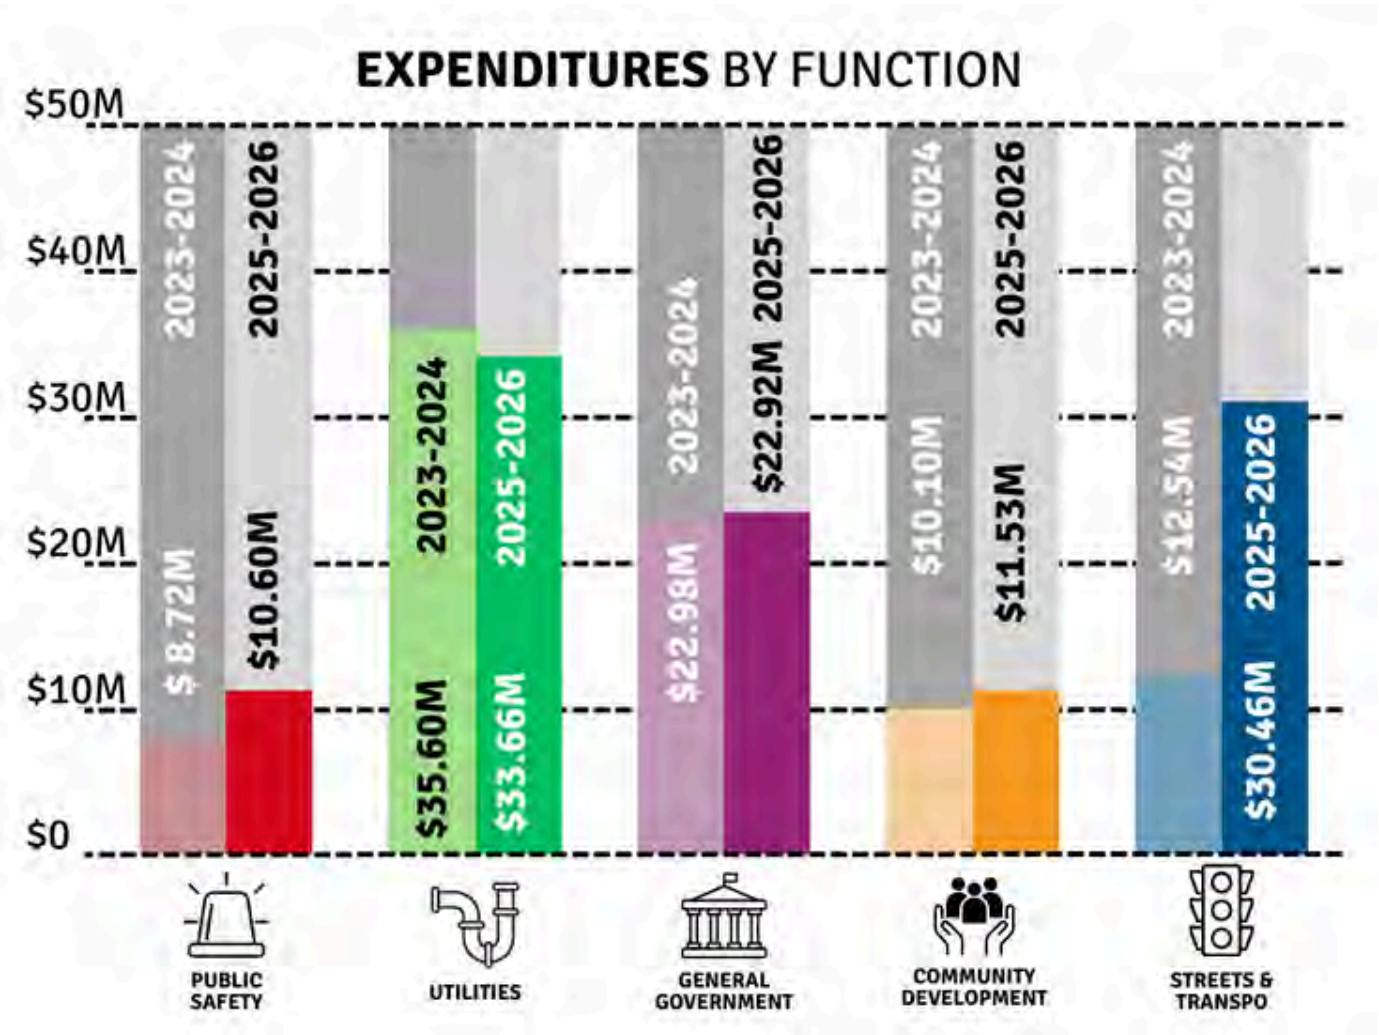

To mitigate some of these increases, staff have scrutinized how to streamline internal processes in order to avoid duplicative or redundant work. A lot of work was performed to centralize functions and expenses, decreasing duplication of work and expenses across departments. For example, instead of having multiple people in multiple departments working on technology and software contracts, the majority of these contracts are now handled by the IT Department. Similarly, supplies, uniforms, and minor equipment were purchased separately by Finance and Public Works, but that function has now been centralized. Additionally, because we are now tracking expenditures more closely than before, we were able to use actual expenditures rather than baseline budgets from the prior biennium to form the basis of this adopted budget. These changes resulted in $78k in reductions within the General Fund alone. There were also "Miscellaneous" budget lines in prior budgets that we eliminated, making expenditures more transparent and further reducing $30-40k across departments.

Given these structural adjustments to departments, funds, and programs, direct comparisons to FY23-24 and prior budgets is not possible in all cases. For instance, two staff had previously had their expenses split across multiple funds in previous budgets. For FY25-26, they are now Public Works Administration. Those aren't new expenses but rather consolidated ones. More details about expenditures can be found under the Fund Summaries and Departments & Fund Overviews sections of the budget.

2025-2026 Expenditures - Where Does The Money Go?

- Services **$35,389,980** (32.42%)
- Capital Outlays **$30,088,702** (27.56%)
- Transfers **$21,260,904** (19.47%)
- Personnel **$18,351,337** (16.81%)
- Supplies **$3,413,628** (3.13%)
- Debt Service **$669,102** (0.61%)

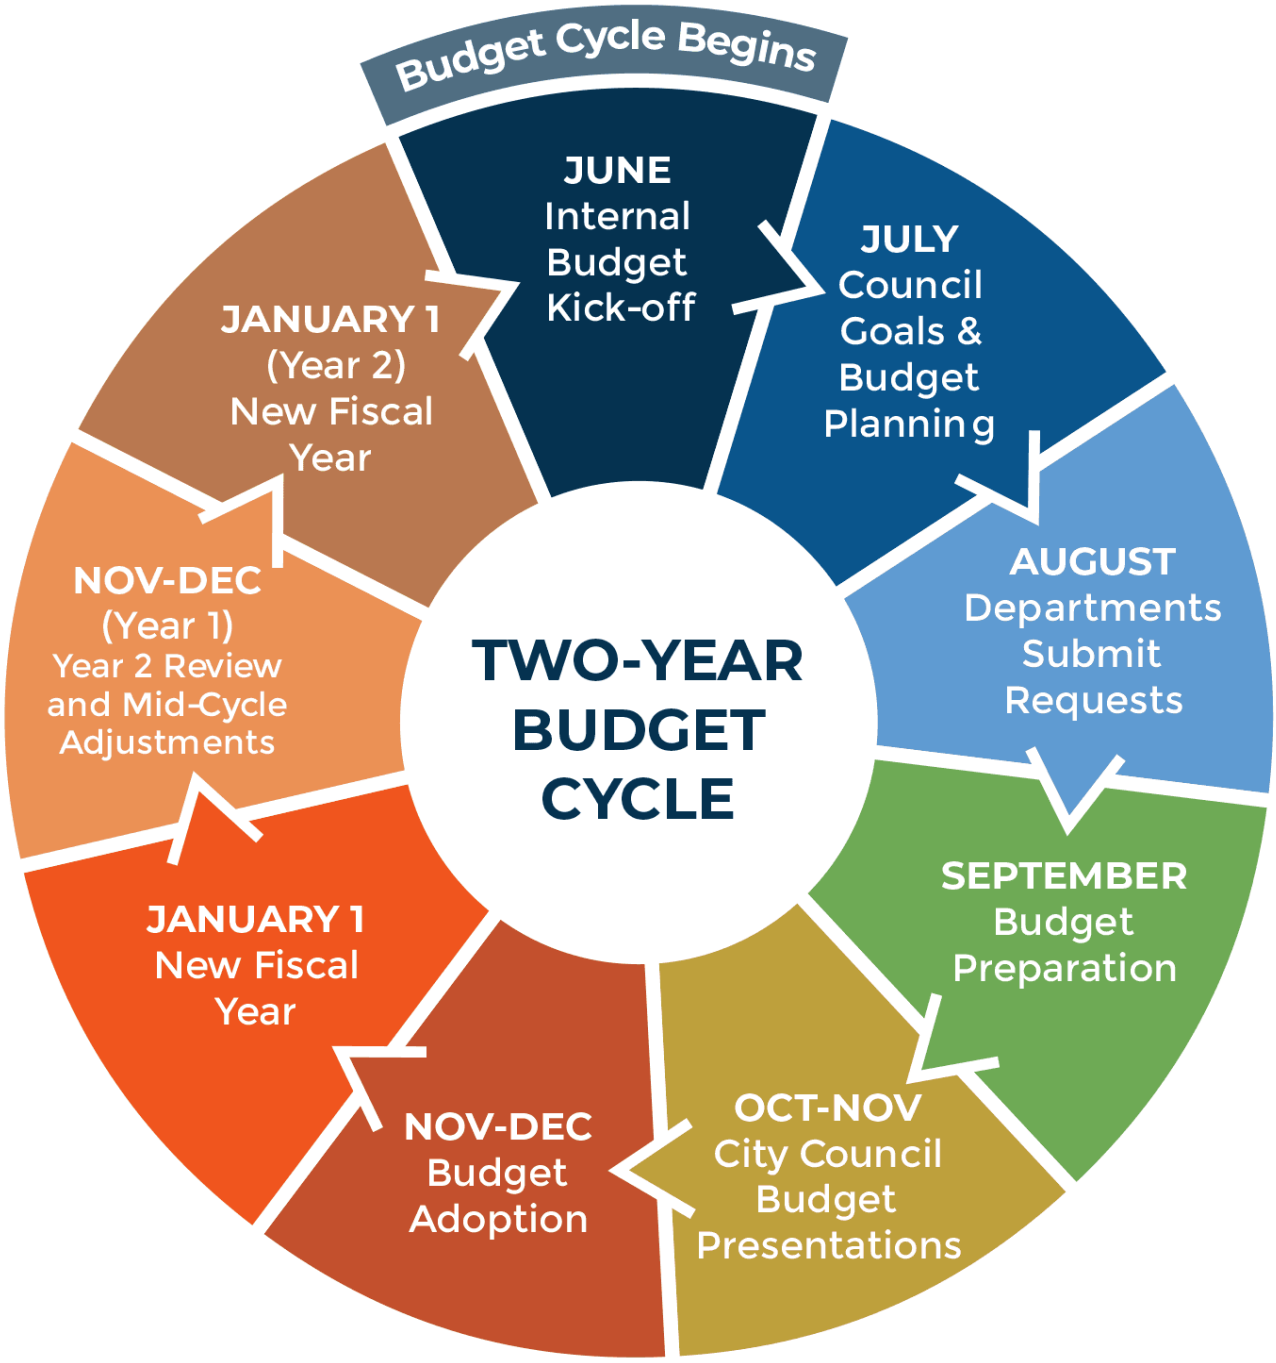

Budget Principles

1. Our budget cycle runs January 1, 2025, through December 31, 2026.
2. We must balance our budget. For large capital projects, we save revenue over many years, crossing multiple budgets. In this budget, it initially looks like expenses are higher than revenue because we're using balances saved from previous years to complete large capital projects.
3. We use ongoing revenues to pay for ongoing expenses, and use one-time revenue to pay for one-time projects.
4. Salaries and benefits remain our largest expense, meaning employees are the city's most valuable asset.
5. Each year, State and Federal regulations require more of cities with no additional funding, putting constant ongoing pressure on City budgets.
6. The City's budget is broken into General Fund, Special Revenue Funds, Enterprise Funds, etc. Each fund operates as an independent business. We cannot simply move funds from one to another. We routinely do studies to ensure funds like the utilities are healthy with revenues covering expenses while keeping rates as low as possible. These technical fund names make it difficult for most people to understand, so we have tried to break out spending based on more identifiable functions such as public safety, utilities and streets.

Budget Process

The City of Snohomish operates on a fiscal year basis, starting January 1 and ending December 31, following a two-year budget cycle. Snohomish Municipal Code (SMC) Title 3 and Revised Code of Washington (RCW) 35A.34 together set the legal requirements for the preparation of the biennial budget. The City's budget is prepared by the Finance Department and other departmental budget managers under the supervision of the Mayor and City Administrator.

The budget process is a planning effort directly related to the delivery of City services. It is also a process that is never really "done." Even after a budget is adopted, staff are regularly reviewing the revenue and expenditure projections against actuals. They are also monitoring regional trends and data points to stay informed and prepare for any potential economic shifts. The broad steps and timing involved in the budget process are described in the graphic below.

After budget adoption, there cannot be changes to City programs or services that result in significant and ongoing increases in City expenditures and obligations without the Mayor and City Council review and approval. The Mayor has the authority to transfer budgeted amounts between programs within any fund, but the City Council must approve any revisions that increase the total expenditures of a fund or change staffing levels. These are proposed to Council through budget amendments.

Basis of Accounting

The operating budget is an estimate of revenues and expenditures for two fiscal years. Funds are budgeted in accordance with the *Cash Basis Budgeting Accounting and Reporting System* (BARS) manual prescribed by the Washington State Auditor's Office under the authority of Washington State law, Chapter 43.09 RCW. Only revenues expected to be received in cash during the year are included in revenue estimates. Only amounts which will be spent by the end of the fiscal year, or within the first twenty days following the end of the fiscal year, are budgeted as expenditures.

Financial transactions are budgeted and reported in individual funds. Each fund uses a separate set of self-balancing accounts that comprises its cash and investments, revenues and expenditures. The City's resources are allocated to and accounted for in individual funds depending on their intended purpose.

Annual financial reports are prepared in accordance with the *Cash Basis Budgeting Accounting and Reporting System* (BARS) manual prescribed by the Washington State Auditor's Office under the authority of Washington State law, Chapter 43.09 RCW. This manual allows a financial reporting framework that differs from the Generally Accepted Accounting Principles (GAAP).

2025 and 2026 Council Goals

Every two years, the City Council adopts goals and potential objectives to guide the City organization. This goal-setting process assists in discussion of issues and opportunities facing the community, sets strategic direction, and provides a clear message to City staff as to what the Council aims to accomplish in the upcoming planning period. The City Council went through a goal-setting process over the course of several meetings in 2024. The goals for 2025-2026 build upon what was laid out in the 2023-2024 goals, centering around the nine topic areas below. Each goal includes potential action steps to support that goal, as suggested by staff and the City Council. These will be reflected in department work plans, the City's budget, the capital improvement plan, and through special initiatives.

Ensure and Provide for Public Safety

- Develop a plan to identify neighborhoods and/or districts and support efforts related to neighborhood watch, disaster preparedness, CERT teams and community outreach.
- Have a network of resources, partnerships, and providers to support those in crisis and to assist first responders.
- Continue improving processes for community reporting and code compliance programming.
- Improve safety along the Riverfront Trail.
- Identify and prioritize areas for climate action planning including disaster preparedness.
- Revise city design standards to incorporate traffic-calming measures aimed at influencing driver behavior.

Maintain and Proactively Improve City Infrastructure

- Adopt a capital equipment policy, with funding, to address renewal and replacement targets for all city infrastructure – with condition assessment, prioritization criteria and alignment between plans.
- Continue making necessary improvements in alignment with the adopted ADA Transition Plan.
- Complete the First Street Master Plan and pursue funding to begin construction of First Street and Second Street improvements.
- Explore funding opportunities to begin the projects identified in the Complete Streets Ordinance and the Multimodal Improvement Plan.
- Create a sidewalk improvement program and evaluate the use of bonds, latecomer's agreement, local improvement districts and similar mechanisms for funding improvements.

Promote and Expand Economic Adaptability, Vitality and Diversity

- Anticipate, prepare for, and respond to changing economic conditions.
- Implement a redundant broadband entry point within the city and ensure high-speed internet access for all.
- Expand business outreach to home businesses, gig workers and non-English speaking business owners.
- Ensure economic development and tourism materials are updated and available in print, digital and web forms.
- Sustain business engagement through a business retention and expansion program.
- Evaluate the feasibility of establishing business technical assistance programs.
- Explore and propose parking and alternative downtown transportation options.

Evaluate and Optimize City Services

- Evaluate existing City services for gaps, and identify the necessary actions, resources, and funding for improvement.
- Continue design, with anticipated construction to follow, of the Public Safety & City Services Campus.
- Evaluate policy and activities associated with code enforcement, animal control and parking enforcement. Identify appropriate enforcement roles and responsibilities.
- Develop a 5-year financial management plan.
- Evaluate policy and requirements related to cell towers.

Provide, Expand and Support a Range of Housing Options

- Review and revise City policies that address housing to identify opportunities for streamlining the permitting process and reducing cost for housing development.
- Consider innovative approaches to expanding housing options, including middle housing types, in the Single-Family zones.
- Continue community engagement and outreach on housing and zoning related issues.
- Continue to develop programming and funding opportunities associated with the 1/10 of 1% sales tax dollars.
- Create and update resources with information relating to housing, including affordable housing programs and incentives, first time homebuyers' programs, tenant protections, and rental assistance.
- Develop a public/private low-income housing opportunity, with the Police Station building on Maple Avenue as a priority location.

Foster Environmental Resiliency and Sustainability

- Continue working toward the strategies and initiatives of the Urban Forestry Plan and expand the tree inventory to include parks and other public properties.
- Develop a noxious weed control plan for parks, open space, and all City properties.
- Work with Republic Services to develop education and outreach materials on garbage, organics, and recycling for residents.
- Take proactive measures to protect and preserve surface and groundwater quality.
- Partner with Snohomish PUD and other entities to educate and promote solar and alternative energy systems and incentives, energy efficiency, reduce light pollution, and water use reduction – including "low flow" plumbing options and conservation of water.
- Encourage the use of biofiltration and drought-tolerant landscaping in our parks and public spaces.
- Evaluate whether to restrict permits for additional natural gas lines to service new construction.
- Review all development proposals with an environmental lens and require use of best available science through Ecology and WDFW for critical areas analysis.
- Develop environmentally responsible purchasing and O&M policies for the City.
- Provide resources for City staff to promote education and outreach on water resource conservation, what not to flush, pesticides, etc.
- Begin the process to eliminate the South UGA and relocate the land capacity to an area with greater development potential and less environmental constraint.

Cultivate an Equitable, Inclusive, Accessible, and Resilient Community

- Review existing City Council Resolution 1389 on equity and inclusion, and rewrite and reaffirm as appropriate.
- Establish an equity analysis policy to be used as one prioritization criteria for capital projects and public infrastructure improvements.
- Ensure community outreach is being conducted in a manner that is accessible for all residents.
- Assess current operations, codes and policies with an equity and inclusion lens.
- Seek opportunities to increase understanding, strengthen relationships, and intentionally center the needs of the community – including promoting cultural days of importance.
- Evaluate benefits of becoming a member of the Government Alliance on Race & Equity (GARE).
- Offer cultural competency training opportunities for council, staff, first responders, and community members.

Support and Encourage Meaningful Community Involvement

- Improve the City's website, providing convenient access to public records, reporting concerns, asking questions and awareness of community events.
- Biannually evaluate existing boards and commissions to determine if they still align with City and Council needs.
- Increase public comment and engagement methods and opportunities on City programs, initiatives, and legislative amendments.
- Conduct ongoing community surveys to inform citywide goals and priorities.
- Encourage collaboration among the various boards and commissions on overlapping issues.
- Implement and monitor a comprehensive volunteer program.

Preserve and Enhance Snohomish's Quality of Life

- Increase transit, bike, and walkability access throughout the city, between neighborhoods and connecting neighborhoods to parks, commercial services, and other destinations per Complete Streets Program.
- Manage growth intentionally, by strategically increasing density options where the existing public infrastructure is already present and planning for infrastructure improvements elsewhere.
- Implement an annexation policy and begin annexation proceedings in appropriate UGA areas, starting with the North Lake UGA.
- Review the Historic District Design Standards to ensure historic structures are preserved and properties may be improved in other areas of the Historic District without adding substantially to the construction costs for individual property owners.
- Determine prioritization and next steps on parks planning and begin developing future park properties identified in the PROS Plan.
- Identify additional resources to better support vulnerable and underserved residents.
- Define City's role(s) and identify opportunities for the City to support the local art, design and cultural scene.

Personnel

Overall, employee wages and benefits for the amended 2025-2026 budget make up 16.7% of the total estimated expenditures in all adopted operating fund budgets. In the General Fund, these expenditures are expected to be $11.1 million, or 34.8% of total General Fund expenditures. As a primarily service and labor-driven organization, wage and benefit changes have significant impact on the City's Operating Budget.

Overall, the conditions affecting personnel costs for 2025-2026 include:

- Financial terms currently being negotiated in the open collective bargaining agreements, including COLAs and longevity pay for eligible employees.
- Medical plan premiums are anticipated to increase an average of 7.75% in 2025 and 10% for 2026, though dental, life and vision premiums will remain flat. The City covers 100% of premiums for staff, and 90% for eligible family members.
- The employer contribution rates for state retirement plans (PERS) was 9.11% for the first half of 2025, with a decrease to 5.38% in July 2025. It is expected for this rate to increase in 2026.
- Labor & Industries (L&I) released their proposed rates for 2025, with an increase of 7% and 0% increase for 2026 for City public works employees.

Staffing Levels

The City requested a modest increase in staffing for the adopted 2025-2026 budget, with some further adjustments in the amended budget.

- Converting the 1.0 FTE term-limited Human Resources (HR) Assistant position included in 2023-2024 budget to a permanent employee moving forward. Funding is split 50/50 between Human Resources and City Clerk programs. This is in response to recommendations from audits completed by WCIA, L&I, and the Washington State Auditor's Office, as well as the need to support City Clerk requirements related to records management, increased complexity of public records requests, and OPMA. In addition, the volume of work for the City Clerk exceeds what is feasible for 1.0 FTE. Eliminating the HR Assistant would likely require hiring temporary employees to support the City Council, boards and commissions, as well as records digitization and complex public records requests in order to meet mandated state requirements.

- Request to create a new 1.0 FTE Facilities Maintenance Assistant position to replace the $75,000 per year janitorial services contract. This added position is relatively cost neutral, as the current janitorial contract is expiring and the City would need to go through an RFQ process to select a new vendor. It was anticipated that the annual janitorial costs would increase significantly. Bringing this work in-house would also allow the position to support clean-ups of parks and downtown over most weekends, as well as taking over the watering and maintenance of downtown flower baskets. Delays in getting the position approved by the Union required the janitorial services contract to continue through 2025. Funds have been reallocated from Salary to Professional Services for 2025, with the position anticipated to be filled in late-2025 or early-2026.

- Continuing the consultant contract for a term-limited person in the Finance Department through 2025 for confidential audit and financial support services, especially needed with the implementation of a new financial software system.

Additional increases approved by Council during FY2025 include a new FTE in Finance for an Accounting Supervisor position and reclassification of the Code Enforcement Officer to a new classification of the Assistant Building Official, to better meet the operational needs of the City and its residents.

	2012	2013	2014	2015	2016	2017	2018	2019	2020	2021	2022	2023	2024	2025	2026

Position Salary Table

The table below represents the minimum and maximum base salaries for each position within the City. Per the Employee Handbook and Collective Bargaining Agreements, positions are assigned to a pay grade based on job functions and required experience and/or education. Employees hired to fill that position are placed at a step commensurate with their education, experience, and equitably based on other employees in the same pay grade. An employee can progress up a step after every 12 months of employment until they reach the top step in the pay grade. Additionally, employees can earn longevity pay above these ranges for five or more years of service with the City.

Elected Officials	Minimum	Maximum	Minimum	Maximum
City Council		6,156.00		6,156.00
Mayor		30,000.00		30,000.00

Revenue by Source Summary

Revenues come into the City of Snohomish from a number of sources:

- **Utility & Excise Taxes** –The City receives utility taxes based on the gross revenues of the local natural gas, telephone, electric, garbage, and cable companies. The City also receives revenues collected following real estate transactions or assessed based on a designated purpose, like gas and hotel/motel taxes.

- **Fines & Forfeits** – These are fees associated with late payments or fines resulting from code enforcement activities.

- **Licenses & Permits** – The City collects a fee for business licenses for those businesses owned or operating within City limits, as well as fees associated with issuing land use and building permits.

- **Miscellaneous** – Largely interest income, as well as some rental income that the City receives through lease agreements.

- **Intergovernmental** – These are typically intergovernmental revenues received from Snohomish County, the State of Washington, or other grants at the local, state or federal level.

- **General Property Tax** – The City property tax rate is a small part of the total taxes paid by City of Snohomish property owners. For example, a 2024 tax bill for a typical home was approximately $4,700, with those funds split among a variety of taxing districts, such as school, library, and fire districts. The City of Snohomish received about $300, or 6.3%, of that $4,700 total tax amount. The City Council approved Ordinance 2457 authorizing a 1% increase in the City's property tax for 2023, but property taxes have not been increased since.

- **Retail Sales and Use Tax** – Sales tax revenues continue to be one of the largest revenue sources for the City. The 2025-2026 budget continues to conservatively project sales tax revenue. Not only is this a standard approach in budgeting, but it is especially prudent given the uncertain economy ahead.

- **Charges for Service** – The City operates three utilities: sewer/wastewater, stormwater, and water. This revenue category includes charges to utility customers, as well as connection charges assessed to new construction projects. This category also includes charges for services, either to customers for items like fingerprinting or plan check fees, or internal services. When one fund or program provides a service that benefits the entire City, those are reimbursed as internal service cost allocations.

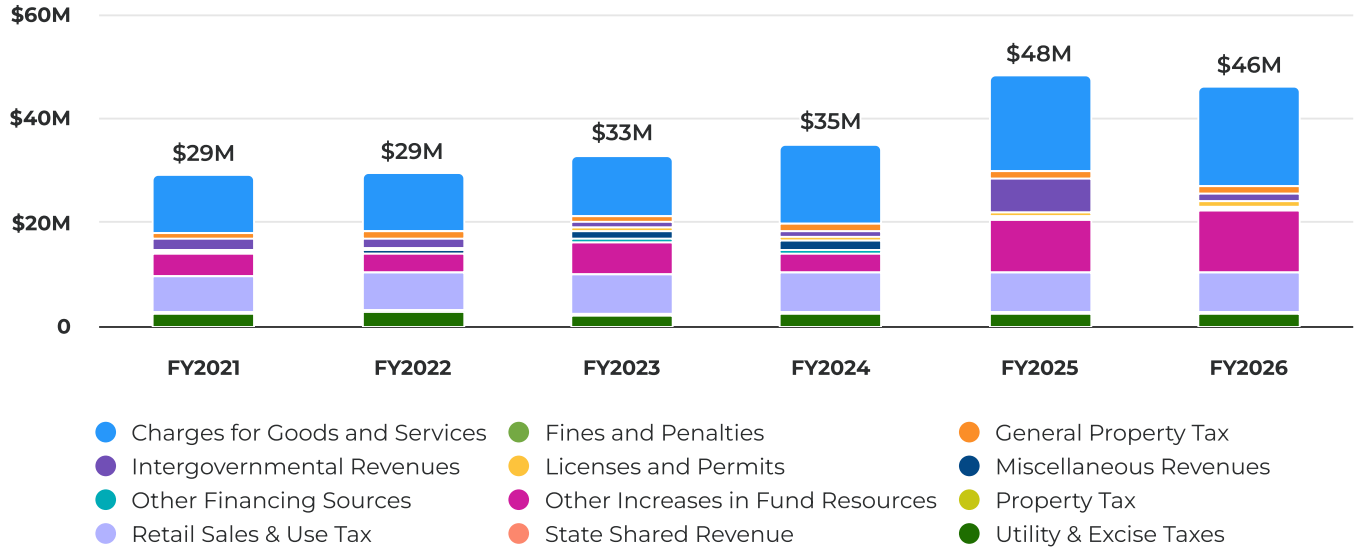

- **Transfers & Other Sources** – Interfund transfers, primarily involving enterprise or special revenues funds, that are reimbursed for expenses paid for by one fund.

Revenues by Revenue Source

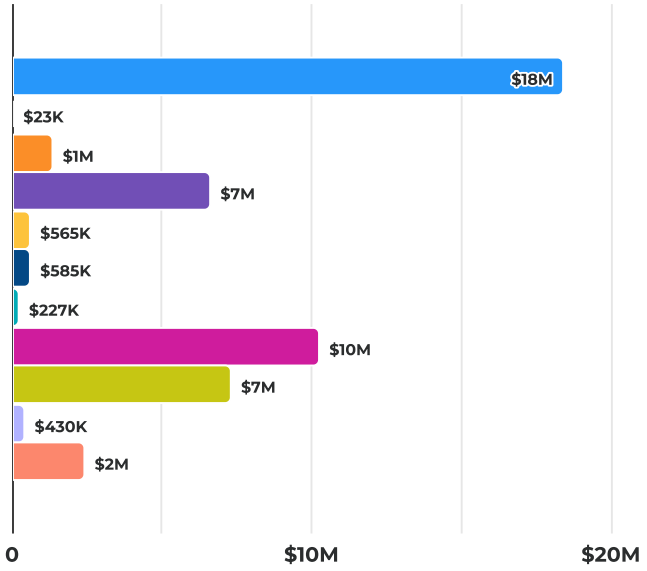

Revenue by Source Proposed and Historical Budget vs. Actual

Budgeted and Historical Revenues by Source

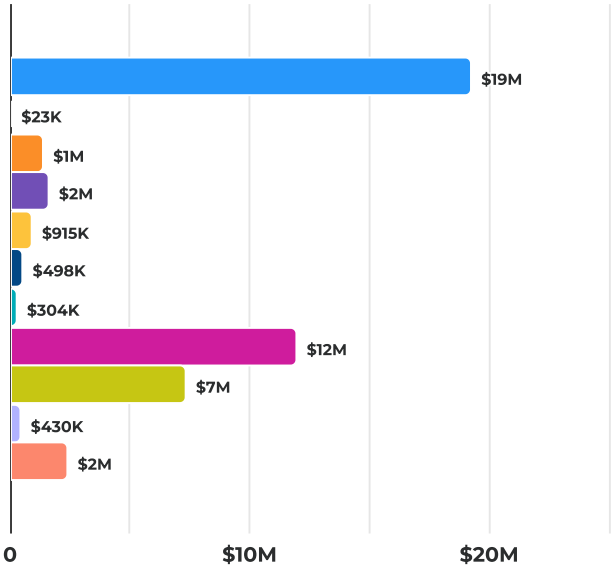

Projected 2025 Revenues by Source

Charges for Goods and Services	$18,389,386	38.21%

Budget Summary by Fund & Department

The adopted 2025-2026 Biennial Budget was comprised of 22 funds with a total budgeted revenue of $99,136,061 and budgeted expenditures of $116,947,775. The City had projected to start the biennium with a beginning fund balance of $44,751,954 for all funds, and a projected fund balance at the end of 2026 of $26,490,240.

The 2025-2026 amended Biennial Budget is comprised of 23 funds with a total budgeted revenue of $93,675,922 and budgeted expenditures of $109,173,654. The City started the biennium with a beginning fund balance of $43,810,914 for all funds, and a projected fund balance at the end of 2026 of $28,313,182.

The 2025-2026 amended budget maintains fund balances as required by the Financial Management Policies. However, this budget also seeks to put more of those dollars into play in ways that benefit the community and the City's infrastructure. For instance, beginning fund balances in the General Fund and Non-Operating Funds are being used for much needed one-time investments in fleet and facilities, as well as transfers for Streets and Parks projects.

Budget Summary

In the 2025-2026 adopted budget, the City of Snohomish projected $58.03M of revenue in FY2025, which represented a 77.9% increase over the prior year. This was largely because of fund transfers from existing balances to pay for capital projects previously anticipated to be completed in 2024 but were delayed. Those funds were carried forward and transferred to complete the multi-fund projects and were counted as revenue per government accounting requirements. For FY2026, the adopted revenue balanced out to $41.11M for the year.

In the amended 2025-2026 budget, projected revenues for FY2025 are $47.55M, which is an 18.1% decrease from the adopted budget, mainly due to changes in grant funding and timing of development projects. The amended revenue for FY2026 is projected to be $46.13M, representing a 12.2% increase from the adopted budget.

Adopted budgeted expenditures were projected to increase by 23.0% or $13.30M to $71.13M in FY2025, again, largely to complete capital projects already started or delayed and were rolled into 2025. For FY2026, the total adopted expenditures dropped to $45.82M, which is a 35.6% decrease in expenses over FY2025.

Amended budgeted expenditures are projected to be lower than the adopted budget for FY2025 by $21.9%, or $15.56M, as project costs have shifted to FY2026, with expenditures for FY2026 projected to increase from the adopted budget at $7.79M, or 17.0% due to the timing adjustments.

Budget Summary By Fund

General Fund (001)

Roughly 31% of the total City budget goes to the General Fund. This fund pays for important services like public safety, street and park maintenance, community recreation, land use planning, and general administration.

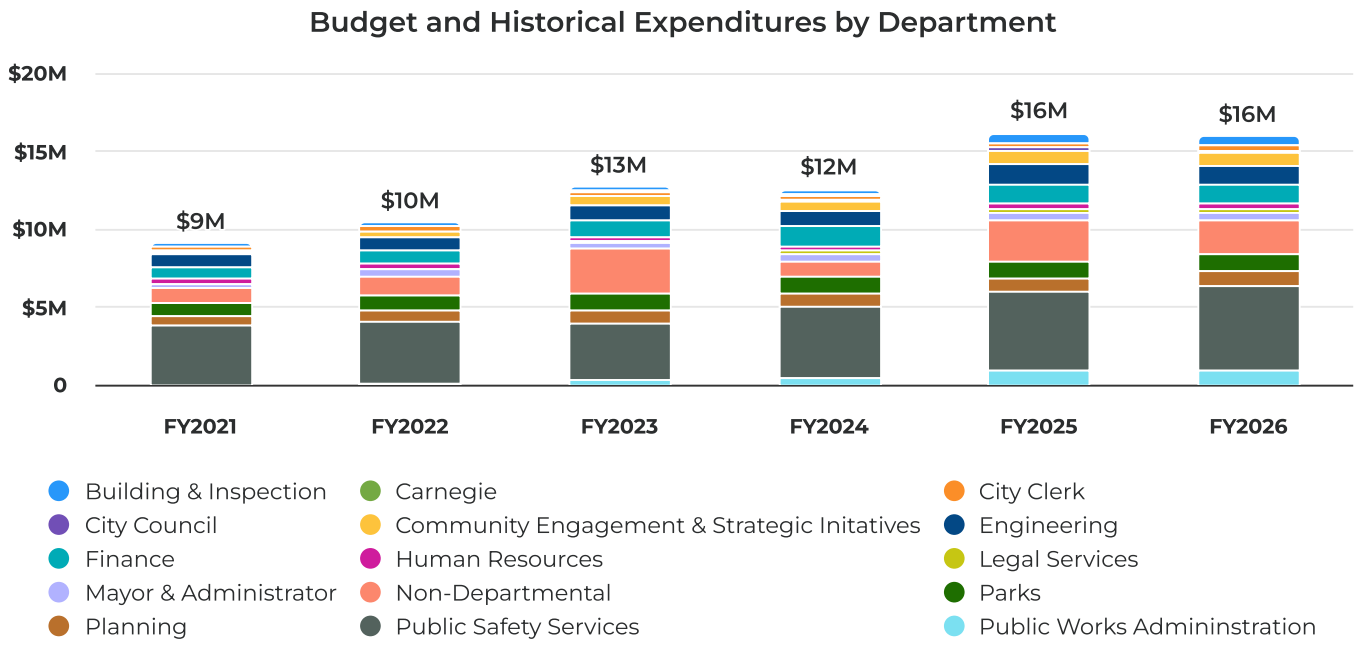

The overall adopted General Fund expenses were projected at $30,134,254, which was an increase of $3,452,473 (12.9%) from the 2023-2024 amended budget. Some of this increase is due to cost of living adjustments associated with salaries and insurance premiums, as well as increases passed along to the City for required public safety and legal services contracts. More details about these program level expenses are available in the Department & Fund Overviews section of this budget.

The amended General Fund expenses are projected at $31,808,385, which is a decrease of $97,544 (3.1%) from the 2025-2026 adopted budget.

City Council

The City Council serves as the elected legislative branch of city government. The Council consists of seven members elected to four-year terms. Elections are staggered so that every two years either three or four Council positions are elected for full terms by the voters. The City Council represents the citizens of Snohomish through:

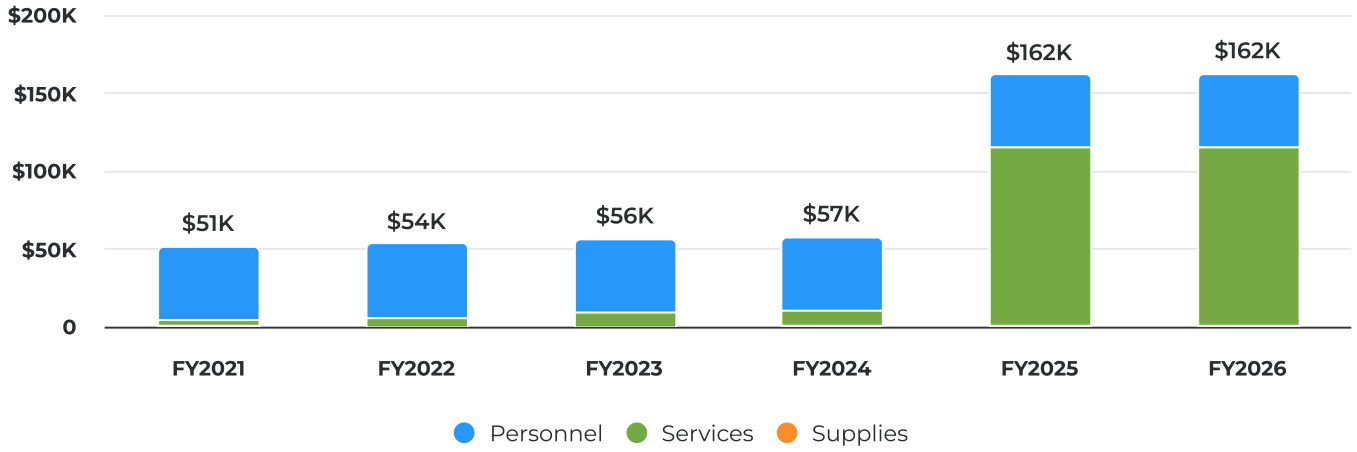

- Interpreting community values as it adopts ordinances and resolutions;
- Setting the policies and direction of the City;
- Authorizing the biennial budget and budget amendments;
- Confirming the Mayor's appointments to various boards and commissions; and
- Serving as liaisons to City boards and commissions, as well as external groups.

Mayor & City Administrator

Under the mayor-council form of government, the Mayor is directly elected by the voters and serves as the City's chief executive officer. The Mayor appoints a City Administrator to manage the City organization and finances on a day-to-day basis. Together, these positions provide support to and implementation of policies set by the City Council, as well as policy analysis, for governmental relations, strategic planning, partnership building, and managing the budget as a means to meet City goals and desired outcomes.

2023 - 2024 Highlights

The Mayor and City Administrator are responsible for oversight of all City departments and staff and for ensuring that their work is guided by and supportive of the policy priorities of the City Council. Therefore, these highlights are an example of executive focus areas, but the work was accomplished by City Council and staff as a whole.

- Supporting the work of the City Council led to accomplishing a number of the 2023-2024 goals set by City Council and making progress toward addressing the City Council's 2025-2026 goals. See the "Council Goals" section under Budget Overview for details on priorities and next steps for 2025-2026.
- Planning for generations to come and listening to the community led to an all hands approach to the Comprehensive Plan update so that the 20-year planning document produced is well-informed by all City departments and has input from as many segments of the community as we could reach. The Comprehensive Plan will determine the work of the City for the next two decades, beginning with what you see in this budget.
- Increasing transparency in the City's finances has resulted in implementation of the publicly accessible interactive budget platform in which this document is housed. Our next steps are to continue to build out additional modules of the platform to include project-specific tracking and reporting so you can see your money at work in real time.
- Preparing and training for emergencies resulted in stronger planning with emergency response agencies, including Snohomish County Department of Emergency Management (DEM), Snohomish Fire Protection District 4 (FD4), and the Snohomish Police Department (PD), a contract force staffed through an agreement with the Snohomish County Sheriff's Office. We established clearer emergency response coordination plans and the next steps are to continue to enhance communications between agencies and increase community resiliency through expanded emergency preparedness education and outreach.
- Working toward Americans with Disabilities Act (ADA) compliance resulted in completion of an ADA transition plan. The plan was adopted by the City Council. We have begun work on immediately achievable improvements where possible and have made plans and budgeted for future work to address identified issues, including the U.S. Department of Justice (DOJ) mandate to increase accessibility of the City's website.
- Integrating multi-modal transportation resulted in new requirements, in line with public requests, that developments cover the cost of their impacts on pedestrian facilities, as well as a Complete Streets ordinance and the new pedestrian levels of service ratings in our transportation plan and comprehensive plan.
- We sought public input and used it to create a pilot program for meaningfully addressing sidewalk issues and have designated funds for instituting the plan on an ongoing basis.
- Increasing accessibility of City services and amenities resulted in the new playground at Historic Averill Field being built as the first inclusive playground in the City. We have now incorporated accessibility considerations into our future facilities planning, and you'll see those in all future projects.

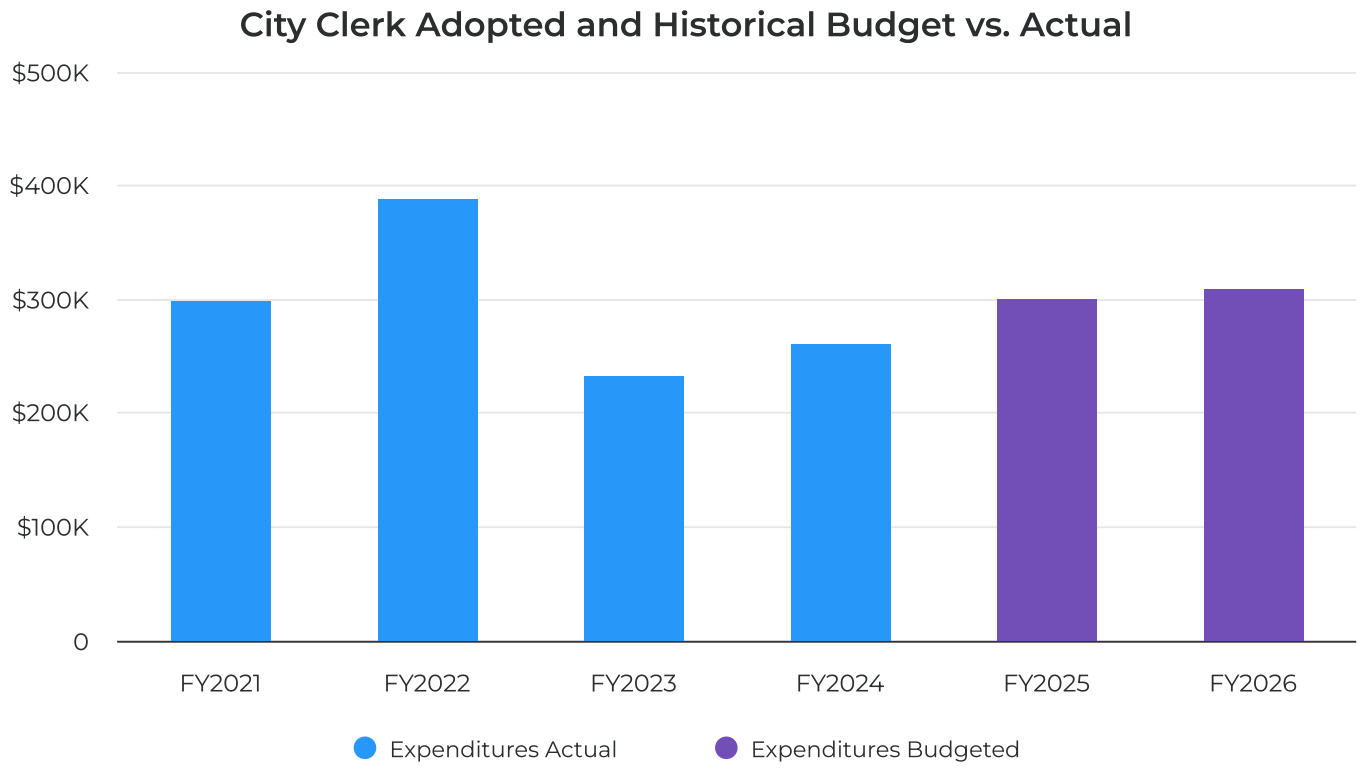

2025 - 2026 Priorities

- Supporting the City Council by guiding staff in work that aligns with Council's 2025-2026 goals.
- Increasing transparency in the City's finances through ongoing and up-to-date reporting through the new budget tracking tool.
- Improving the community's emergency preparedness as well as strengthening business and neighborhood resiliency.
- Continuing to streamline and modernize both internal and external processes and procedures with an eye to cost reduction, compliance, liability reduction, and customer service.
- Continuing to invest in ADA compliance, multi-modal transportation, and accessible City amenities.
- Continuing to enhance partnerships with other agencies and community organizations in order to combine forces in serving our community, saving time, effort, and community resources.
- Focusing on community priorities: streets, sidewalks, parks, trees.

City Clerk

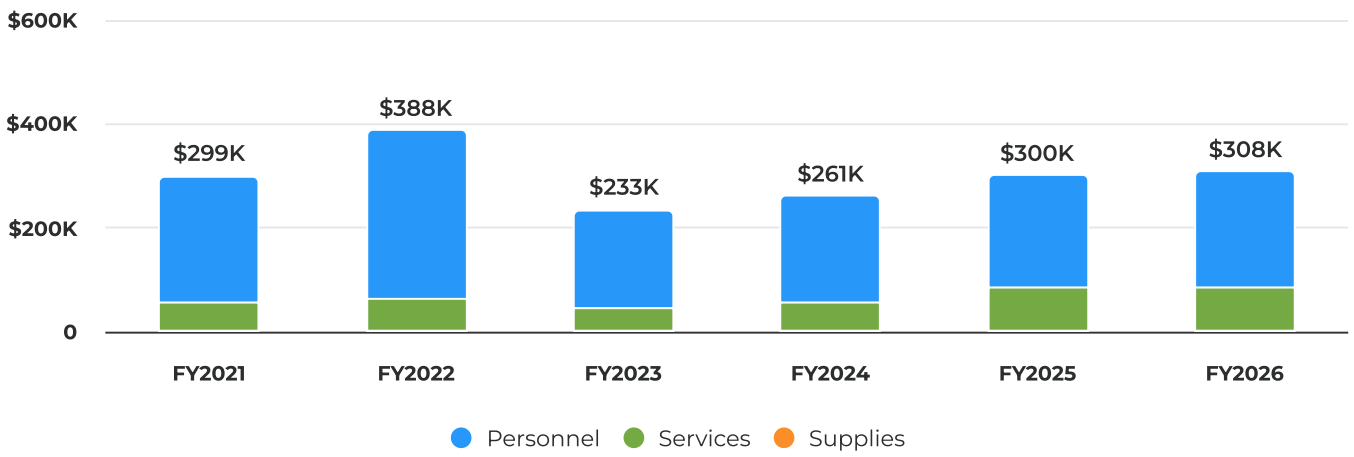

As a service oriented division and serving as an unbiased public servant who promotes open government and transparency of information by providing a link between citizens and govern-ment. The City Clerk serves as the compliance officer for federal, state, and local statutes. This is achieved by coordinating the legislative process and managing city records with integrity, accuracy, and transparency.

2023 - 2024 Highlights

- Utilizing new software to support transparency for residents and community members in viewing records and participating in the civic process.
- Updated the process for recruiting and onboarding new board and commission members.
- Supported bidding process for City Bids.

2025 - 2026 Priorities

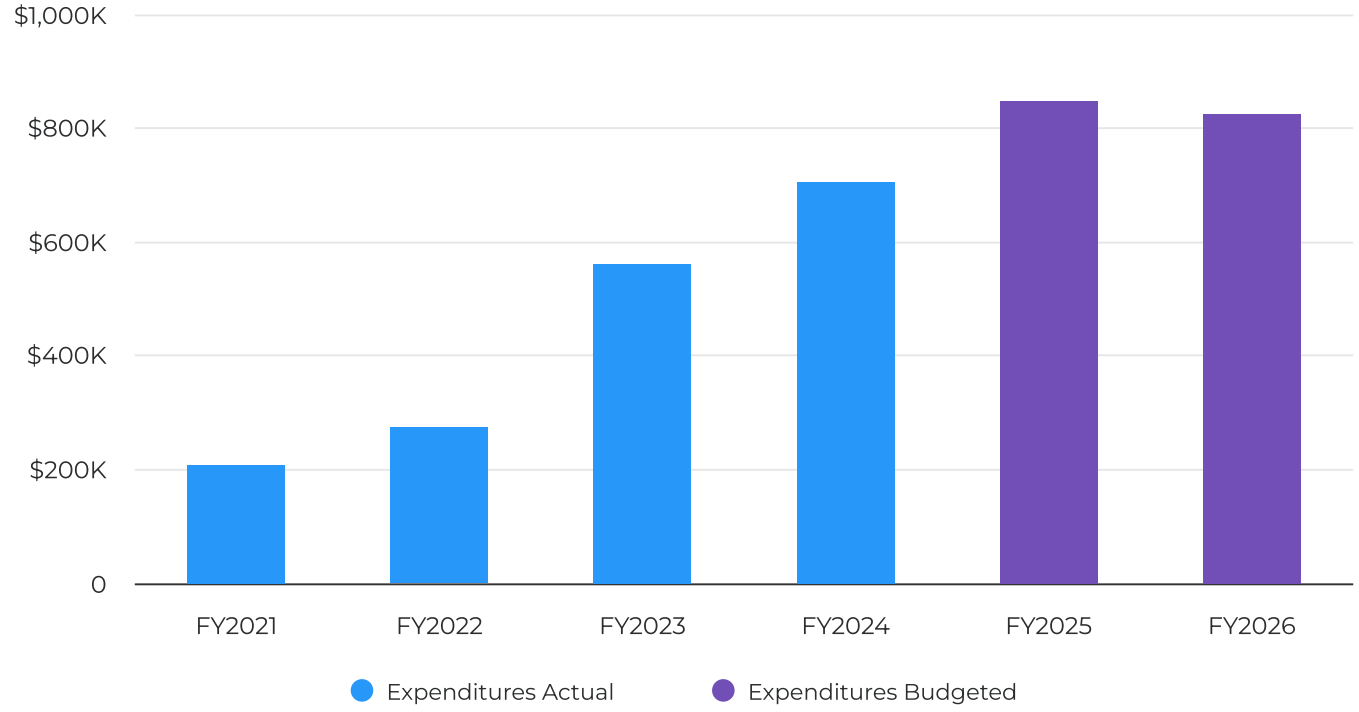

- Develop a records retention program and supporting its implementation across all departments.
- Work with Code Publishing to review and update City Codes.
- Continue to prioritize digitizing records prior to Civic Campus move.
- Seek grant opportunities to help defray costs associated with records digitization and retention.

Community Engagement & Strategic Initiatives

The mission of the Community Engagement and Strategic Initiatives Department is to improve City programs, policies, and services to equitably address the needs of the whole community through engagement, communication, and partnerships to build a resilient and sustainable future. Their work includes emergency preparedness, community outreach and engagement, economic development, policy development and process mapping to improve equitable access to City services, and connecting community members to mental health, substance use, housing, and other human and health services.

2023 - 2024 Highlights

- Created and conducted an education and engagement plan for right-of-way and accessibility
- Improved special events permit application and processing, and created plans for addressing event security and safety issues
- Improved and updated City website, inventory content process, and address accessibility issues
- Launched the “Arts & Culture at the Carnegie” program
- Partnered with Public Works and local artists to paint First Street planters
- Launched “Snohomish 101”
- Expanded the City’s utility rate reduction policy and process to include all low-income households
- Established the Human Services Advisory Board to advise staff on housing, human services and behavioral health needs in the community
- Developed recommendations for utilizing/maximizing 1/10 of 1%, opioid settlement, and other HHS-related revenue
- Implemented a rental assistance program in partnership with Take the Next Step
- Researched recommendations to Council for a neighborhood engagement program
- Partnered with Human Resources to launch a Volunteer Program Handbook
- Acquired and implemented community engagement platform for survey needs
- Established regular office hours at community locations to connect residents with resources.
- Designed and ready to implement a Volunteers in the Park (VIP) program
- Collaborated with Snohomish County Department of Emergency Management for local training opportunities
- Implemented mobile and online reporting system for resident engagement
- Partnered with other departments to develop and implement customized community engagement opportunities
- Designed, implemented, and disbursed funding for Snohomish Thrives Grant Program
- Established Economic Development Advisory Board
- Participated in the National League of Cities’ City Inclusive Entrepreneurship program by partnering with SourceLink and the Washington State Microenterprise Association to produce a SourceFinder poster (resource map) for entrepreneurs and small businesses
- Hosted IDEA (Inclusion, Diversity, Equity, Accessibility) Forum in partnership with Economic Alliance Snohomish County
- Partnered with various UW programs through the Livable City Year (LCY) program to support CESI, Public Works, and Planning projects
- Worked with Planning and University of Washington's Liveable City Year to update the Economic Development Element of the Comprehensive Plan
- Partnered with Seattle NorthCountry on Snohomish “microsite” to pilot a Google Ads campaign to promote the site with funds from a Snohomish County LTAC grant
- Updated Chapter 2.23 SMC (Lodging Tax Advisor Committee) and the Lodging Tax Grant Program process, funding for six projects in 2023 and eight projects in 2024
- Acquired and implemented an online tool for visitor data reporting
- Partnered with Planning & Development Services to improve business licensing process

2025 - 2026 Priorities

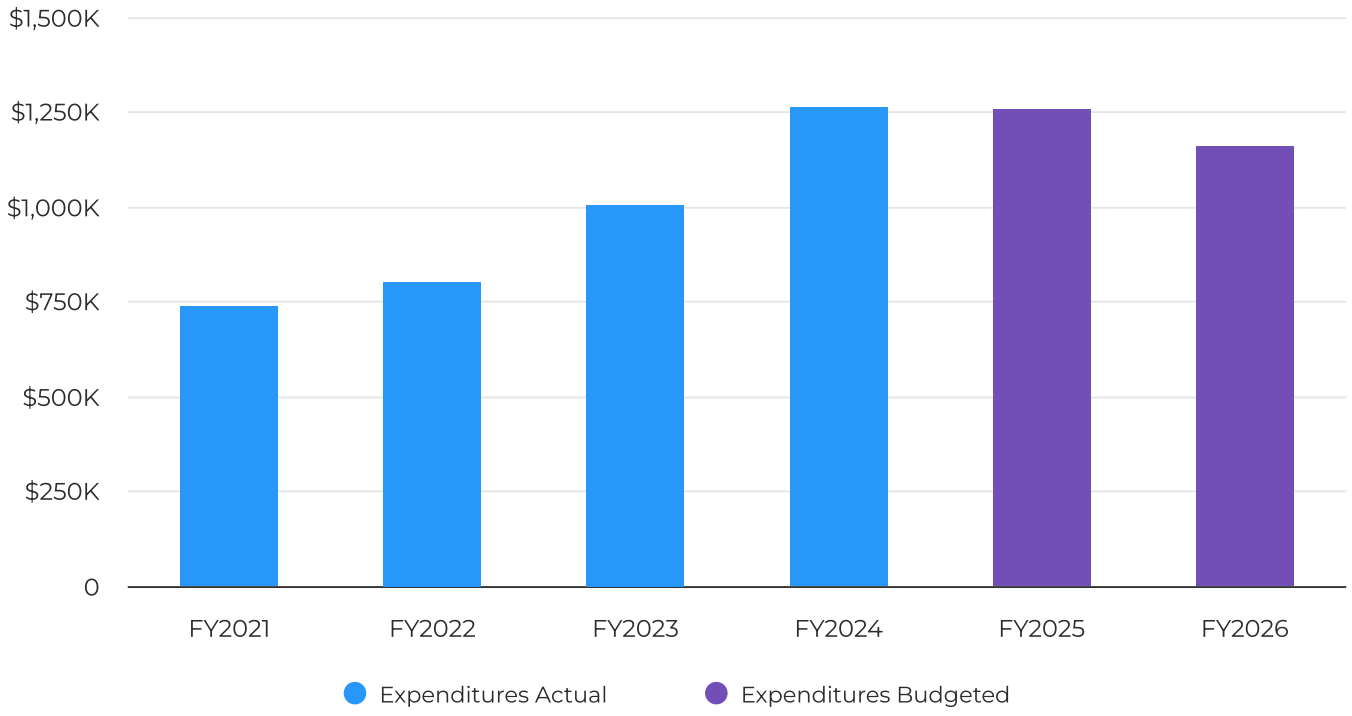

- Finalize the 2025 Comprehensive Emergency Management Plan (CEMP) and Hazard Mitigation Plan
- Finalize and implement Emergency Operations Procedures (EOP)
- Draft and finalize communications plan for hazards, emergencies and crisis identified in the 2025 Hazard Mitigation Plan
- Develop succession plans for all City competencies and update all references to Delegation of Authority as related to emergencies in the SMC
- Establish a "new start" digital and physical welcome packet for new Snohomish residents and businesses
- Refresh the City brand and launch a wayfinding and gateway signage program in partnership with Planning and Public Works
- Present tenant protection options to Council
- Evaluate options for mobile behavioral health delivery (or other non-brick and mortar option) for the Sky and Sno Valley
- Provide support to Snohomish School District workforce development efforts and experiential learning opportunities
- Continue to support and grow cultural events programming at the Carnegie
- Launch an arts advisory board and draft a policy recommendation for public arts programming and funding for Council
- Create a recommendation that provides options (transportation or service providers) to reduce barriers from and increase navigation to health and human services and resources
- Conduct a windshield survey to help identify the needs of vulnerable and underrepresented residents
- Implement and launch a year-round Community Resource Center
- Establish critical business connections through business retention and expansion program and make referrals for services
- Promote standardized visitor data reports to businesses for streamlined data requests
- Continue the City’s marketing campaign to promote the Snohomish microsite for visitor promotion and tourism
- Further involve Snohomish businesses and organizations in Seattle NorthCountry’s tourism promotion efforts
- Renew Experience Snohomish as the City’s economic development brand and rebuild website to more adequately serve a variety of audiences
- Partner with Snohomish Chamber of Commerce, Historic Downtown Snohomish Association, and Success Street Coaching on a workshop series and pitch competition

Finance

This department provides financial services to support all City departments. They are responsible for the overall financial management, including the budget, audits, procurement, payroll, inventory management, investments, debt management and utility billing.

2023 - 2024 Highlights

- Reorganization and streamlining of roles and workload within the finance department, strengthening financial controls and accountability throughout the department and the City.
- Completed the following audits by the WA State Auditor's Office with no findings:
  - 2021-2022 Accountability Audit
  - 2022 Financial Statement Audit
  - 2023 Financial Statement Audit
  - 2023 State and Local Fiscal Recovery Funds (SLFRF) Audit
- Strengthened and improved the processes and accuracy of the City's payroll functions.
- Implemented new budget transparency tool for the 2025-2026 biennial budget process.

2025 - 2026 Priorities

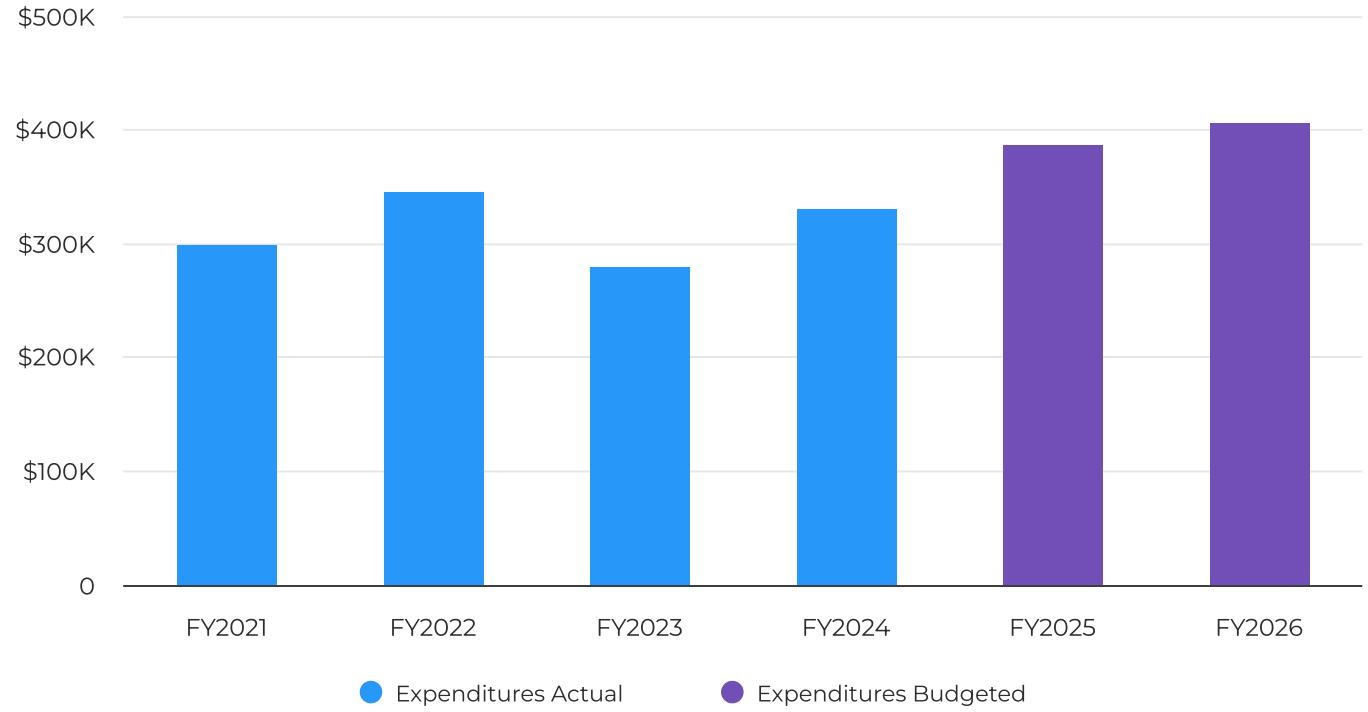

- Continue to strengthen the City’s financial management policies specific to debt management and reserves.
- Implementation of new financial and reporting system, including implementation of asset management and procurement system.
- Receive clean audit from the WA State Auditor's Office for 2024 Financial Statement and 2023-2024 Accountability audits.
- Continue to improve and streamline financial related processes, and identify other opportunities for lean process improvements.
- Cross train staff to ensure depth of coverage and succession planning.

Human Resources & Risk Management

This team supports the City and all departments in attracting, developing, and retaining a highly qualified and diverse workforce. It is committed to service, community, and innovation. They seek to provide support and guidance to all employees in employee relations, benefits and compen-sation programs, recruitment, training, professional development, and workplace safety.

2023 - 2024 Highlights

- Restarted City Volunteer Program
- Attended Recruitment Fairs
- Successfully completed several payroll and risk management audits
- Received Wellness and Safety Grants through successful participation in events
- Received the WellCity reward to foster a healthy workforce and save 2% on medical premiums
- Completed salary compensation study and successfully negotiated updates with the Union

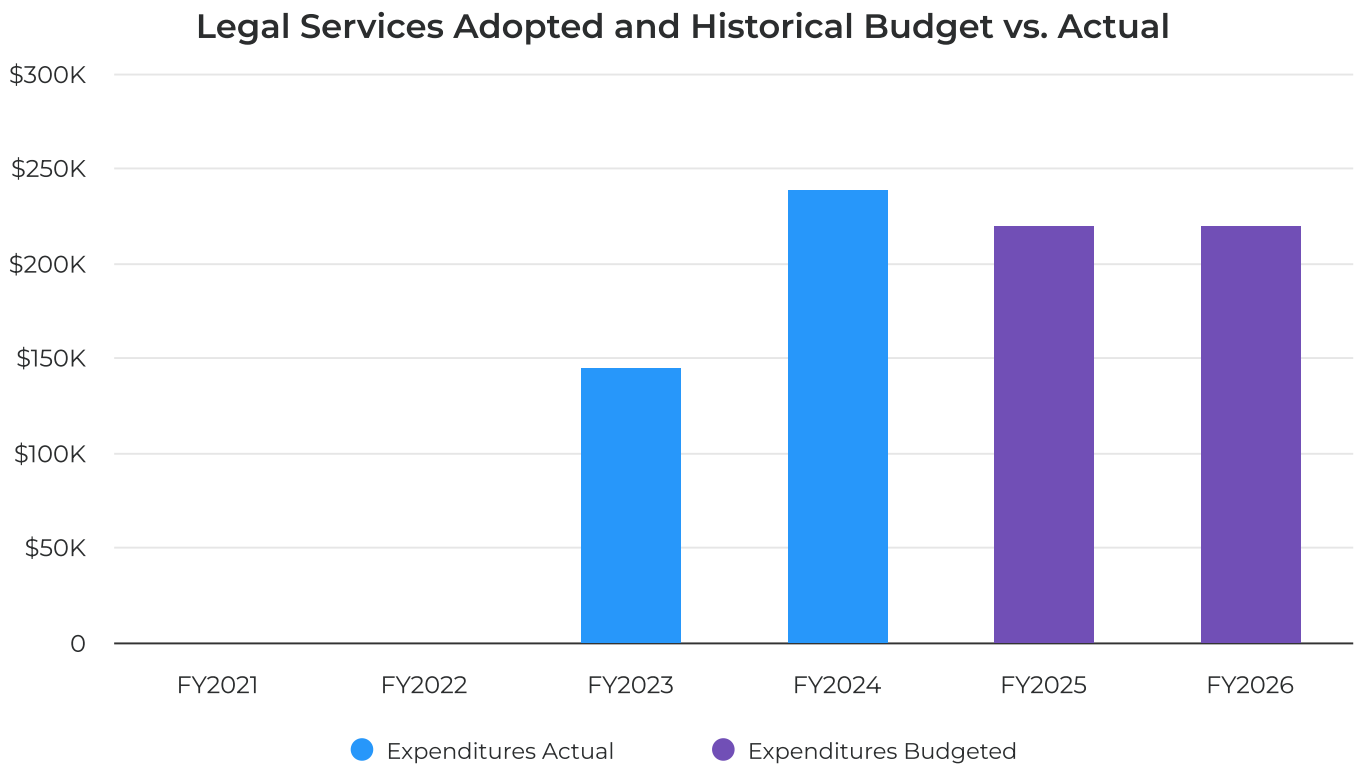

2025 - 2026 Priorities

- Updating Personnel Policies to re-set expectations with staff and follow best practices and laws.
- Finalize an internship and apprenticeship program.
- Complete Union negotiations for new contract beginning in 2026.
- Conduct a review of City benefits offered to employees.
- Update city wide safety manual and risk management programs.
- Continue to foster diversity, equity, and inclusion through internal and external avenues.

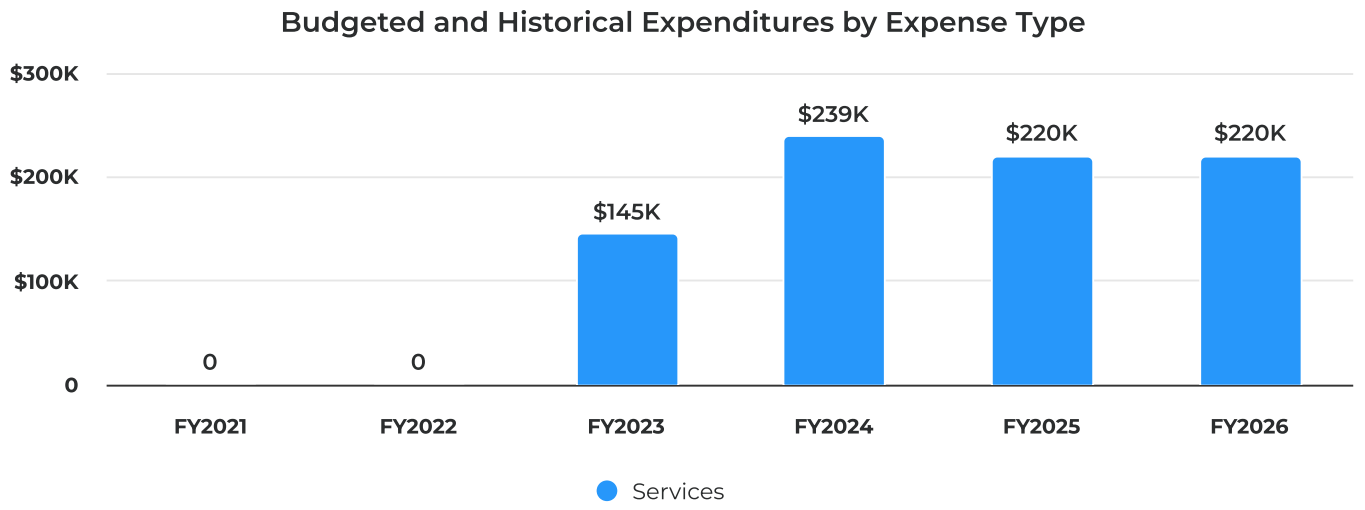

Legal Services

For the 2025-2026 budget, the City has moved all contracted legal expenses into one cost center for better monitoring and transparency. This includes expenses associated with the City's contracted City Attorney services through Thompson, Guildner & Associates, as well as outside legal costs. The 2023-2024 budget had previously included some other contracts (e.g., court appointed attorney and interpreters) under Legal Services, but those are being reclassed under Public Safety Services moving forward.

Planning & Development Services

The Planning & Development Services Department's mission is to improve and enhance our community using open and transparent processes. The department has seven full-time positions and is divided into two divisions: Planning and Building & Inspection.

Planning

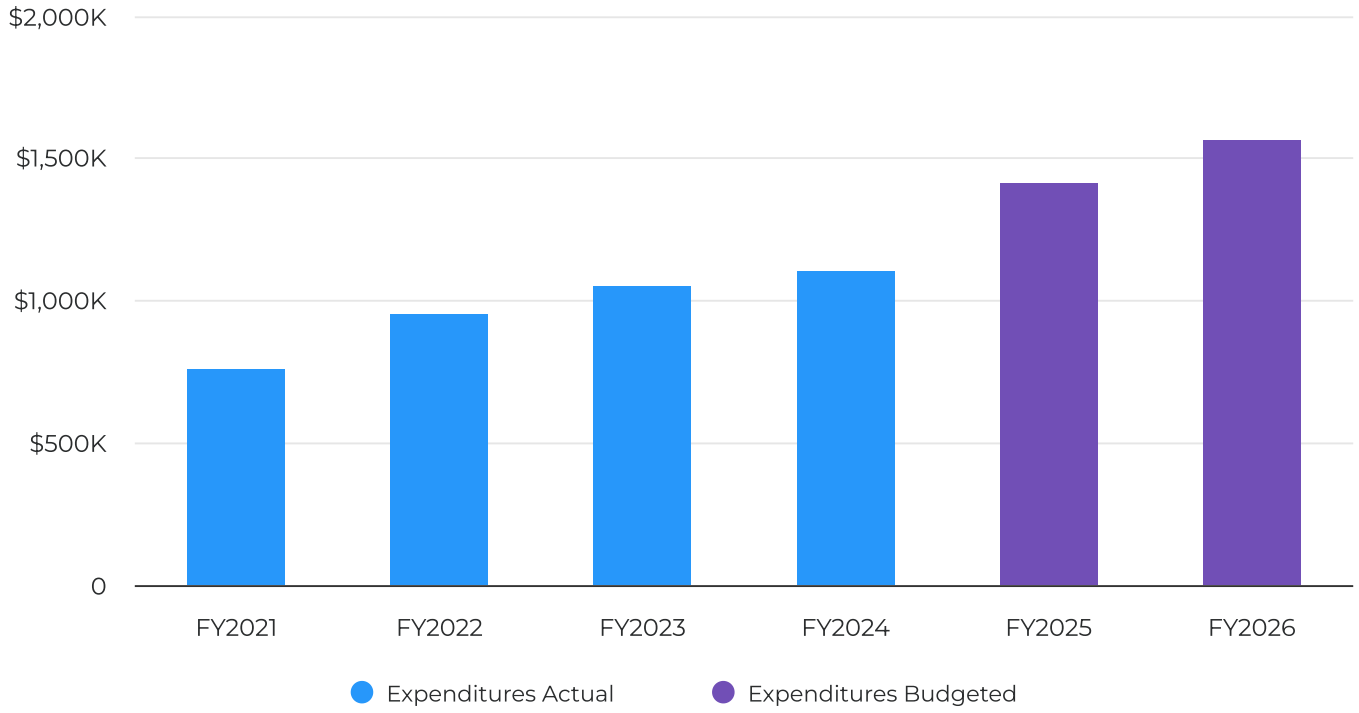

The Planning division is responsible for long-range planning in Snohomish and managing land use policy and regulations, including the Comprehensive Plan and the Land Use Development Code. The division is comprised of four full-time positions, including the department director, the Planner, Assistant Planner, and GIS Specialist. The division reviews land use and development permits for compliance with environmental and land use regulations, maintains the City's geodatabases, creates and maintains maps, processes requests for rezones and annexations, and serves as staff to the Planning Commission, Design Review Board, Park & Forestry Board, and the Hearing Examiner for land use and development matters.

Building & Inspection

The Building and Inspection division is responsible for enforcing the building codes and issuing development permits in Snohomish. The division is comprised of three full-time positions, including the Building Official, Code Enforcement Officer, and Permit Coordinator. The division reviews building and land use permit application against applicable building and fire codes, performs inspections and investigations, and manages the intake, review, tracking, and issuance of development permits for land use, construction, and engineering permits.

2023 - 2024 Highlights

Planning

- Completion of Comprehensive Plan Periodic Update, including North Lake Subarea rezone
- Processed 14 regulatory amendments; 8 in response to state mandates (includes Affordable Housing, EPFs, ADUs, etc.)
- Took management of Parks & Forestry Board and completed Urban Forestry Plan, PROS Plan; began Tree Ordinance
- Supported Public Works on Complete Streets program, Transportation Master Plan, Multimodal Improvement Plan, Heirman property transfer, Homestead Park planning, rate studies, impact fees
- Began analysis of Pilchuck District regulations

Building & Inspection

- Analyzed permit review processes for improvement areas and opportunities to streamline in anticipation of state legislation
- Closed many old code enforcement cases
- Adopted new building code update
- Improved field inspection response and efficiency

2025 - 2026 Priorities

Planning

- Adopt Tree Ordinance and apply for Tree City USA
- Review and update Critical Areas Ordinance
- Review Pilchuck District development regulations
- Begin work on North Lake UGA Annexation
- Support Public Works on Homestead Park Master Plan
- Transition utility spatial data to City-hosted database
- Improve housing webpage

Building & Inspection

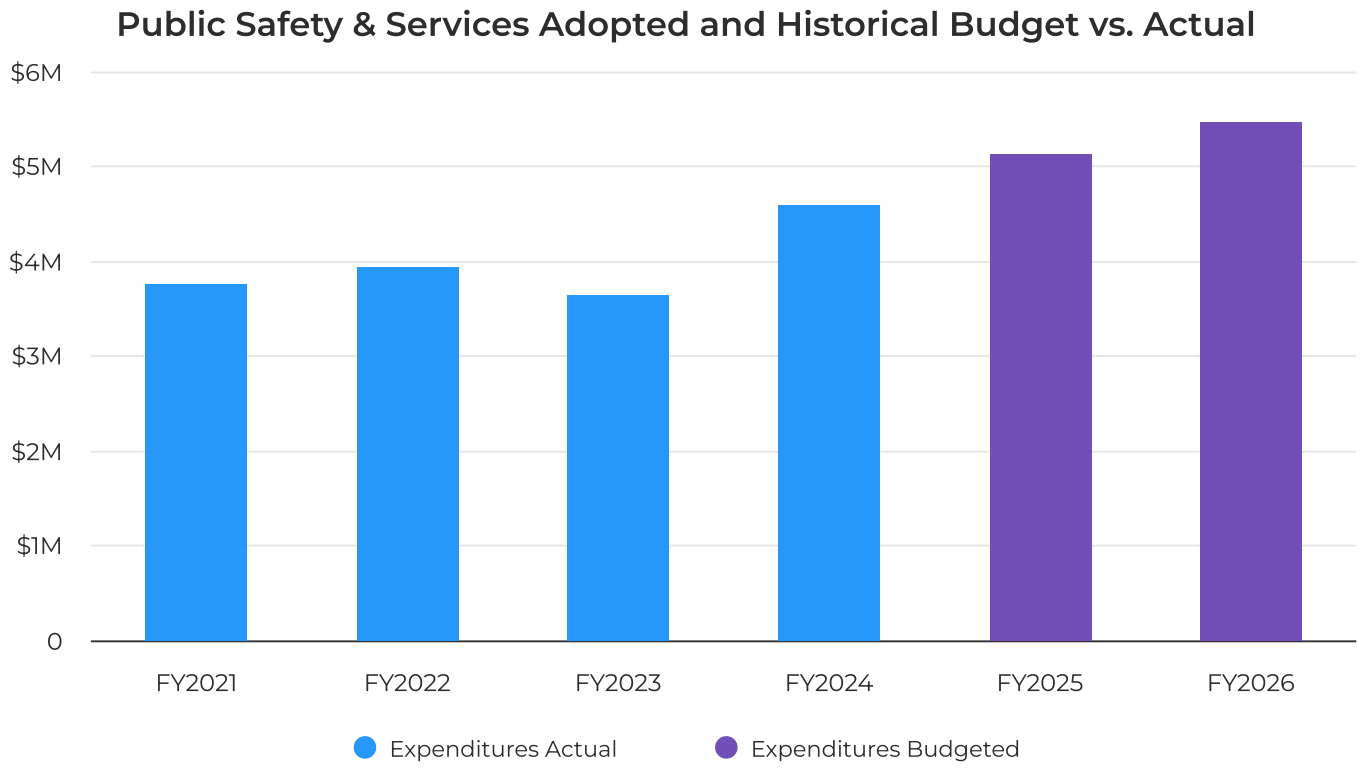

- Update permit processes and submittal checklists
- Improve code enforcement regulations
- Develop cooperative inspection and review process with Fire District #4

Public Safety & Services

The City provides police protection through a contract with the Snohomish County Sheriff's Office. These services include patrol, detective investigative services, traffic enforcement, emergency and routine response, major accident response, fraud investigation, major crime investigations, hostage negotiations, tactical unit, special assault unit, arson investigation, non-commissioned office support, record services and other police services such as public records requests, concealed weapon permits, fingerprinting, and responding to citizen inquiries. The contract with Snohomish County Sheriff's Office is for eighteen commissioned officers and two non-commissioned staff.

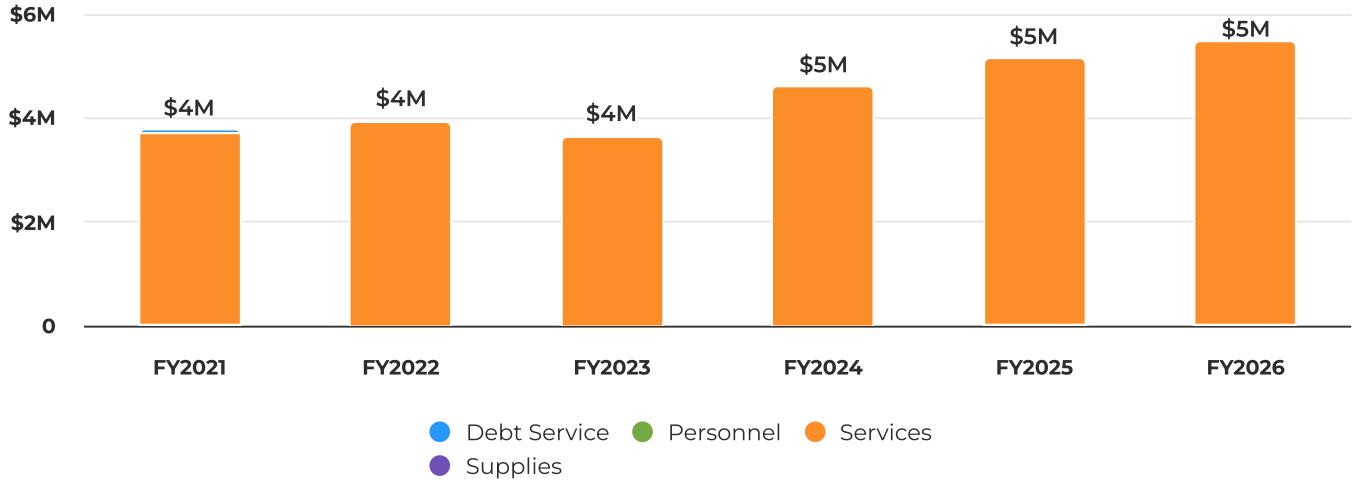

In addition to the contract with the Sheriff's Office, the City is also required to pay for expenses associated with animal control, jail bookings, district court, prosecuting attorney, public defender, etc.

Public Works Administration

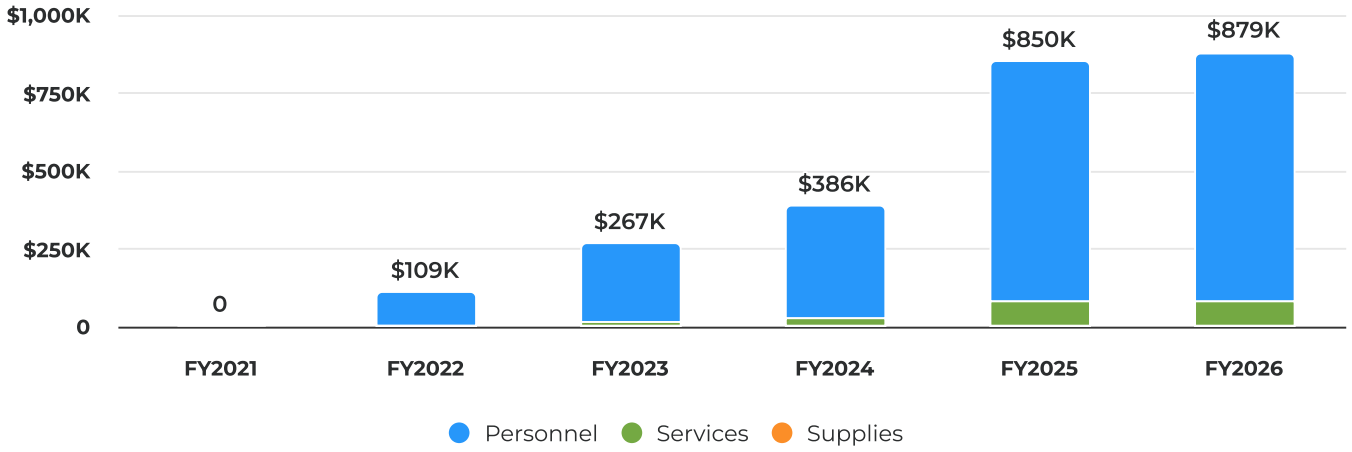

The Public Works Department consists of four divisions: Administration, Engineering, Operations, and Utilities. The department is responsible for providing maintenance and services for water, sewer/wastewater, and stormwater utilities. It also maintains streets and ensures traffic safety, manages capital projects from planning through completion, enforces engineering code requirements, and oversees the management and maintenance of the city's parks, facilities, and fleet.

2023 - 2024 Highlights

- Hired a project coordinator to help with planning and prioritization of projects, as well as increased work to secure funding opportunities for infrastructure and utility improvements.
- Developed a coordinated plan for improved maintenance including establishing a level of service targets for each department.
- Instituted yearly team work plans with 6-month updates to evaluate work load and goal tracking.
- Improved communication within Public Works and between other departments.
- Expand citizen engagement and service with TextMyGov and successfully integrated it with IWorQ work management system.
- Implemented the Local Road Safety, Complete Streets, Transportation Masterplan, Parks PROS plan, Utility and parks rate study, and assisted with the implementation of the Comprehensive Masterplan.

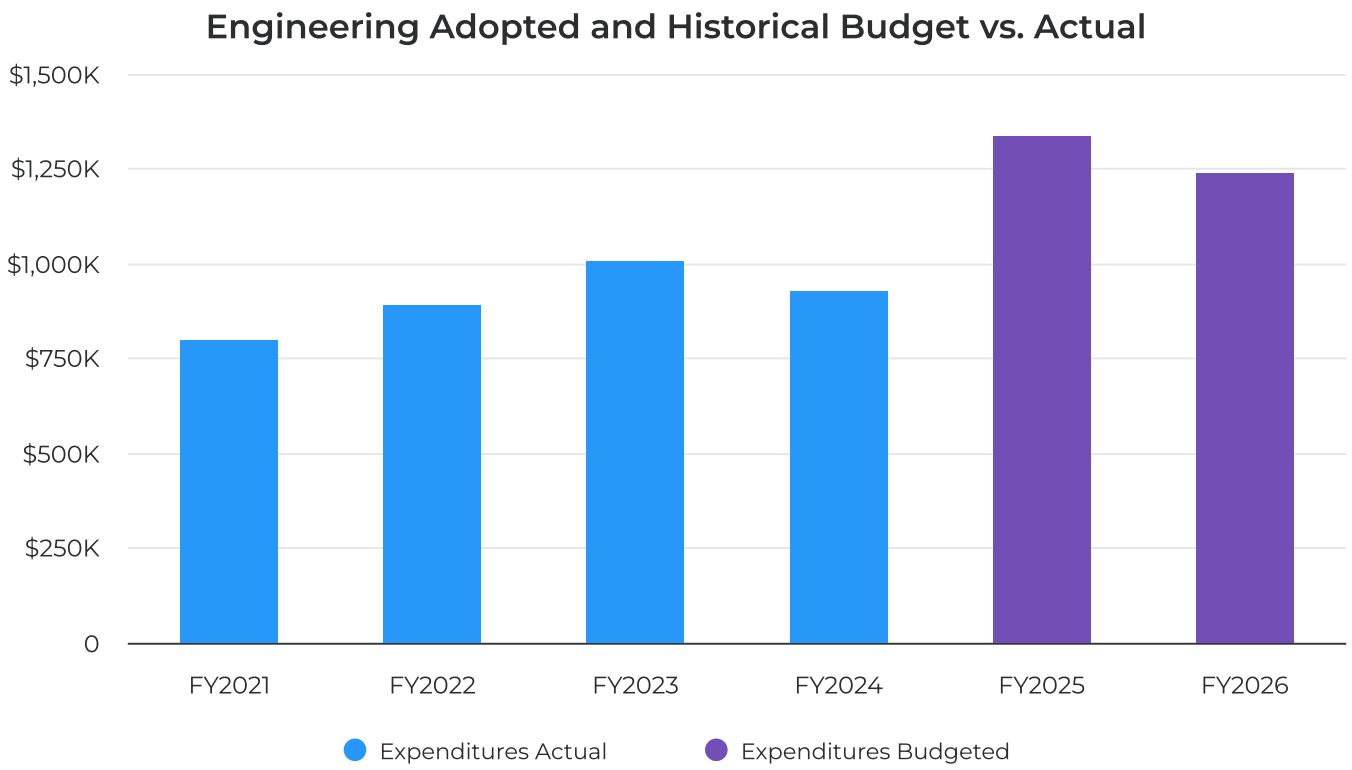

2025 - 2026 Priorities

- Continue to seek and apply for funding opportunities for infrastructure and utilities projects & build relationships with outside stakeholders to help support efforts.
- Streamline a system for tracking contracts, funding sources, and project management.
- Assist the City Clerk with implementing the Electronic Public Records Management System and uploading PW records.
- Continue to work on improving interdepartmental communication and collaboration.
- Start the engagement and design of First Street Master Plan

Engineering

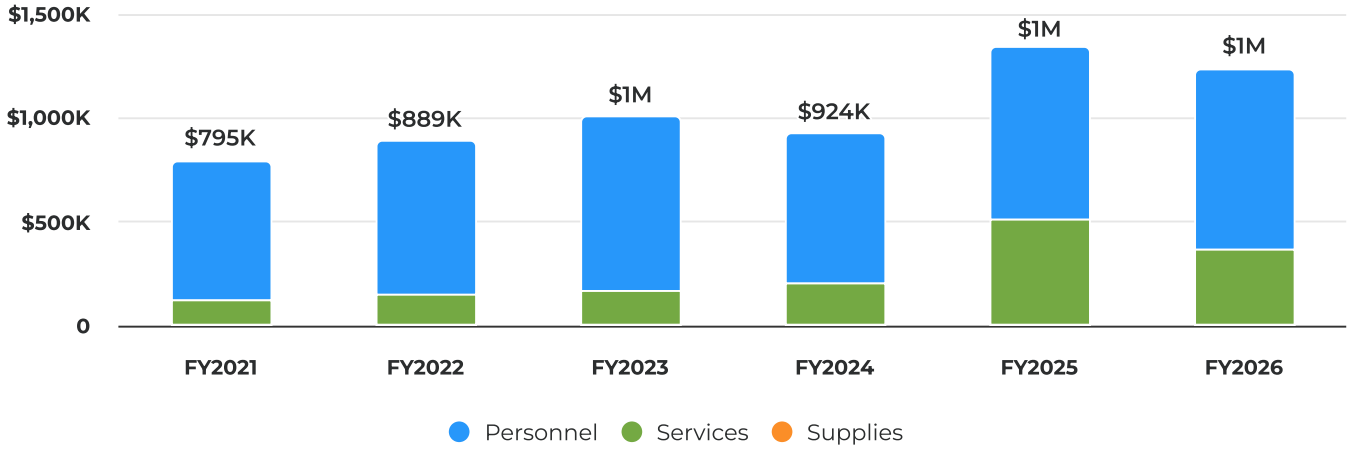

This division provides engineering, planning, budgeting, funding, inspection, and project management oversight for capital projects involving motorized and non-motorized transportation, sewer, water, stormwater, parks, and facilities. These projects include design, permitting, grants, and construction within public rights-of-way. Additionally, the division assists the Public Works Operations and Maintenance Divisions with infrastructure improvements, and utility mapping. Other services include supporting the Planning Department in reviewing development plans and permit submittals, responding to public questions and concerns, coordinating with utility service providers and government agencies, enforcing codes, and inspecting private development construction.

2023 - 2024 Highlights

- Completed the North Sewer Trunkline Project design and continued with the permitting, agency coordination construction.
- Completed the Blackmans Lake Cyanobacteria Plan water quality sampling, proposed recommendations & developed a management plan.
- Completed Bickford Avenue/Weaver Road Intersection Improvement Project design and construction.
- Continued the Transportation Benefit District Program pavement preservation projects and development of two intersection improvement projects (Bickford Avenue/19th Street and Second Street/Pine Avenue).
- Completed the construction of Averill Field Improvements - Phase I project.
- Facilitated the relocation of the Veterans Memorial back to the Carnegie Building site.
- Implemented the ADA Transition Plan and developed the Complete Streets Program.
- Updated the Transportation Master Plan and the Parks, Recreation, and Open Space (PROS) Plan.

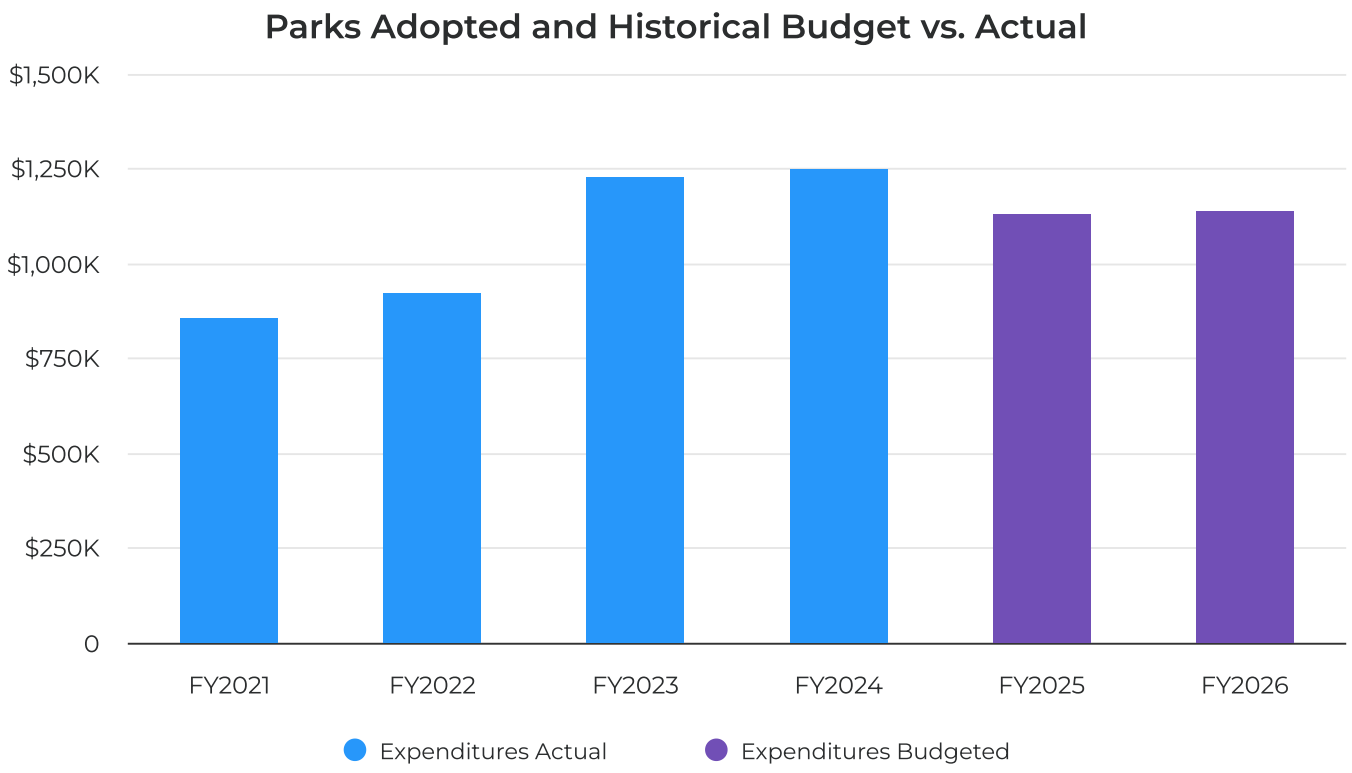

2025 - 2026 Priorities

- Construction & completion of the North Sewer Trunkline Project
- Design and construct Tenth Street utility and road improvements
- Repair and replacement of the Second and Pine traffic light pole.
- Utility and street improvements at Third and Pine Ave.
- Design of Bickford and 19th intersection.
- Permitting and construction of Bickford and Weaver Ave.

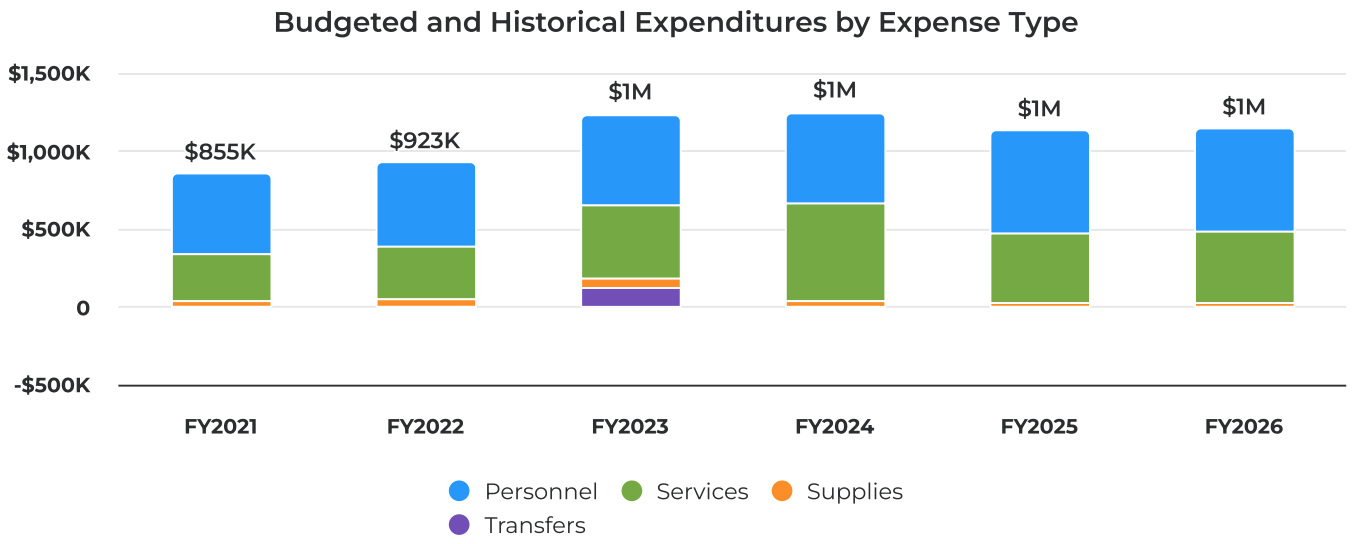

Parks

The Parks Team oversees a diverse range of parks and facilities throughout the city. They manage an extensive area spanning 233 acres, including 11 parks/playgrounds, 7 pocket parks, and 6 miles of trails. Notably, the department maintains various recreational amenities, such as 6 pickleball & tennis courts, 3 basketball courts, 3 boat launches, 3 fishing piers/docks, 2 baseball fields, 2 soccer fields, and 1 disc golf course.

2023 - 2024 Highlights

- Upgrades to parks play structures to meet current safety standards.
- Continue work on all City parks and street landscapes including the roundabout at Ave D.
- Landscaping and irrigation improvements at Averill Field.
- Installing new irrigation system at Pilchuck Park.
- Installing concrete pads, plantings, flowering cherry tree, and park benches at the Veteran's Memorial and Carnegie lawn.

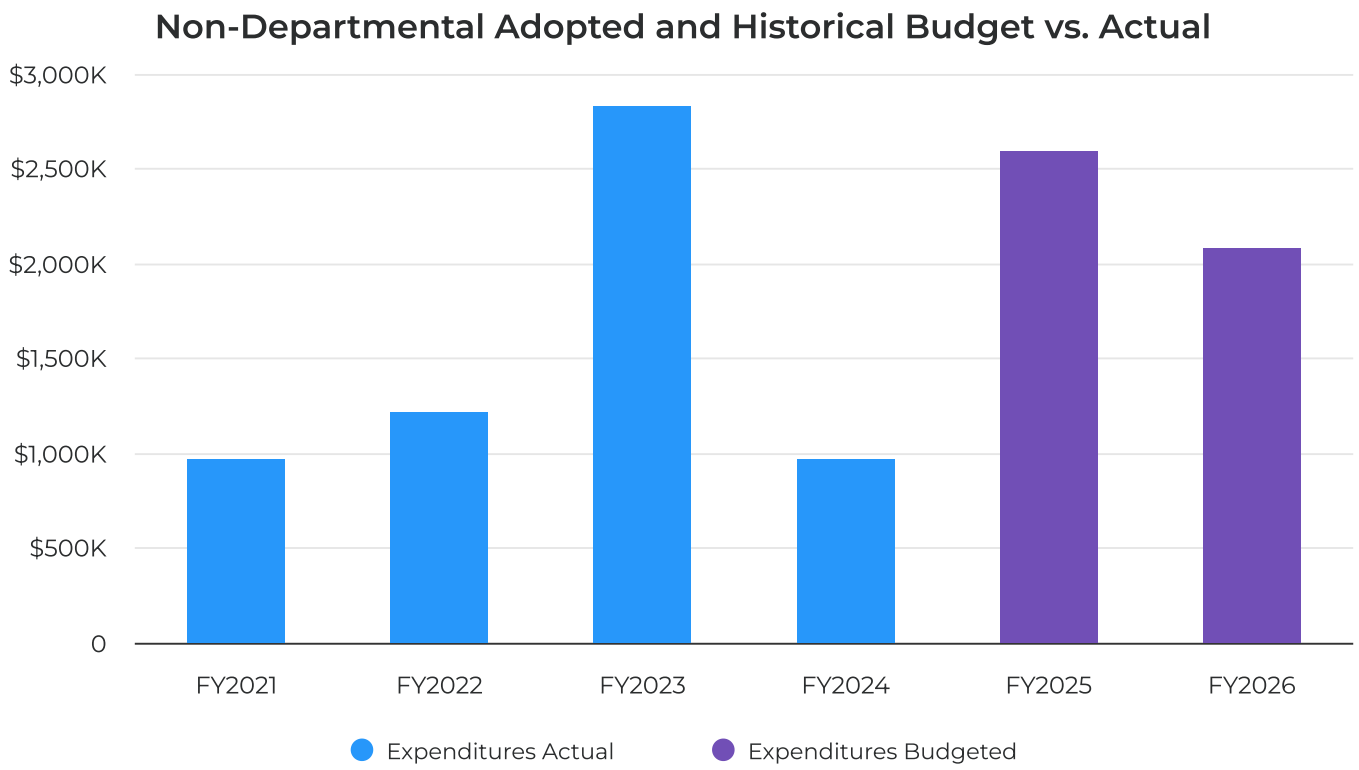

2025 - 2026 Priorities

- Staff becoming certified play equipment installers, and replacing obsolete playground equipment at Fischer Park.
- Update Centennial Trail signage and bollards.
- Plantings and wayfinding signage at Kla Ha Ya Park.
- Resurfacing the parking lot at Ferguson Park.
- Repairs to the dock at Hill Park.
- Install wayfinding signage at Pilchuck Julia Landing and Riverfront Trail.

Non-Departmental

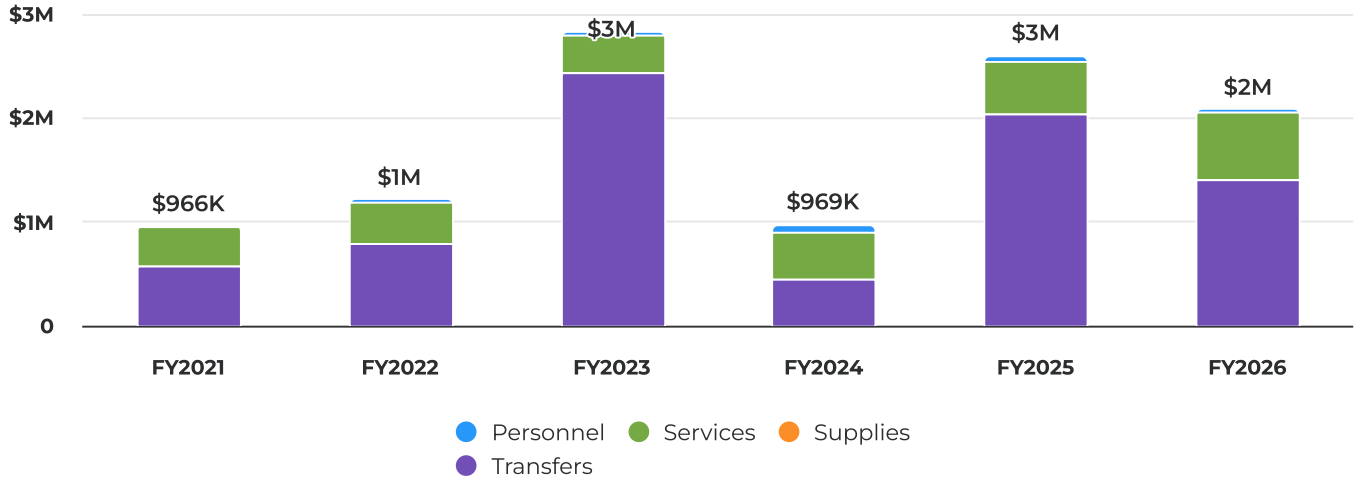

This includes miscellaneous costs of City operations such as repaying bonds and funding capital projects. The City also supports critical community providers by paying utilities for the Senior Center so that they can dedicate more of their resources to needed meals and interaction for our seniors, as well as paying the water bill for the Snohomish Aquatic Center to keep rates for the community and Snohomish School District affordable. Other expenses include annual contribu-tions and memberships to Alliance for Housing Affordability, Association of Washington Cities, Economic Alliance of Snohomish County, National League of Cities, Puget Sound Clean Air Agency, Puget Sound Regional Council, and Snohomish County Tomorrow.

Streets (Fund 102)

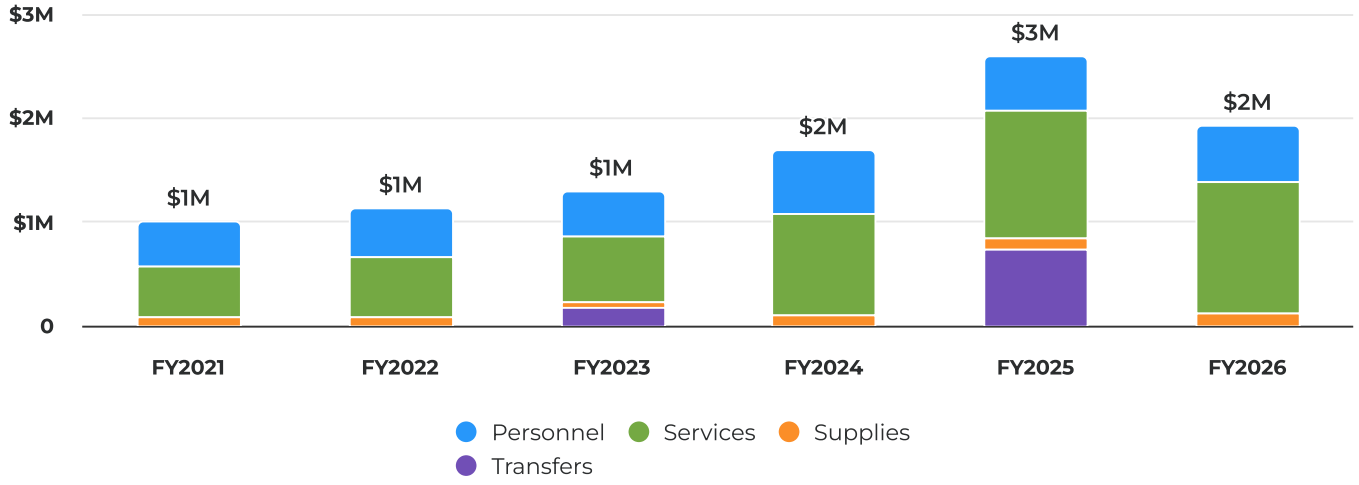

The City is responsible for over 40 miles of streets and associated signage throughout Snohomish. The dedicated Streets Team is responsible for a range of maintenance tasks, including street surface patching and upkeep of gravel alleyways. They also manage the maintenance and replacement of traffic signage, pavement markings, traffic signals, street lighting, street sweeping, and snow plowing.

2023 - 2024 Highlights

- Filled and repaired potholes and guardrail.
- Installed curb bulb outs and concrete pads on First Street for the planters.
- Continued crossing upgrades with rapid flashing beacons at designated crosswalks.
- Ongoing roadway, alley and signage maintenance
- Completed a crosswalk condition inventory and prioritization for replacement.
- Paving projects at Ferguson Road and Avenue J.
- Replaced sidewalk on Cedar in front of Carnegie.

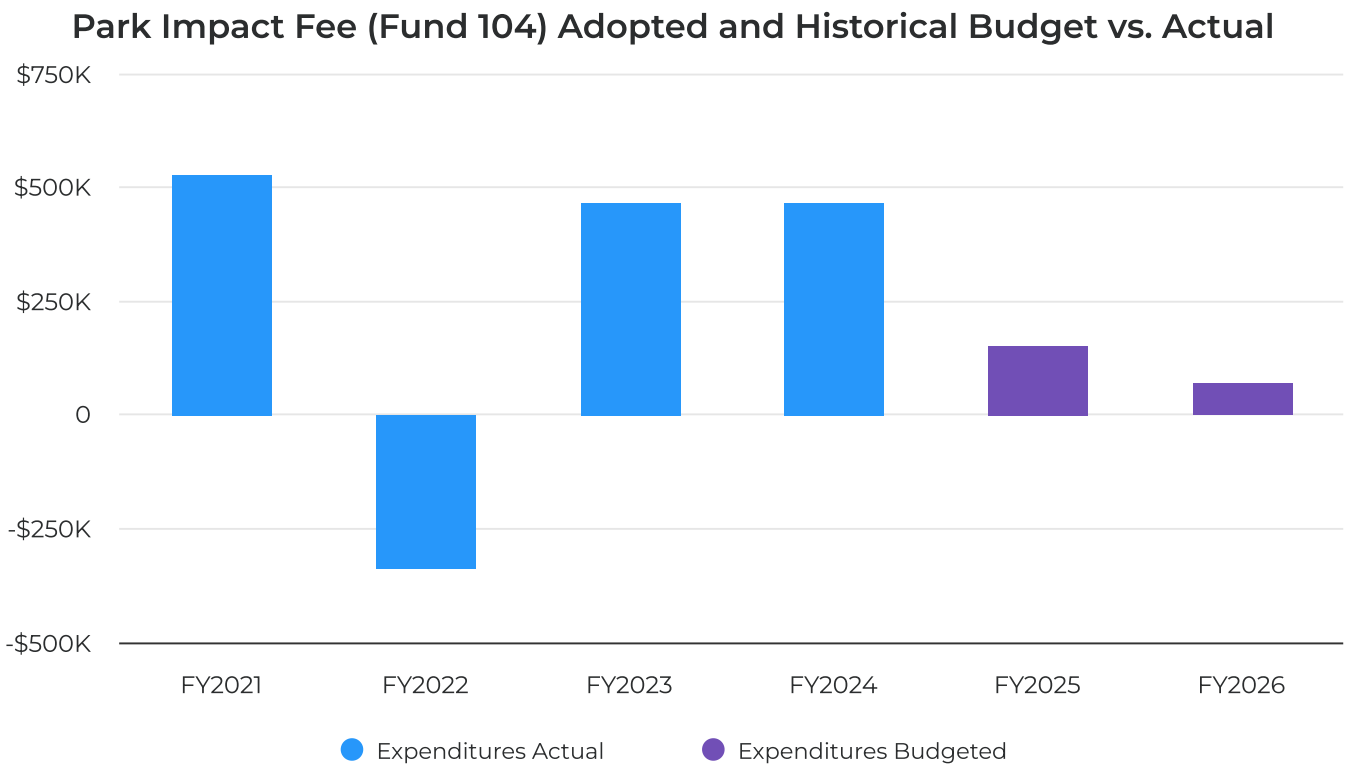

2025 - 2026 Priorities

- Pavement maintenance throughout the city including preventative crack sealing.
- Improvements to the plow equipment for snow and ice removal.
- Purchase new equipment to improve efficiency for replacement of crosswalk thermo markings.
- Participate in development of new sidewalk and street tree fund.

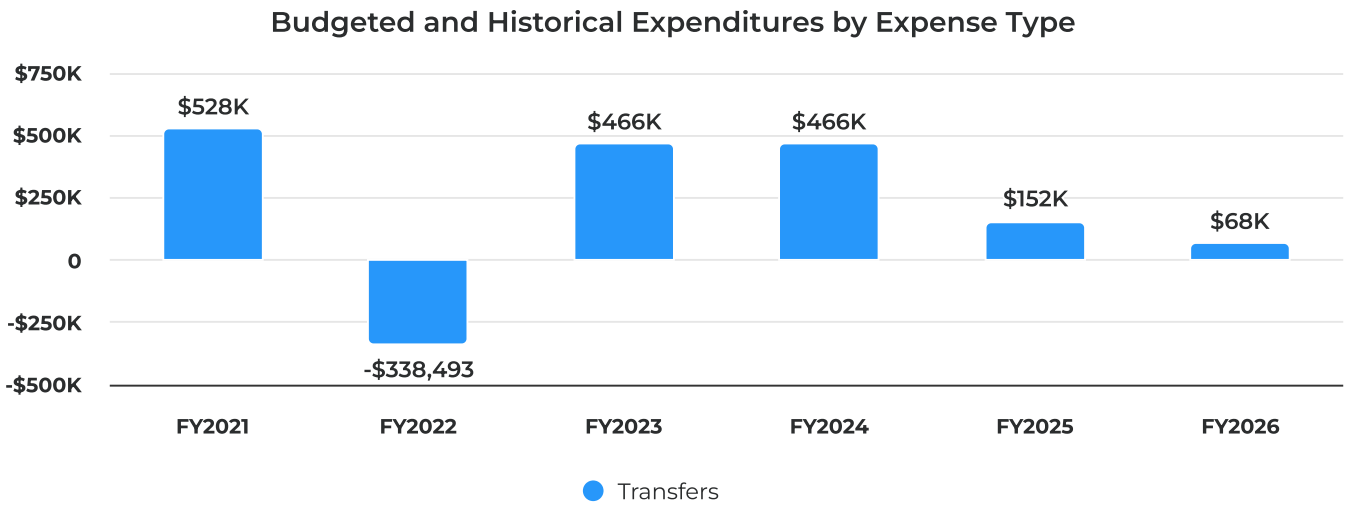

Park Impact Fees (Fund 104)

The Park Impact Fee Fund was created in 2006 by Ordinance 2112 establishing a SEPA-based park impact fee. In 2008, Ordinance 2141 established the fee as code-based. This is an impact fee for new single-family residential and multifamily units. Fund resources are received from the beginning fund balance, new impact fees received annually, and interest income. Fund uses are restricted to acquisition or development of new parks or parks facilities. Park impact fees not spent within 10 years of their collection must be returned to the payee.

Visitor Promotion (Fund 107)

This fund accounts for monies received from the collection of hotel/motel tax and is spent to enhance tourism in the City of Snohomish. Resources are received in the form of beginning fund balance, hotel/motel tax collected annually, and interest income. Fund expenditures are restricted to tourism-related activities. The City offers a portion of these funds through a competitive process to local non-profit organizations, following an approval process with the Lodging Tax Advisory Commission (LTAC).

Parking Business Improvement Area (PBIA Fund 108)

On December 17, 2002, the City Council adopted Ordinance 2017 creating the Parking and Business Improvement Area (PBIA). A majority of business owners within the PBIA requested this action to assess an annual fee based on square footage for businesses within the Historic Business District. These funds can be used to acquire, construct or maintain parking facilities; deco-rate any public place in the area; sponsor or promote public events in the area; furnish music in the area; provide professional management, planning and promotion for the area; provide maintenance and security for the area; or provide transportation services for the area.

Transportation Benefit District (TBD Fund 130)

The Transportation Benefit District (TBD) was approved by the City voters. The TBD increased the local sales tax rate two tenths of one percent (0.2%) and was in effect for ten years (2012 to 2021). In 2015, Washington State adopted 2ESSB 5987 that allowed cities with an established TBD to have that TBD be absorbed into the city. In December 2015, the Council adopted Ordinance 2297. This ordinance transferred all of the rights, powers, immunities, functions, and obligations of the Snohomish Transportation Benefit District to the City. City voters approved the extension of the TBD program through 2031.

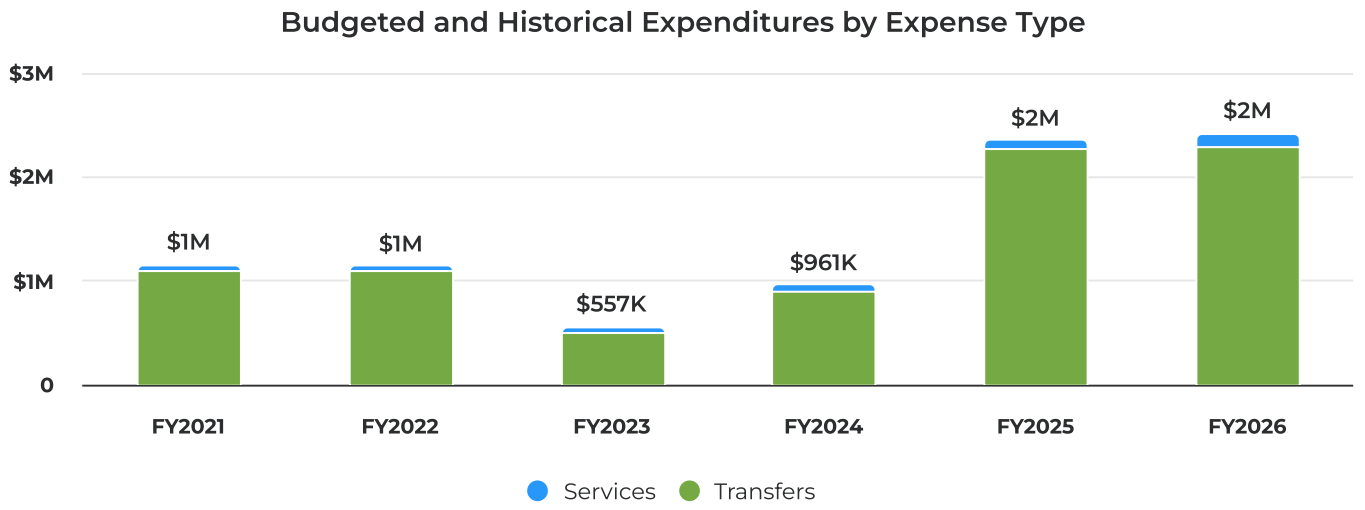

Since 2012, the City has collected approximately $9.2 million in TBD funds. About $3.1 million of TBD funds was spent to preserve approximately 6.5 miles of roadway and to complete the two intersection projects. The City has worked hard to leverage local funds with grant dollars, receiving approximately $5.5 million from State and Federal grant programs for TBD pavement preservation and intersection projects. Only projects included in the TBD Pavement Management Program are eligible for use of these funds.

Snohomish Rescue Plan (ARPA Fund 140)

The American Rescue Plan Act (ARPA) was signed into law in March 2021, with the City of Snohomish slated to receive $2,834,468 in two equal distributions. The first distribution of $1,417,234 was received in June 2021, with the remaining balance received in June 2022. The City Council discussed the ARPA funds in detail, followed by adoption of Ordinance 2422 in October 2021. Ordinance 2422 established the City of Snohomish Rescue Plan Allocation and its intended use based on U.S. Department of Treasury's interim final rule. The final rule was published in January 2022, taking effect April 1, 2022. The City Council adopted Ordinance 2452 in August 2022 updating the allocation of funds and intended uses of the Snohomish Rescue Plan Fund, which is reflected in the table below.

All ARPA funds must be spent or committed by December 31, 2024, and any remaining committed dollars need to be fully expended by December 31, 2026. The City has expended all but $531,769, which will be carried into 2025. Those remaining funds will pay for the salary for the City's Community Navigator, as well as final payments on software and design contracts already in place.

Behavioral Health & Housing (Fund 150)

The City Council previously identified the critical need for funding to provide affordable housing and housing-related services and passed Ordinance 2427 in November 2021. This ordinance established a 1/10th of 1% sales and use tax, authorized by RCW 82.14.530 (Sales and use tax for housing and related services) and HB 1590 (Allowing the local sales and use tax for affordable housing to be imposed by a councilmanic authority). These revenues were added to funds being collected by the City as a result of HB 1406 (Encouraging investments in affordable and supportive housing), passed by the state legislature in 2019. The revenue from these two funding mechanisms have been assigned to a dedicated fund given the restricted nature of the monies received.

Tree Program & Mitigation (Fund 160)

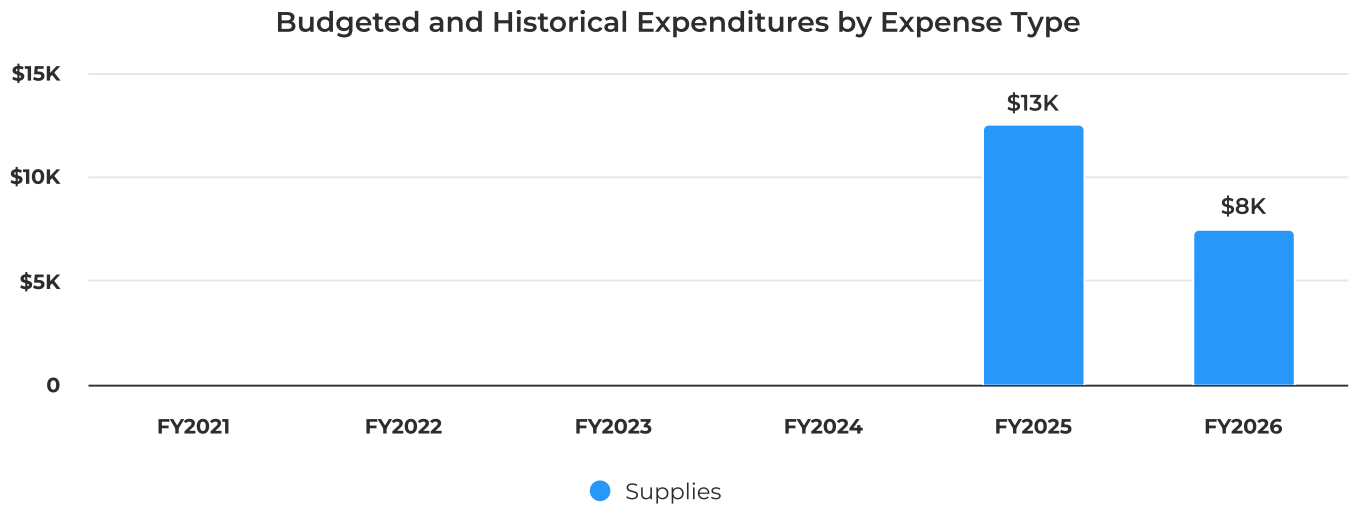

The Tree Mitigation Fund was established in 2025 by Ordinance 2516 as part of the City's urban forestry program to meet eligibility requirements for Tree City USA. This fund provides additional flexibility for property owners and developers by providing a fee in lieu option, mitigation for tree-related code enforcement, and donations. Fund expenditures are restricted to urban forestry activities and based on recommendations by the Park and Forestry Board.

Debt Service Fund

This fund accounts for repayment of the City's general obligation debt. Fund resources are provided by beginning fund balance, property taxes on voter-approved debt issuances, interfund transfers for street debt, and interest income. Uses are restricted to debt service obligations of annual principal and interest payments according to bond debt repayment schedules. The remaining balance of debt is from the Riverfront Trail bond in 2005, and will be fully paid in 2025.

Capital Funds

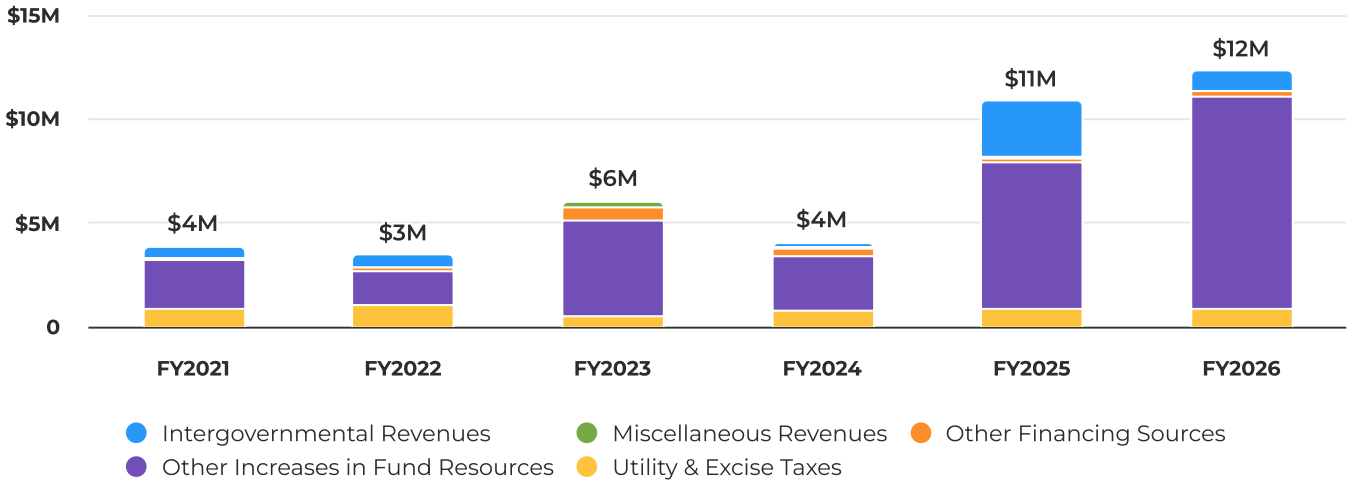

Capital funds are for the acquisition, construction, and improvements to major City infrastructure. These funds operate much like a joint checking account, with transfers coming in to pay for shared projects. These funds are not meant to have large ending fund balances.

Real Estate Excise Tax (REET Fund 305)

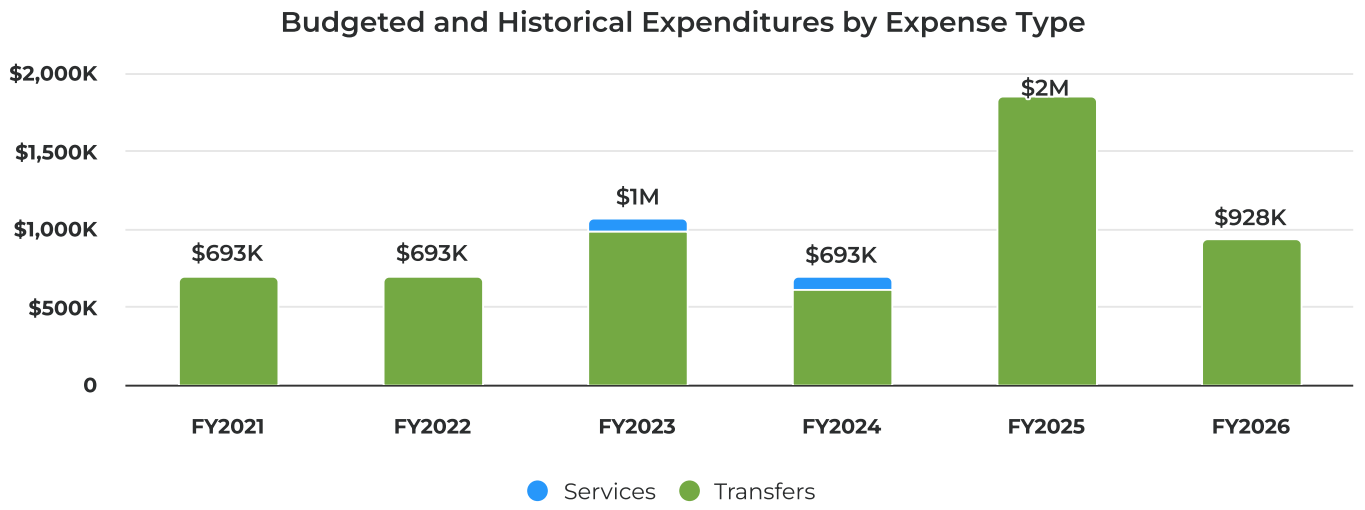

The fund is for proceeds from real estate excise taxes levied by the City and authorized by RCW. Uses are restricted to certain municipal capital projects. Fund resources are received from begin-ning fund balance, excise tax collections, and interest income. Uses are in the form of operat-ing transfers-out to capital project funds, as well as Streets and Park maintenance functions supported by the General Fund.

Municipal Capital Projects (Fund 310)

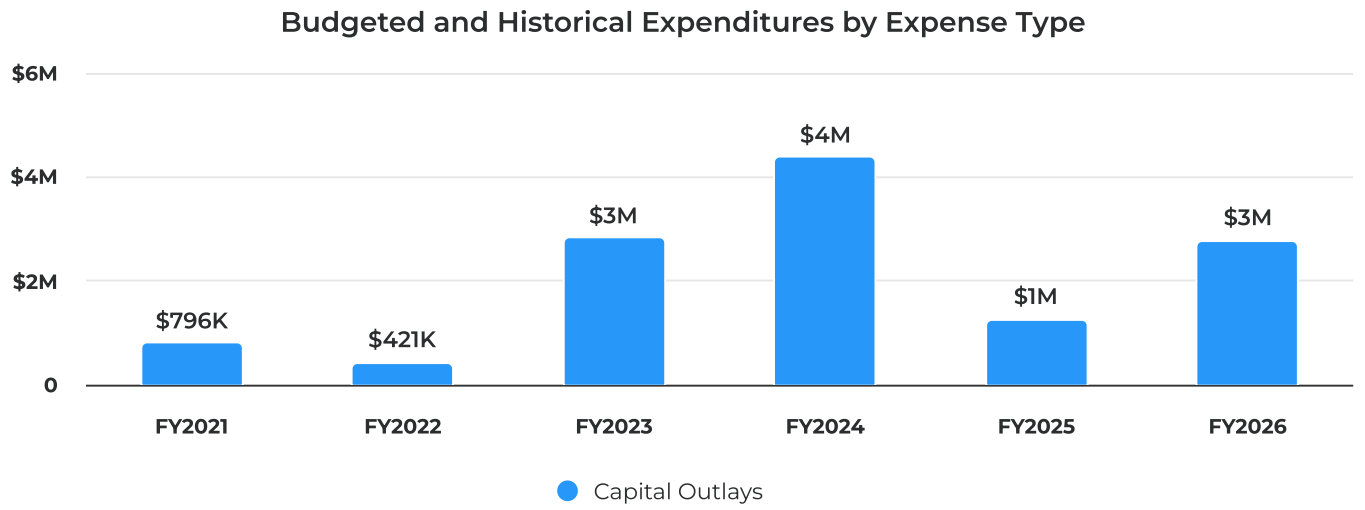

This fund is for the acquisition, construction, and improvements to major City infrastructure. Fund resources are received from beginning fund balance, grants, donations, interest income, and operating transfers in from other City special revenue, capital project and proprietary funds. This fund operates much like a joint checking account, with transfers coming in to pay for shared projects. It is not meant to have a large ending fund balance.

Water (Fund 401)

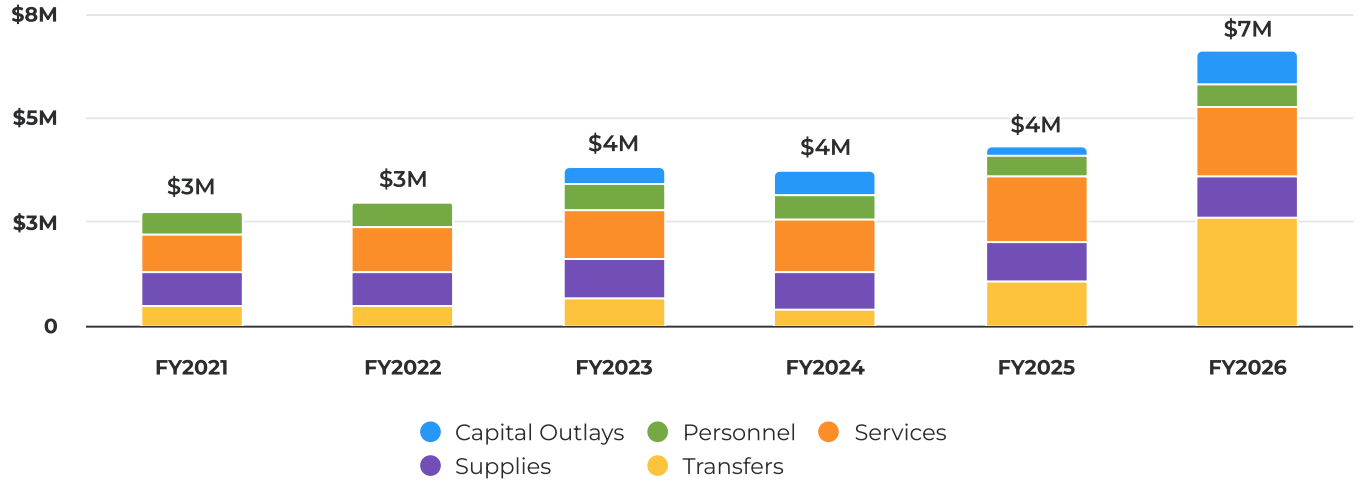

Snohomish's drinking water is purchased from the City of Everett and Snohomish County PUD. The water comes from the Spada Reservoir at the headwaters of the Sultan River, where it travels through a pipeline to the City of Everett Treatment facility at the Chaplain Reservoir. In order to provide that water to more than 10,000 customers, the City of Snohomish is responsible for all aspects of the maintenance and operation of the water distribution system through 60 miles of distribution mains and 14.7 miles of transmission main. This is in addition to 636 water valves and 541 fire hydrants, one 5-million-gallon reservoir and one 2.7-million-gallon reservoir for storage needed to meet peak demands and fire flow. The team is also responsible for reading and maintaining 3,520 water meters within the water distribution system.

2023 - 2024 Highlights

- Responded to numerous water breaks, including emergency repair of the Water Transmission Main.
- Completed inspection of the North Zone Reservoir.
- Installed a new security system at the South Zone Reservoir.
- Completed the lead service line identifications.

2025 - 2026 Priorities

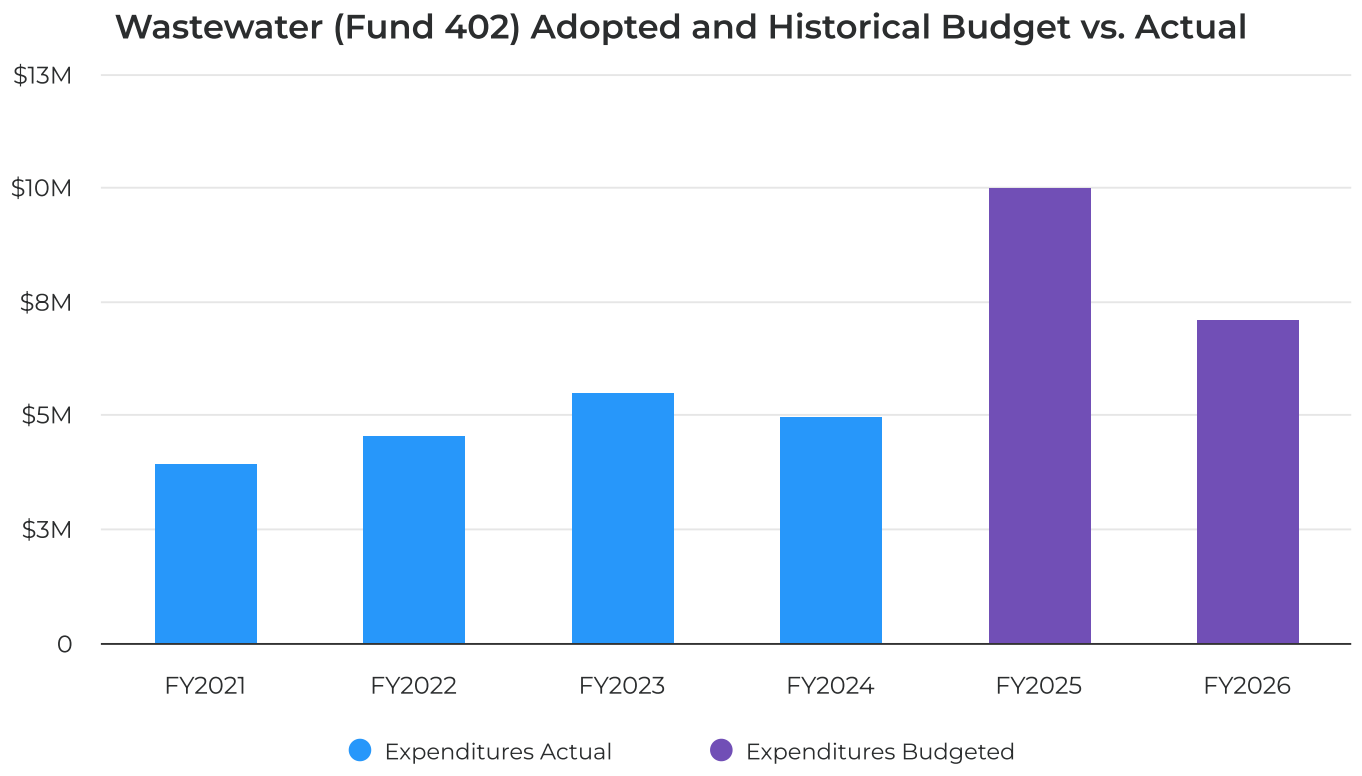

- Replacing air vacs on the transmission main.
- Completing needed maintenance of the North Zone Reservoir
- Supporting conversion of existing GIS information system that will no longer be supported to new tool.

Wastewater (Fund 402)

Wastewater that leaves a home or business enters the Snohomish sewer system and flows through city-owned and maintained pipes into the Snohomish Wastewater Treatment Plant. The Sewer Collections team is responsible for cleaning, repairs, handling main line backups, blockages and general sewer maintenance. Serving over 10,000 customers, the collection system includes 14 Lift Stations, 35 miles of sanitary sewer main ranging in diameter from 6 inches to 30 inches, 2.5 miles of force main and 850 manholes.

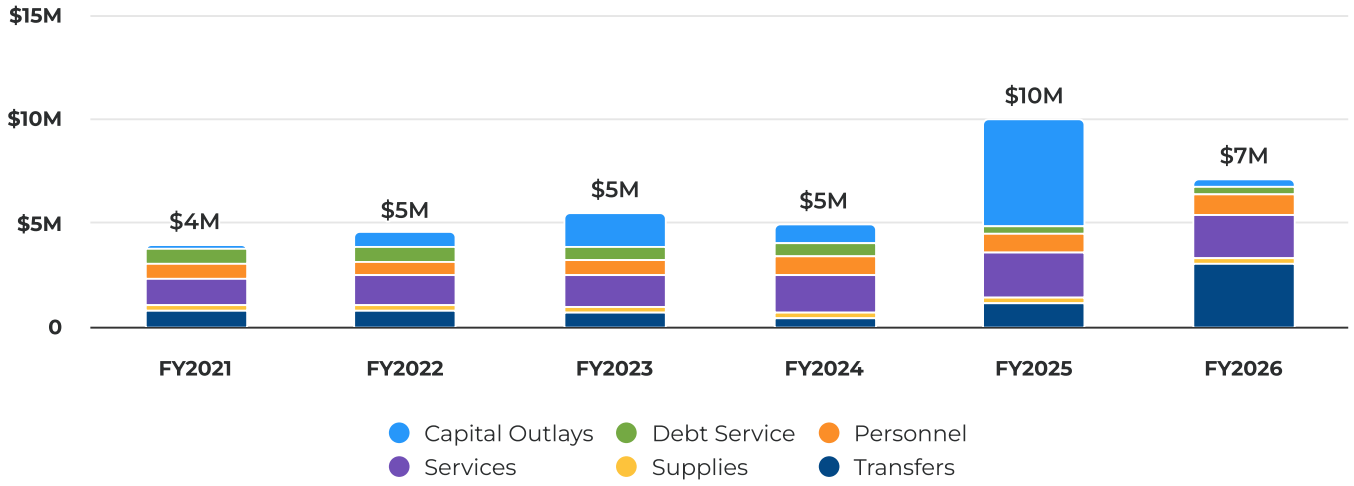

The Snohomish Wastewater Treatment Plant (WWTP) receives an average daily flow of 1.67 million gallons of water through a 30-inch gravity sewer line and 18-inch sewer force main before being screened and treated in a series of lagoons. The WWTP holds permits with the Washington State Department of Ecology, Puget Sound Clean Air Agency, and the Environmental Protection Agency. Each agency's reports require a variety of monthly, semi-annual, annual, and "as needed" reports. The plant also maintains an accredited laboratory where the chemical, physical, and bacteriological processes that treat the wastewater are analyzed in order to demonstrate compliance with its discharge permit.

2023 - 2024 Highlights

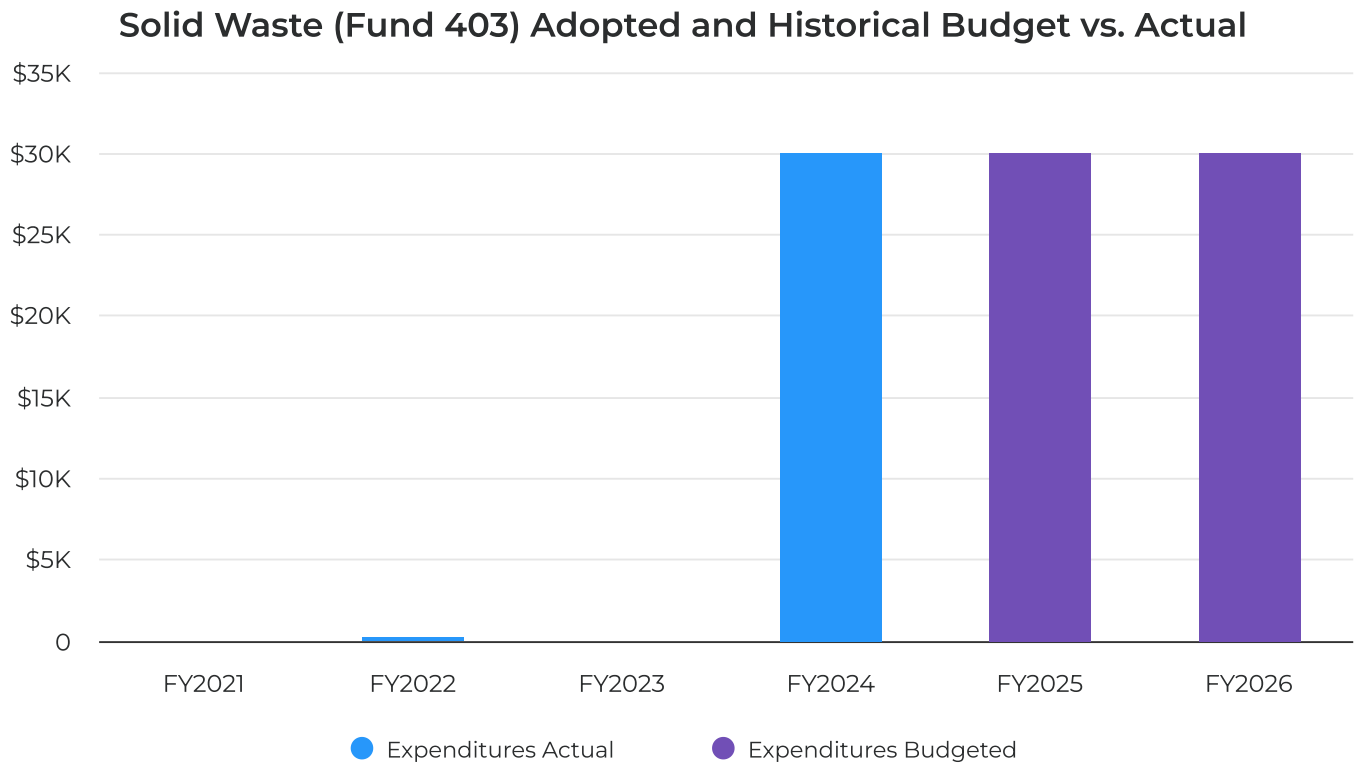

- Continued work needed to upgrade the Rainier Lift Station and force main.
- Completed Champagne Lift Station upgrade and flow meter installation.
- Replaced the Avenue D sewer main from 1st to 2nd Street.
- Began design of new "Fuzzy Filter" filtration system to replace existing Dynasand filters.
- Completed installation of the air gap system.
- Designed and replaced the treatment plant's main motor control systems.
- Enhanced security at the treatment plant facility and surrounding grounds.

2025 - 2026 Priorities

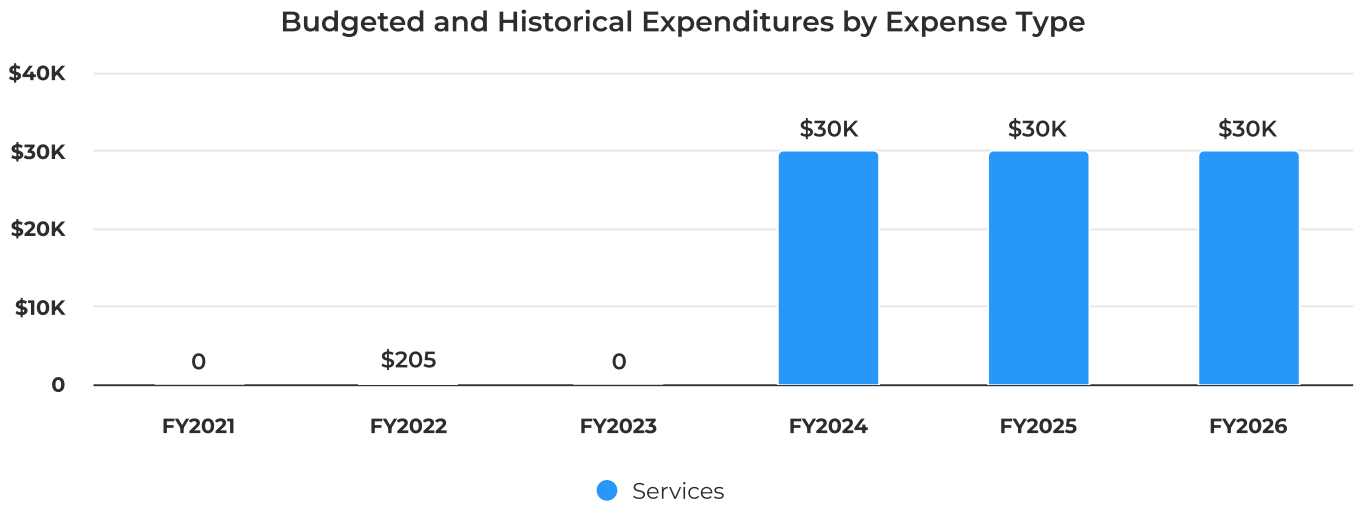

- Continued work needed to upgrade the Rainier Lift Station and force main.
- Completed Champagne Lift Station upgrade and flow meter installation.
- Replaced the Avenue D sewer main from 1st to 2nd Street.
- Began design of new "Fuzzy Filter" filtration system to replace existing Dynasand filters.
- Completed installation of the air gap system.
- Designed and replaced the treatment plant's main motor control systems.
- Enhanced security at the treatment plant facility and surrounding grounds.

Stormwater (Fund 404)

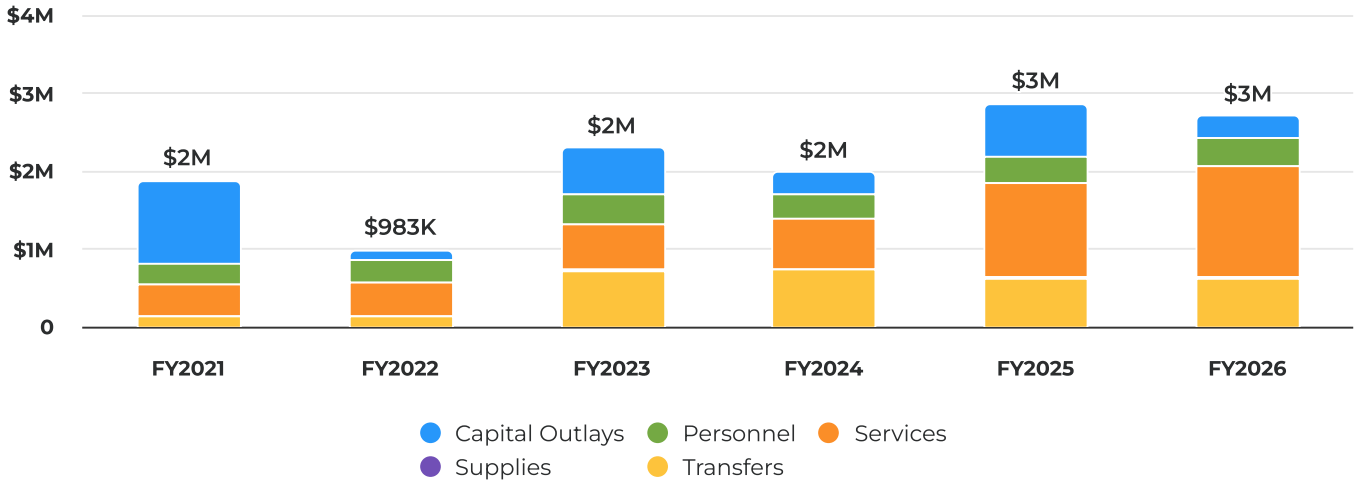

Crews are responsible for keeping the storm drainage system in working order, with 1,793 storm drains in Snohomish on a two-year inspection and cleaning cycle. They also maintain over 36 miles of storm pipe and 6.5 miles of ditch line, as well as inspecting and maintaining 22 flow control structures, 35 storm vaults, 18 public and private water quality facilities, and 4 fish screens that are City-owned. Stormwater crews assist with street sweeping that occurs on a regular basis to keep dirt and pollutants out of the storm drains. Additionally, the team manages and operates 1800 catch basins, approximately 30 water quality and flow control features, and operates two combined sewer overflow monitoring stations.

2023 - 2024 Highlights

- Ensured private stormwater inspections are completed according to new NPDES permit requirements.
- Created NPDES outreach and education programs.

2025 - 2026 Priorities

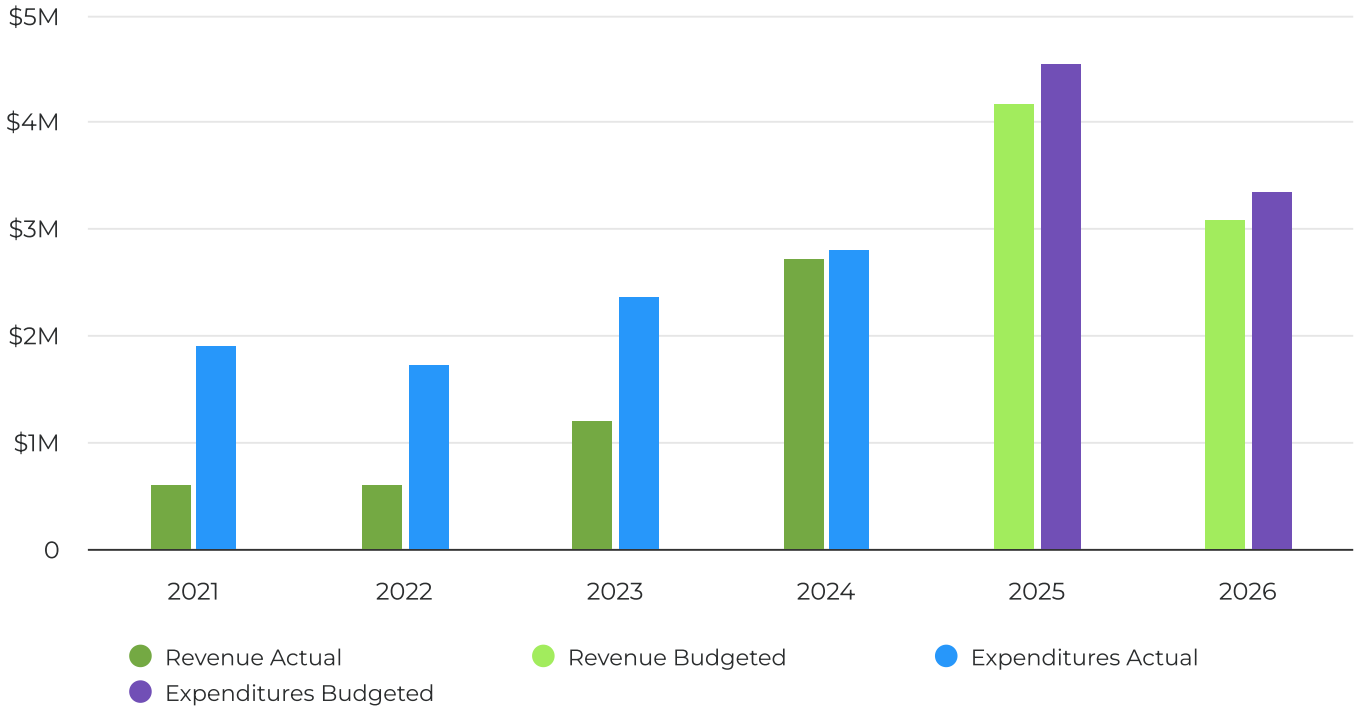

- Replace sweeper with updated model using Department of Ecology Grant funding.
- Conversion of system GIS information to new tool.
- Expand NPDES outreach and education programs.

Internal Service Funds

Internal service funds are governmental funds that support organizational wide operations. These funds are funded through capital allocations and are not meant to have significant ending fund balances.

Facilities (Fund 501)

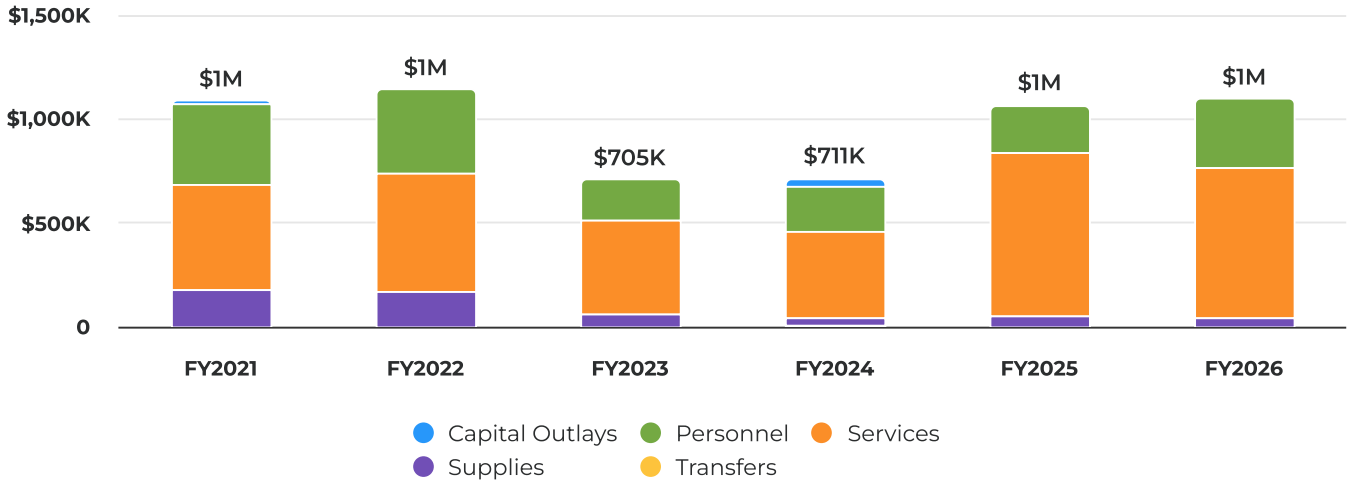

The City owns 15 buildings, totaling 72,250 square feet. Responsibilities include maintaining and operating HVAC units, doors, windows, lighting, plumbing, electrical systems, security systems, and any necessary carpentry work. Additionally, the City is responsible for the maintenance and operation of approximately 200 pieces of equipment and vehicles, which involves safety inspections, oil changes, repairs, and diagnostics. For larger maintenance and repair tasks that the City cannot handle in-house, staff schedule these with external shops.

2023 - 2024 Highlights

- Replace sweeper with updated model using Department of Ecology Grant funding.
- Conversion of system GIS information to new tool.
- Expand NPDES outreach and education programs.

2025 - 2026 Priorities

- Hire new Maintenance Assistant/Custodial Technician to replace janitorial contract.
- Replace and maintain HVAC equipment as needed and keep city facilities running.
- Planning and preparation for office moves and relocation.

Carnegie Building

The Snohomish Carnegie Building was constructed in 1909 and served as the City's public library for most of the 20th century. It is one of the 30 remaining historic Carnegie library buildings in the State. It was built with money donated by Andrew Carnegie with assistance and support from the Snohomish Atheneum Society. As part of this gift to our community, the City of Snohomish made a commitment to the maintenance and operation of the building and providing a place where residents could gather.

In 2023, the following were implemented at the Snohomish Carnegie, following input and discussion with City Council:

- Parking was opened to the public and a process implemented for reserving the parking lot with 72-hour notice for private or special events.
- Marketing and reservation information were corrected to reflect the availability of the upper level for reservations. Downstairs is no longer available and is a dedicated meeting space for the City Council, their boards and commissions, and City staff needs. The plaza and green are open for public and community use.
- Contract, Policy, Reservations – City staff developed documents to outline roles and responsibilities with the Facility Use Agreement, Alcohol Use Policy and Facility Checklist. Reservation sites were streamlined to direct organizers to the City's webpage and the Facility Use Request form. City staff also instituted a reservation process that includes basic initial information about the venue. The Carnegie webpage has been updated with new documents for review prior to confirmation, opportunity to view in person and further discuss the event and complete required paperwork.
- Fees – A new rate and fee structure were codified and implemented. This is a three-tiered rate structure that is more feasible for non-profit and community groups and events, with a focus on community and cultural opportunities, a recurring event rate, and a 10% discount for City of Snohomish residents.

2023-2024 Usage and Revenue

	2023 Events	2024 Events	2023 Revenue	2024 Revenue
Arts & Culture at the Carnegie	0	4	$ -	$ 1,130.00

Canceled, Declined, Denied	*34*	*62*		

2023-2024 Highlights

With a focus on leveraging the building for the community, we have been able to mitigate some of the impacts of special events such as parades and car shows along First Street by allowing impacted residents to utilize the Snohomish Carnegie for parking and access when there is a street closure. In addition, some footprints now utilize the building's grounds for their event, such as Pride and Kla Ha Ya Days, allowing the streets to open faster and reducing the impact on other businesses and residences in the Historic District.

In 2023, we hosted the first Holi Festival at the Snohomish Carnegie, drawing a crowd of more than 200 community members, and was so popular that we repeated the event in 2024. It was in the planning and executing of this event that City staff found that we are the most effective when we can partner with an organization that represents a specific community in hosting cultural events. In 2024, we partnered with the Pacifica Foundation Seattle to host a Ramadan Interfaith Iftar Dinner at the Carnegie, with more than 100 attendees.

The building was utilized by dozens of non-profit groups for 36 events, from a cheer banquet to Eagle Scout ceremony to prom for AIM High School. It is open one day a week for an Open House, hosted and managed by the Snohomish Carnegie Foundation. The Snohomish Carnegie has become the home to the annual City Tree Lighting with Santa's arrival and HDSA's Winterfest. It is where zombies gather for Fall into Snohomish to dance to "Thriller" before lurching through town to gather donations for the Food Bank. As the anchor for Pride, Kla Ha Ya Days, the Block Party, and Farmers Market, the Snohomish Carnegie is the heart of our spring and summer events.

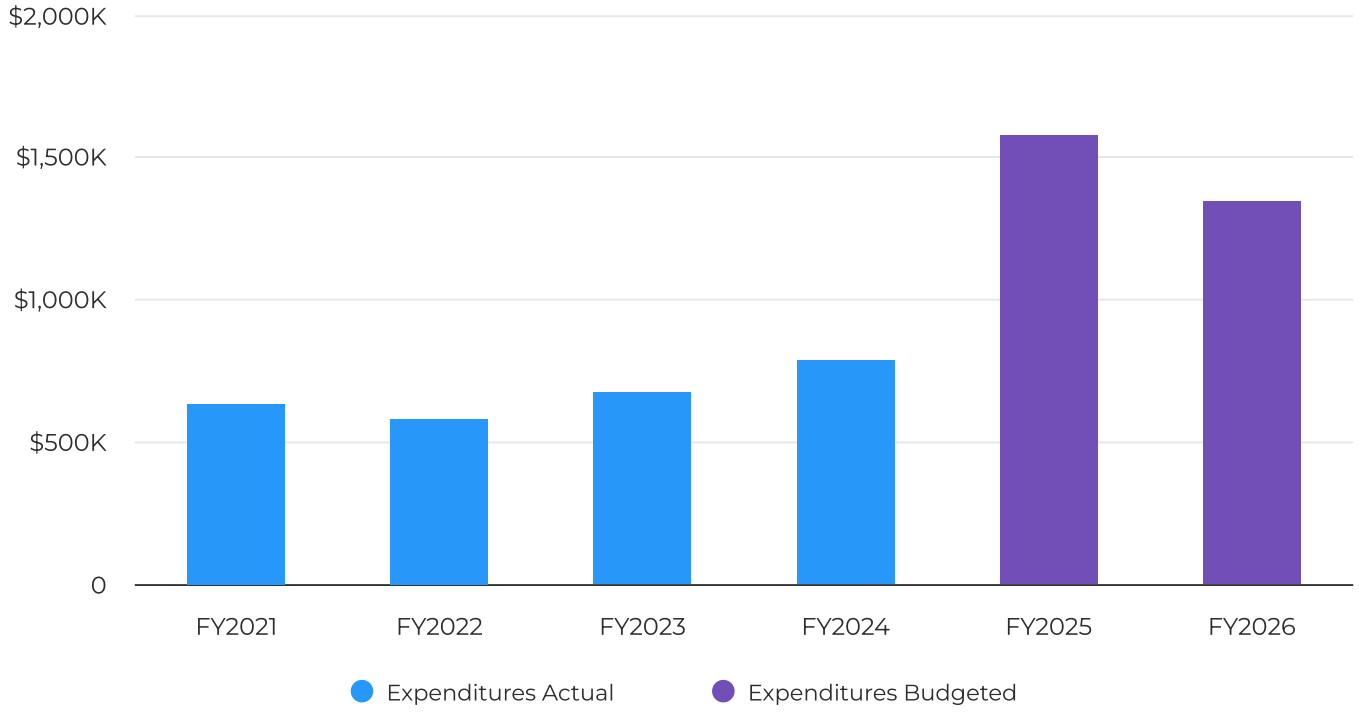

The Snohomish Carnegie is also key to conducting City business – it was utilized over 400 times for City Council meetings, boards and commissions, City staff and department meetings, and public workshops and townhall meetings.

Information Services (Fund 502)

The Information Services (IS) Division's focus is to develop, maintain, and support the City's data and phone networks, PCs, server systems, and software applications. They also provide efficient and reliable support to enable the City to deliver equitable and responsive services to the public, while managing the IS budget with a focus on controlling costs.

2023 - 2024 Highlights

- Expanded internal network IP address pool and replaced two legacy network servers.
- Grant funding approval for two cybersecurity related projects.
- Implemented a robust cloud-based phone solution to improve the city's efforts in collaboration and communication.
- Implemented Multi-Factor Authentication (MFA) for Microsoft-365.
- Implemented Microsoft Intune as the city's mobile device management system.
- Moved City's cellular service to a different plan with more features and at lower cost.
- Installed a more effective broadband service at Carnegie to improve collaboration and communications in hybrid public meetings.
- Implemented a trusted and verified connection for the City's remote VPN solution.
- Started deployment of a more effective new endpoint protection solution with 24x7 SOC monitoring.
- Key participant in the completion of the City's PCI compliance process.
- Recycled City's surplus electronic and computing equipment at no charge to the city.
- Developed training documentation and conducted training with city clerk on Carnegie audio/video equipment for hybrid meetings.

2025 - 2026 Priorities

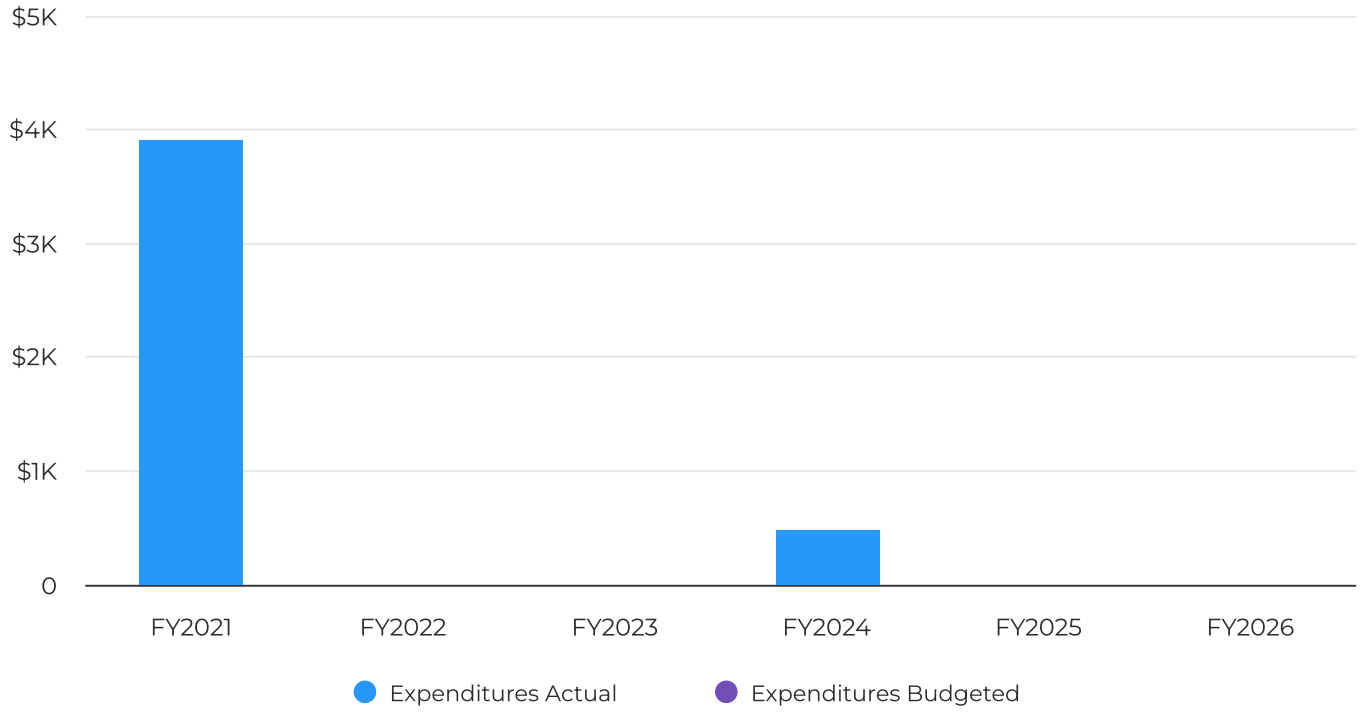

- Implement MFA for logging onto endpoint PCs, Servers, and privileged accounts.
- Complete deployment of the new endpoint protection solution with 24x7 SOC monitoring.
- Implement an endpoint management solution to track and deploy security updates for endpoint PCs and Servers as another important cybersecurity measure.
- Expansion of WIFI service for City Hall, Public Works, and Engineering.
- Participate in the development of the city's Information Technology strategic plan.
- PC replacement and upgrade to Windows-11 and new Adobe Acrobat application.
- Participate in the review and design of the IT components in the new Civic Campus.
- Consolidate voice services for city facilities with effective long-term solutions and cost savings.
- Contribute on the implementation of software solutions to solidify the city's records management objective.
- Review data backup requirements and solutions to improve the city's cybersecurity posture.

Self-Insurance / Unemployment (Fund 503)

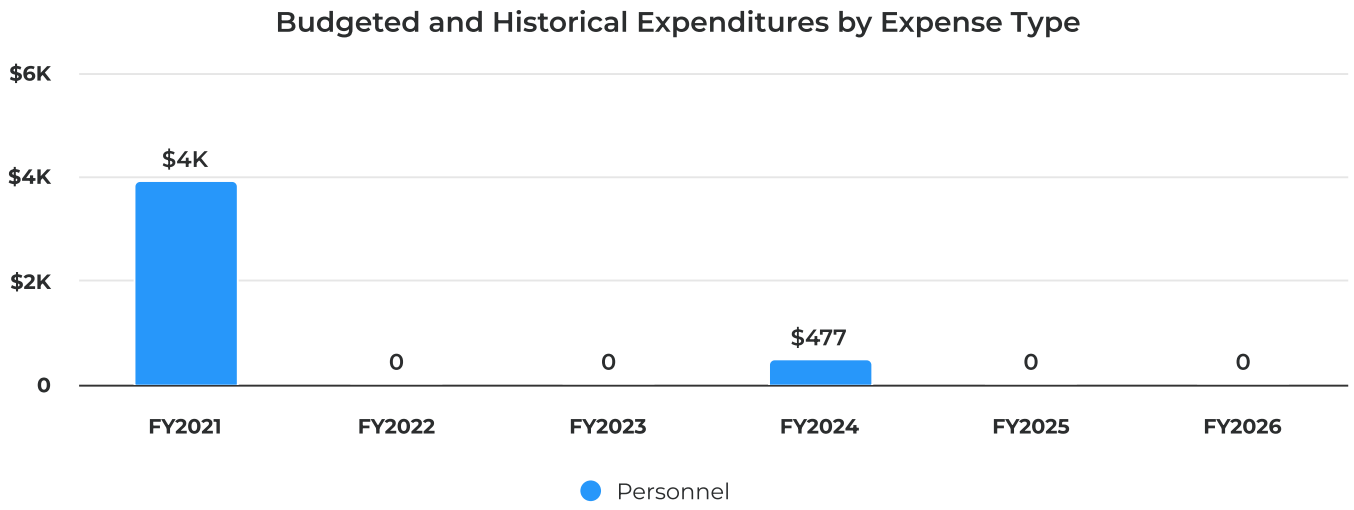

This is a self-insurance fund related to unemployment insurance. Fund sources come from operating funds as reimbursement.

Fleet Maintenance & Operations (Fund 506)

The City Fleet division maintains and owns approximately 200 pieces of equipment and vehicles, which involve safety inspections, oil changes, repairs, and diagnostics. For larger maintenance and repair tasks that the city cannot handle in-house, staff schedule these with external shops.

2023 - 2024 Highlights

- Purchased new Vactor truck for Water Team
- Replaced dump truck for Streets Team, 3 pickups for the Parks Team, and 1 truck for Streets Team.
- Keeping the fleet in good safe working order.
- Separating the Fleet and Facilities budgets to allow for better accountability.
- Working toward a more financially and environmentally sustainable fleet.

2025 - 2026 Priorities

- Replace out date equipment and keep existing equipment in safe and reliable working order.
- Planning for future electrification of City fleet.

2025 - 2029 Capital Improvement Plan

The Capital Improvement Program (CIP) is a five-year expenditure plan that provides the City with a financial strategy for major infrastructure improvements. It is informed through staff input based on maintenance and operation needs of existing infrastructure, new mandates or permit requirements, and broader master planning documents typically established over a 10- to 20-year timeframe.

Capital improvements can require multiple years to strategically plan, design, fund, and eventually construct or execute. The CIP is updated regularly to add new appropriations or projects, while continuing to evaluate priorities, new requirements, and new funding sources. Only the first two years of the CIP projects are included in the biennial budget. However, the City Council also adopts a rolling five-year CIP annually. This adopted CIP is frequently a requirement in grant applications in order to demonstrate that a project has been identified as a priority for the City. Projects can move up and down the CIP based on funding availability, priorities established by granting agencies, and funds that are successfully awarded to the City.

Below are two reports to view the 2025-2029 CIP. The first attachment provides all the identified capital project costs as they can be estimated in today's economic climate. The second attachment provides the funding sources for the capital projects, which may differ slightly from the first attachment as existing fund balances may be used to supplement funding sources.

2025 - 2026 Capital Improvement Plan

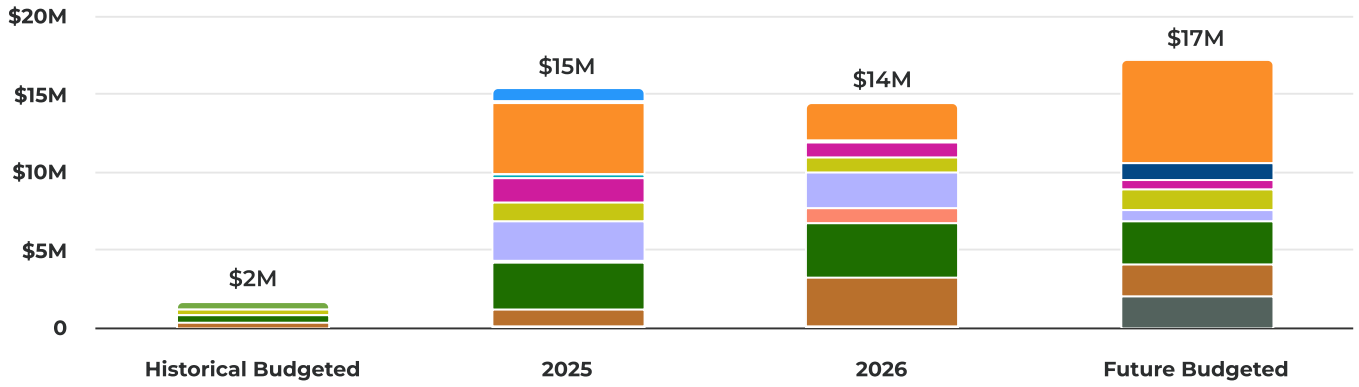

Capital improvements can require multiple years to strategically plan, design, fund, and eventually construct or execute. The CIP is updated annually to add new appropriations or projects, while continuing to evaluate priorities, new requirements, and new funding sources. The first two years of the CIP projects are included in the biennial budget. For 2025-2026, more than 30% of the City's total budget is allocated for utilities and transportation needs. This is the down payment toward at least $50M in identified capital projects needed for deferred maintenance and system upgrades over the next 5-6 years.

Boys and Girls Club Roof Repair

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Municipal Capital Projects
Type	Other
Project Number	FA 2024-01
Request Groups	Facilities, Engineering
Estimated Start Date	10/1/2024
Estimated Completion Date	03/31/2025

Project Location

Description

Boys and Girls Club Roof Repair includes roof replacement, gutters, cleaning, and other associated work. Project started in 2024 and budget for 2025-2026 is for payment of final retainage upon closeout.

Fischer /Morgantown parks equipment replacement

Overview

Request Owner	Tim Cross, Public Works Operations Manager
Department	Parks
Type	Capital Improvement
Project Number	PK 2025-03
Request Groups	Parks
Estimated Start Date	05/1/2025
Estimated Completion Date	09/4/2025

Project Location

Description

Park staff to purchase and install playground replacements as part of becoming certified playground installers. This will be a cost savings of approximately $20,000 in labor savings for Fischer Park and cost savings of $23,000 in labor for Morgantown Park. Depending on the cost of drainage and site improvements necessary to support the new equipment and available funding, the Morgantown Park may be deferred to 2027.

2025 Stormwater Comprehensive Plan

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Stormwater
Type	Capital Improvement
Project Number	SW 2025-02
Request Groups	Engineering
Estimated Start Date	01/2/2025
Estimated Completion Date	06/30/2026

Project Location

Description

2025 Stormwater Comprehensive Plan is an update to the 2013 Stormwater Comprehensive Plan. This will include a review and update to the storm drainage and combined sewer overflow basins, hydrologic/hydraulic analysis, NPDES Phase II permit requirements, capital projects, operations and maintenance program, stormwater management fee, public outreach, and other associated work.

Details

13th Street/Park Avenue Intersection Improvement

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Streets Capital Projects
Type	Capital Improvement
Project Number	SC 2025-10
Request Groups	Engineering, Streets
Estimated Start Date	01/2/2025
Estimated Completion Date	06/30/2026

Project Location

Description

13th Street/Park Avenue Intersection Improvement Project includes storm, curb extensions, curb ramps, rectangular rapid flashing beacons, pavement markings, and other associated work. **Awarded Transportation Improvement Board Urban Active Transportation Program Grant in 2023. Budget includes City match which is 15% of the project cost.**

Avenue E (2nd Street - 5th Street) Improvement

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Streets Capital Projects
Type	Capital Improvement
Project Number	SC 2025-03
Request Groups	Engineering, Streets
Estimated Start Date	01/2/2025
Estimated Completion Date	12/29/2028

Project Location

Description

Avenue E (2nd Street - 5th Street) Improvement Project includes sewer, water, storm, curb ramps, asphalt grinding and paving, pavement markings, traffic control, temporary erosion and sediment controls, and other associated work. **Submitted for Army Corps of Engineers Section 219 funding in the 2025 Congressional Budget to begin the feasibility study. If awarded, it is anticipated that the City would be successful in securing dollars in a 2026 request to begin construction of the improvements. Budget includes City match which is 25% of the project cost. Award date is dependent on Congressional funding. If the City is not awarded the funding, this project will be delayed until other funding is secured. Submitted for Army Corps of Engineers Section 219 funding. Budget includes City match which is 25% of the project cost. Award date is dependent on Congressional funding.**

Avenue F (2nd Street - 5th Street) Improvement

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Streets Capital Projects
Type	Capital Improvement
Project Number	SC 2025-04
Request Groups	Engineering, Streets
Estimated Start Date	01/2/2025
Estimated Completion Date	12/29/2028

Project Location

Description

Avenue F (2nd Street - 5th Street) Improvement Project includes sewer, water, curb ramps, asphalt grinding and paving, pavement markings, traffic control, temporary erosion and sediment controls, and other associated work. **Submitted for Army Corps of Engineers Section 219 funding in the 2025 Congressional Budget to begin the feasibility study. If awarded, it is anticipated that the City would be successful in securing dollars in a 2026 request to begin construction of the improvements. Budget includes City match which is 25% of the project cost. Award date is dependent on Congressional funding. If the City is not awarded the funding, this project will be delayed until other funding is secured.**

Bickford Avenue Sidewalk Gaps

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Streets Capital Projects
Type	Capital Improvement
Project Number	SC 2025-01
Request Groups	Engineering, Streets
Estimated Start Date	01/2/2025
Estimated Completion Date	12/31/2026

Project Location

Description

Bickford Avenue Sidewalk Gaps Project includes sidewalk, driveways, curb and gutter, and drainage in segments of Bickford Avenue from Weaver Road to the Snohomish Station's south access. This project will construct sidewalk within the gaps along the east and west sides of Bickford Avenue. This is associated with the Non-Motorized Connectivity Improvement Program. **Submitted for Transportation Improvement Board Urban Active Transportation Program funding. Budget includes City match which is 15% of the project cost. Award date is in December 2024. If the City is not awarded the funding, this project will be delayed until other funding is secured.**

Civic Campus Utility Project

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Streets Capital Projects
Type	Capital Improvement
Project Number	SC 2024-06
Request Groups	Engineering, Enterprise Funds, Streets
Estimated Start Date	01/2/2024
Estimated Completion Date	06/30/2028

Project Location

Description

In addition to much-needed facility improvements for the City, Fire District, and Snohomish Police Department, re-development of these parcels allows the City to revitalize parts of the Pilchuck District. This budget package is for design, permitting, and construction of the infrastructure package, as well as design of the City's buildings. This work will fund critical infrastructure improvements along Pine Ave, 3rd and 4th for streets, sidewalks, water, stormwater, power, and fiber. These improvements will help existing residents, businesses, and visitors, as well as defraying some development expenses for potential development in the area. The City anticipates receiving a $3M HUD grant once the 2025 Congressional budget is finalized.

Rectangular Rapid Flashing Beacon (RRFB) Installations

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Streets Capital Projects
Type	Capital Improvement
Project Number	SC 2025-06
Request Groups	Engineering, Parks
Estimated Start Date	01/2/2025
Estimated Completion Date	12/31/2026

Project Location

Description

Rectangular Rapid Flashing Beacon (RRFB) Installation Project includes installation of RRFBs and pavement markings, at Avenue D/Fourth Street (north and south legs); Second Street/Avenue C (east and west legs); Sixth Street/Pine Avenue (north leg); and the Interurban Trail crossing at Avenue A. **Submitted for Transportation Improvement Board Urban Active Transportation Program funding. Budget includes City match which is 15% of the project cost. Award date is in December 2024. If grant funding is not awarded, this work will be scaled back and/or delayed.**

Fleet - Storm EP 255 to replace EP 99 Sweeper

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Stormwater
Type	Capital Equipment
Project Number	FL 2025-01
Request Groups	Enterprise Funds, Fleet

Description

Replace the existing street sweeper with a new and more efficient model. The existing sweeper has reached the end of service life as defined by Fleet Management Policy (DRAFT) New model has a built-in water recycling unit for water conservation that makes the system more environmentally sustainable. Funding is $130,000 from DOE stormwater grant, and must be spent by April 2025.

Fleet - Streets EP 249/250 to replace EP 210/211 Sanders

Overview

Request Owner	Tim Cross, Public Works Operations Manager
Department	Streets
Type	Capital Equipment
Project Number	FL 2024-01
Request Groups	Fleet

Description

Replace two Sanders EP 210 and EP 211 that are currently at end of life. The current sanders are approximately 20 years old and the de-icer that we use is highly corrosive to this equipment.

Fleet - Streets EP 260 to replace EP 224 Dump Truck

Overview

Request Owner	Tim Cross, Public Works Operations Manager
Department	Streets
Type	Capital Equipment
Project Number	FL 2025-06
Request Groups	Fleet

Description

Replace EP224 - 2002 International Dump Truck (International Truck) with new. This vehicle has reached end of useful life due to age of the tuck parts are no longer available. In order to maintain and operate this vehicle we can no longer maintain the WSDOT safety inspection approvals needed to keep in service. Plan to order in 2025, expected lead time to delay delivery and payment until 2026.

Biosolids Removal Program - Capital Reserve Fund (NEW)

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Wastewater
Type	Capital Improvement
Project Number	WW PR-02
Request Groups	Enterprise Funds
Estimated Start Date	03/5/2029
Estimated Completion Date	10/15/2030

Project Location

Description

The biosolids in the lagoons must be dredged approximately every 15 years and is due to be completed again in 2030. Project cost estimate is $2,000,000. The City is beginning to set aside funds annually for the project, with design to start in 2029. The actual costs from the 2030 project will be used to establish an ongoing renewal fund for the program.

Cemetery Creek Trunkline Segment 5 Replacement

Overview

Request Owner	Nova Heaton, Public Works Director
Department	Engineering
Type	Capital Improvement
Project Number	WW 2025-01
Request Groups	Engineering
Estimated Start Date	01/6/2025
Estimated Completion Date	12/31/2035

Project Location

Description

Cemetery Creek Trunkline Segment 5 Replacement Project includes replacement of existing 12-inch concrete pipe with 18-inch PVC C-900 between 16th Street and Weaver Road.

Deionized Water Purification System Project

Overview

Request Owner	Tim Jackson, Utilities Operations Manager
Department	Wastewater
Type	Capital Improvement
Project Number	WW 2025-02
Request Groups	Facilities, Enterprise Funds
Estimated Start Date	12/1/2025
Estimated Completion Date	12/31/2026

Project Location

Description

Installation of a new Deionized Water System to be installed at the Wastewater Treatment Plant due to irregularities in purchased D.I. water from local stores causing hit-and-miss passing of quality control tests at the plant. This will allow staff to make our own D.I. water. To be installed during the 2025-26 budget period.

WWTP Dike Tree Removal Project

Overview

Request Owner	Tim Jackson, Utilities Operations Manager
Department	Wastewater
Type	Capital Improvement
Project Number	WW PR-03
Request Groups	Enterprise Funds
Estimated Start Date	08/1/2025
Estimated Completion Date	09/1/2025

Project Location

Description

WWTP dike management plan. Tree growth has to be monitored annually and any tree that exceeds a height taller than a 45-degree angle from the base of the fence must be removed or topped. There are 15 trees that need removed at this time.

Glossary

Abatement: A reduction or elimination of a real or personal property tax, motor vehicle excise, a fee, charge, or special assessment imposed by a governmental unit. Granted only on application of the person seeking the abatement and only by the committing governmental unit.

Accounting System: The total structure of records and procedures that identify record, classify, and report information on the financial position and operations of a governmental unit or any of its funds, account groups, and organizational components.

Accrued Interest: The amount of interest that has accumulated on the debt since the date of the last interest payment, and on the sale of a bond, the amount accrued up to but not including the date of delivery (settlement date). (See Interest)

ACFR: Annual Comprehensive Financial Report - A detailed report of an organization's financial activities and performance over the fiscal year.

Amortization: The gradual repayment of an obligation over time and in accordance with a predetermined payment schedule.

Appropriation: A legal authorization from the community's legislative body to expend money and incur obligations for specific public purposes. An appropriation is usually limited in amount and as to the time period within which it may be expended.

Arbitrage: As applied to municipal debt, the investment of tax-exempt bonds or note proceeds in higher yielding, taxable securities. Section 103 of the Internal Revenue Service (IRS) Code restricts this practice and requires (beyond certain limits) that earnings be rebated (paid) to the IRS.

Assessed Valuation: A value assigned to real estate or other property by a government as the basis for levying taxes.

Assets: Items owned by an organization that have economic value, such as cash, investments, property, and equipment.

Audit: An examination of a community's financial systems, procedures, and data by a certified public accountant (independent auditor), and a report on the fairness of financial statements and on local compliance with statutes and regulations. The audit serves as a valuable management tool in evaluating the fiscal performance of a community.

Audit Report: Prepared by an independent auditor, an audit report includes: (a) a statement of the scope of the audit; (b) explanatory comments as to application of auditing procedures; (c) findings and opinions. It is almost always accompanied by a management letter which contains supplementary comments and recommendations.

Available Funds: Balances in the various fund types that represent non-recurring revenue sources. As a matter of sound practice, they are frequently appropriated to meet unforeseen expenses, for capital expenditures or other one-time costs.

Balance Sheet: A statement that discloses the assets, liabilities, reserves and equities of a fund or governmental unit at a specified date.

Betterments (Special Assessments): Whenever a specific area of a community receives benefit from a public improvement (e.g., water, sewer, sidewalk, etc.), special property taxes may be assessed to reimburse the governmental entity for all or part of the costs it incurred. Each parcel receiving benefit from the improvement is assessed for its proportionate share of the cost of such improvements. The proportionate share may be paid in full or the property owner may request that the assessors apportion the betterment over 20 years. Over the life of the betterment, one year's

apportionment along with one year's committed interest computed from October 1 to October 1 is added to the tax bill until the betterment has been paid.

Bond: A means to raise money through the issuance of debt. A bond issuer/borrower promises in writing to repay a specified sum of money, alternately referred to as face value, par value or bond principal, to the buyer of the bond on a specified future date (maturity date), together with periodic interest at a specified rate. The term of a bond is always greater than one year. (See Note)

Bond and Interest Record: (Bond Register) – The permanent and complete record maintained by a treasurer for each bond issue. It shows the amount of interest and principal coming due each date and all other pertinent information concerning the bond issue.

Bonds Authorized and Unissued: Balance of a bond authorization not yet sold. Upon completion or abandonment of a project, any remaining balance of authorized and unissued bonds may not be used for other purposes, but must be rescinded by the community's legislative body to be removed from community's books.

Bond Issue: Generally, the sale of a certain number of bonds at one time by a governmental unit.

Bond Rating (Municipal): A credit rating assigned to a municipality to help investors assess the future ability, legal obligation, and willingness of the municipality (bond issuer) to make timely debt service payments. Stated otherwise, a rating helps prospective investors determine the level of risk associated with a given fixed-income investment. Rating agencies, such as Moody's and Standard and Poors, use rating systems, which designate a letter or a combination of letters and numerals where AAA is the highest rating and C1 is a very low rating.

Budget: A plan for allocating resources to support particular services, purposes and functions over a specified period of time. (See Performance Budget, Program Budget)

Capital Assets: All real and tangible property used in the operation of government, which is not easily converted into cash, and has an initial useful live extending beyond a single financial reporting period. Capital assets include land and land improvements; infrastructure such as roads, bridges, water and sewer lines; easements; buildings and building improvements; vehicles, machinery and equipment. Communities typically define capital assets in terms of a minimum useful life and a minimum initial cost. (See Fixed Assets)

Capital Budget: An appropriation or spending plan that uses borrowing or direct outlay for capital or fixed asset improvements. Among other information, a capital budget should identify the method of financing each recommended expenditure, i.e., tax levy or rates, and identify those items that were not recommended. (See Capital Assets, Fixed Assets)

Cash: Currency, coin, checks, postal and express money orders and bankers' drafts on hand or on deposit with an official or agent designated as custodian of cash and bank deposits.

Cash Flow: The movement of money into or out of an organization, showing its liquidity and ability to meet financial obligations.

Cash Management: The process of monitoring the ebb and flow of money in an out of municipal accounts to ensure cash availability to pay bills and to facilitate decisions on the need for short- term borrowing and investment of idle cash.

Certificate of Deposit (CD): A bank deposit evidenced by a negotiable or non-negotiable instrument, which provides on its face that the amount of such deposit plus a specified interest payable to a bearer or to any specified person on a certain specified date, at the expiration of a certain specified time, or upon notice in writing.

Classification of Real Property: Assessors are required to classify all real property according to use into one of four classes: residential, open space, commercial, and industrial. Having classified its real properties, local officials are permitted to

determine locally, within limitations established by statute and the Commissioner of Revenue, what percentage of the tax burden is to be borne by each class of real property and by personal property owners.

Collective Bargaining: The process of negotiating workers' wages, hours, benefits, working conditions, etc., between an employer and some or all of its employees, who are represented by a recognized labor union, regarding wages, hours and working conditions.

Compliance: Adherence to relevant laws, regulations, and internal policies governing financial reporting and operations.

Consumer Price Index: The statistical measure of changes, if any, in the overall price level of consumer goods and services. The index is often called the "cost-of-living index."

Cost-Benefit Analysis: A decision-making tool that allows a comparison of options based on the level of benefit derived and the cost to achieve the benefit from different alternatives.

Debt Burden: The amount of debt carried by an issuer usually expressed as a measure of value (i.e., debt as a percentage of assessed value, debt per capita, etc.). Sometimes debt burden refers to debt service costs as a percentage of the total annual budget.

Debt Service: The repayment cost, usually stated in annual terms and based on an amortization schedule, of the principal and interest on any particular bond issue.

Encumbrance: A reservation of funds to cover obligations arising from purchase orders, contracts, or salary commitments that are chargeable to, but not yet paid from, a specific appropriation account.

Enterprise Funds: An enterprise fund is a separate accounting and financial reporting mechanism for municipal services for which a fee is charged in exchange for goods or services. It allows a community to demonstrate to the public the portion of total costs of a service that is recovered through user charges and the portion that is subsidized by the tax levy, if any. With an enterprise fund, all costs of service delivery — direct, indirect, and capital costs — are identified. This allows the community to recover total service costs through user fees if it chooses. Enterprise accounting also enables communities to reserve the "surplus" or net assets unrestricted generated by the operation of the enterprise rather than closing it out to the general fund at year-end. Services that may be treated as enterprises include, but are not limited to, water, sewer, hospital, and airport services.

Equalized Valuations (EQVs): The determination of the full and fair cash value of all property in the community that is subject to local taxation.

Equity: The residual interest in the assets of an organization after deducting liabilities, representing the owners' stake in the business.

Estimated Receipts: A term that typically refers to anticipated local revenues often based on the previous year's receipts and represent funding sources necessary to support a community's annual budget. (See Local Receipts)

Exemptions: A discharge, established by statute, from the obligation to pay all or a portion of a property tax. The exemption is available to particular categories of property or persons upon the timely submission and approval of an application to the assessors. Properties exempt from taxation include hospitals, schools, houses of worship, and cultural institutions. Persons who may qualify for exemptions include disabled veterans, blind individuals, surviving spouses, and seniors.

Expenditure: An outlay of money made by municipalities to provide the programs and services within their approved budget.

Fiduciary Funds: Repository of money held by a municipality in a trustee capacity or as an agent for individuals, private organizations, other governmental units, and other funds. These include pension (and other employee benefit) trust funds, investment trust funds, private- purpose trust funds, and agency funds.

Financial Statements: Reports summarizing an organization's financial activities and position, including the balance sheet, income statement, and cash flow statement.

Fiscal Year: The 12-month period for which an organization plans the use of its funds, typically not the same as the calendar year.

Fixed Assets: Long-lived, assets such as buildings, equipment and land obtained or controlled as a result of past transactions or circumstances.

Fixed Costs: Costs that are legally or contractually mandated such as retirement, FICA/Social Security, insurance, debt service costs or interest on loans.

Float: The difference between the bank balance for a local government's account and its book balance at the end of the day. The primary factor creating float is clearing time on checks and deposits. Delays in receiving deposit and withdrawal information also influence float.

Full Faith and Credit: A pledge of the general taxing powers for the payment of governmental obligations. Bonds carrying such pledges are usually referred to as general obligation or full faith and credit bonds.

Fund: An accounting entity with a self-balancing set of accounts that are segregated for the purpose of carrying on identified activities or attaining certain objectives in accordance with specific regulations, restrictions, or limitations.

Fund Accounting: Organizing financial records into multiple, segregated locations for money. A fund is a distinct entity within the municipal government in which financial resources and activity (assets, liabilities, fund balances, revenues, and expenditures) are accounted for independently in accordance with specific regulations, restrictions or limitations. Examples of funds include the general fund and enterprise funds. Communities whose accounting records are organized according to the Uniform Municipal Accounting System (UMAS) use multiple funds.

GAAP: Generally Accepted Accounting Principles - Standard accounting principles, standards, and procedures that companies use to compile their financial statements.

GASB 34: A major pronouncement of the Governmental Accounting Standards Board that establishes new criteria on the form and content of governmental financial statements. GASB 34 requires a report on overall financial health, not just on individual funds. It requires more complete information on the cost of delivering value estimates on public infrastructure assets, such as bridges, road, sewers, etc. It also requires the presentation of a narrative statement the government's financial performance, trends and prospects for the future.

GASB 45: This is another Governmental Accounting Standards Board major pronouncement that each public entity account for and report other postemployment benefits in its accounting statements. Through actuarial analysis, municipalities must identify the true costs of the OPEB earned by employees over their estimated years of actual service.

General Fund: The fund used to account for most financial resources and activities governed by the normal appropriation process.

General Obligation Bonds: Bonds issued by a municipality for purposes allowed by statute that are backed by the full faith and credit of its taxing authority.

Governing Body: A board, committee, commission, or other executive or policymaking body of a municipality or school district.

Indirect Cost: Costs of a service not reflected in the operating budget of the entity providing the service. An example of an indirect cost of providing water service would be the value of time spent by non-water department employees processing water bills. A determination of these costs is necessary to analyze the total cost of service delivery. The matter of indirect costs arises most often in the context of enterprise funds.

Internal Controls: Policies and procedures implemented by an organization to ensure the reliability of financial reporting and compliance with laws and regulations, aiming to prevent fraud and errors.

Interest: Compensation paid or to be paid for the use of money, including amounts payable at periodic intervals or discounted at the time a loan is made. In the case of municipal bonds, interest payments accrue on a day-to-day basis, but are paid every six months.

Interest Rate: The interest payable, expressed as a percentage of the principal available for use during a specified period of time. It is always expressed in annual terms.

Investments: Securities and real estate held for the production of income in the form of interest, dividends, rentals or lease payments. The term does not include fixed assets used in governmental operations.

Liabilities: Debts or obligations owed by an organization, including loans, accounts payable, and accrued expenses.

Line Item Budget: A budget that separates spending into categories, or greater detail, such as supplies, equipment, maintenance, or salaries, as opposed to a program budget.

Local Aid: Revenue allocated by the state or counties to municipalities and school districts.

Maturity Date: The date that the principal of a bond becomes due and payable in full.

Municipal(s): (As used in the bond trade) "Municipal" refers to any state or subordinate governmental unit. "Municipals" (i.e., municipal bonds) include not only the bonds of all political subdivisions, such as cities, towns, school districts, special districts, counties but also bonds of the state and agencies of the state.

Net Income: The difference between an organization's revenues and expenses, representing its profit or loss for a specific period.

Note: A short-term loan, typically with a maturity date of a year or less.

Objects of Expenditures: A classification of expenditures that is used for coding any department disbursement, such as “personal services,” “expenses,” or “capital outlay.”

Official Statement: A document prepared for potential investors that contains information about a prospective bond or note issue and the issuer. The official statement is typically published with the notice of sale. It is sometimes called an offering circular or prospectus.

Operating Budget: A plan of proposed expenditures for personnel, supplies, and other expenses for the coming fiscal year.

Overlapping Debt: A community's proportionate share of the debt incurred by an overlapping government entity, such as a regional school district, regional transit authority, etc.

Performance Budget: A budget that stresses output both in terms of economy and efficiency.

Principal: The face amount of a bond, exclusive of accrued interest.

Program: A combination of activities to accomplish an end.

Program Budget: A budget that relates expenditures to the programs they fund. The emphasis of a program budget is on output.

Proprietary Funds: Funds used to record the financial transactions of governmental entities when they engage in activities that are intended to recover the cost of providing goods or services to the general public on a user-fee basis.

Purchased Services: The cost of services that are provided by a vendor.

Refunding of Debt: Transaction where one bond issue is redeemed and replaced by a new bond issue under conditions generally more favorable to the issuer.

Reserve Fund: An amount set aside annually within the budget of a town to provide a funding source for extraordinary or unforeseen expenditures.

Revaluation: The assessors of each community are responsible for developing a reasonable and realistic program to achieve the fair cash valuation of property in accordance with constitutional and statutory requirements. The nature and extent of that program will depend on the assessors' analysis and consideration of many factors, including, but not limited to, the status of the existing valuation system, the results of an in-depth sales ratio study, and the accuracy of existing property record information.

Revenues: Inflows of resources or other enhancements of assets of an organization, usually from sales of goods or services.

Revenue Anticipation Note (RAN): A short-term loan issued to be paid off by revenues, such as tax collections and state aid. RANs are full faith and credit obligations.

Revenue Bond: A bond payable from and secured solely by specific revenues and thereby not a full faith and credit obligation.

Revolving Fund: Allows a community to raise revenues from a specific service and use those revenues without appropriation to support the service.

Sale of Real Estate Fund: A fund established to account for the proceeds of the sale of municipal real estate other than proceeds acquired through tax title foreclosure.

Stabilization Fund: A fund designed to accumulate amounts for capital and other future spending purposes, although it may be appropriated for any lawful purpose.

Surplus Revenue: The amount by which cash, accounts receivable, and other assets exceed liabilities and reserves.

Tax Rate: The amount of property tax stated in terms of a unit of the municipal tax base; for example, $14.80 per $1,000 of assessed valuation of taxable real and personal property.

Tax Title Foreclosure: The procedure initiated by a municipality to obtain legal title to real property already in tax title and on which property taxes are overdue.

Trust Fund: In general, a fund for money donated or transferred to a municipality with specific instructions on its use. As custodian of trust funds, the treasurer invests and expends such funds as stipulated by trust agreements, as directed by the commissioners of trust funds or by the community's legislative body. Both principal and interest may be used if the trust is established as an expendable trust. For nonexpendable trust funds, only interest (not principal) may be expended as directed.

Uncollected Funds: Recently deposited checks included in an account's balance but drawn on other banks and not yet credited by the Federal Reserve Bank or local clearinghouse to the bank cashing the checks. (These funds may not be

loaned or used as part of the bank's reserves and they are not available for disbursement.)

Undesignated Fund Balance: Monies in the various government funds as of the end of the fiscal year that are neither encumbered nor reserved, and are therefore available for expenditure once certified as part of free cash.

Unreserved Fund Balance (Surplus Revenue Account): The amount by which cash, accounts receivable, and other assets exceed liabilities and restricted reserves. It is akin to a "stockholders' equity" account on a corporate balance sheet. It is not, however, available for appropriation in full because a portion of the assets listed as "accounts receivable" may be taxes receivable and uncollected. (See Free Cash)

Valuation (100 Percent): The legal requirement that a community's assessed value on property must reflect its market, or full and fair cash value.

Cost Allocation Plan Summary

The Cost Allocation Plan (CAP) is a method used to determine and assign the cost of indirect services to the internal government users of those services or funds. For the 2025-2026 budget, there are six different cost allocations with the City of Snohomish:

- Engineering Services – includes staff resources focused on capital projects, master planning, and construction inspection
- Facilities – incorporates costs to operate and maintain all of the City buildings, including utilities.
- Fleet Maintenance & Operations – represents costs for regular maintenance and repair of the City's fleet of vehicles and large pieces of equipment.
- Equipment Replacement Fund – establishing a reserve to replace a vehicle or large equipment, divided evenly across an estimated life of service and depreciation schedule.
- General Services – a new allocation that combines the previous "Financial Services" and "Administration" allocations. This incorporates eligible administrative expenses for the City Council, Finance, Community Engagement, Planning, and Mayor's Office, with the Mayor's Office also including the City Administrator, HR and City Clerk functions.
- Information Services – includes staff resources, equipment and software licensing related to information technology and cybersecurity.

2025-2026 Cost Allocation

Below is a summary of those allocations across the various funds:

City of Snohomish - Cost Allocation Matrix								
2025-2026 Amended Budget								
	Fund	001		501	502	505	506
