

Maintaining Your Private Stormwater Facilities

So you have a private stormwater detention pond in your neighborhood.

Visit <http://www.ci.snohomish.wa.us/213/Stormwater>
to learn what you can do to keep your private stormwater facility healthy!

Why Maintain Your Stormwater Pond...

- It is required by the Snohomish Municipal Code (SMC) 15.16
- Stormwater runoff is a significant source of water pollution in urbanizing areas.
- Studies have shown *that properly maintained detention ponds* can be very effective at removing certain pollutants and providing necessary storage volumes during larger storm events.
- To protect our local lakes, streams, rivers, habitat and natural
